#### CALL FOR TEMPERANCE CON-VENTION.

All legal voters and Representatives of the People's Temperance cause of the village of Loup City are hereby called to meet in convention at Society hall, on the afternoon of Monday, March 17th, at 3 o'clock, for the purpose of nominating a People's Temperance ticket for the coming municipal election for Loup City to be held Tuesday, April 1st. All citizens having the wellfare of the city at heart, the preservation of law and order, and the clean and economical administration of city affairs, and who are willing to lend a hand by vote or otherwise to secure the nomination and election of a People's temperance ticket are earnestly requested to be present. A. S. MAIN.

The head of this column contains a call for a People's temperence conmove. We are to elect three trustees this year. Only Mr. Hayburst and Mr. Nightingale remain on the board. We are informed that Mr. Nightingale is naturally a no license man, if that be true then we have only to elect two out of the three to carry the day.

The Northwestern this year will take up the cudgel against the issuance of a license for a saloon. There is plenty of good timber to select from and but very little doubt that a temperance ticket if carefully selected, could win out. For the past two years we have noted more than ever the evil effects the saloon business of this town has been managed, or rather missmade the accused got off with a fee attachment. The back rooms of thought he could easier deceive and some of the saloons which have been operated here during the last year have been uses as gambling dens. They have been allowed to run on Sunday and no bones made about it. Young men from the country have been fleeced of their hard earned money and wives who need the proceeds of their husband's earnings have endured hardships instead. Last year an old experienced saloon keeper was allowed to run a saloon both Sundays and week days, to keep a gambling den and even prestitutes in his back saloon "parlors" and when he sold his wet goods to a young and inexperienced boy, and the citizens became wrathy and indignent the authorities had courage enough to tackle the boy, shut his shop and close his business. Are we to go on in this way or is it not time to call a halt?

Mr. Elsner, our present saloon keeper has been runing the best saloon lately we have had for a long while, much better than when he had opposition. Our town at present is rather quiet, but would it be so if two or three saloons were opened. We think not and therefore be lieve that the only proper thing to do is to vote them out.

WANTED-SEVERAL PERSONS OF CHARACTER and good reputation in each state (one in this county required) to represent and advertise old established wealthy business house of solid financial standing. Salary \$18.00 weekly with expenses additional, all payable in cash each Wednesday direct from the head offices. Horse and carriage furnished, when necessary References. Enclose self addressed tamped envelope. Manager, 316 Caxton Building, Chicago.

#### HAD TO CONQUE OR DIE

"It was just about gone" writes Mrs. Ross Richardson' of Laurel Springs, N. C., "I had Consumtpion so bad that the best doctors said I could not live more than a month, but I began to use Dr. King's New Discovery and was wholly cared by seven bottles and am now stout and well." It's an unrivaled life-saver in Consumption, Pneumonia, La Grippand Bronebitis; infalible for Coughs Colds, Asthma, Hav Fever, Croup o Whooping Cough Guarnateed bottle-50c and \$1.00. Trial bottles free a Odendahl Bros. Drug store.

We are not a prohibition but we do love law and order and if we can't get it in one way we will try another.

If you are for temperance show your colors in the coming spring campaign. If you are not "go way back and sit down.

Keep your name off of saloon pe titions if you want to be in a position to do the right thing when it comes to a show down. That time is drawing nigh.

Let us elect a village board that will at lesst nail down a plank once in a while, thus keeping it from underminding you at one end and flying up and hitting you in the face

What need have we of a city mar shall? Better knock cut the saloons and gambling dens. Better use the money to fix up the sidewalks instead of pensioning a marsuall. We always have a sheriff or constable bandy and they are almost always

The time for village election is drawing nigh and now is the time for the temperance people of this town to act. The diving dens and the unlawful conducting of the sa toon business for the past two years have given them good food for vention. We fall in line with the thought. The issue this year should be license or no license. We say,

were compelled to take the "Gold Cure," the mild delerium over silver, and a fancied ratio, has passed entirely away and the muddled brains of the worshopers at the sacred shrine divide. But what we was going to remark is of shrinking silver has give way to some common sense and reason again. No man of known intelligence will defend this question now, and yet, if it was an honest question once it is still an honest question; yet no body but a fool would ven. ture to defend or argue the question to-day. The trial of this money from the haphazard way in which question before the bar of public opinion was the greatest test of the honesty and intelligence of this peo managed, and no effort made to ple ever submitted to the public. they pay their company \$80.00 or \$100.00 for a check it. #### Free Local Ad. Column.

Chas, Gastever seems to be pretty well leased with the free local ad. which he got n this column last week and when we visited best eigar that he had in the house, that is he often happen around Gasteyer's and that eig ars commonly called "2-fors" don't go when it comes to paying the printer on Saturday night or the newspaper bill at the end of the month We like your friendly feeling but a Since Bryan and his followers little more eash patronage or a sack of four would be more appreciated.

> The Keystone Lumber Company has in its rards a stack of fence posts so high that when its maniger gets on top of them it would that he could see clear over the great that if the Keystone Lumber Company could afford to advertise a little it would no doubt reduce that pile of posts to a minimum in a short time. As it is they have stood there antil they are weather beaten and worm eaten and some of them have even contracted knots. The smaller ones however are nice. The grain is so nice and straight that you can split them with a wire fence nail or staple. A little judicious advertising might work them off.

> The Ravenna Creamery Company doing bus iness here has work up a good trade, and why should at it? Their principal stock in trade is to educate the farmers, and to show up the excellent device they have for seperating the cream from the milk. They want the farmers to distinctly understand that if shimmed cream, you know where. This may be so, but what we wanted to call attention to is that although they believe, in and do use a liberal amount of printers ink (or rather the printer uses it for them) they never pay for it. t is'nt exactly advertising you know, only educating the farmer, and the editor is ex pected to write editorials explaining this hundred dollar machine called a seperator with the J. I. C. left off. We saw one in operation the other day and must say that t did nice work. If it had a four horse pow er attachment it would have run like a ball bearing bycicle. But what we was going to say! was that we received an educational artcle from the Ravenna Creamery Company for publication with the request that we insert it as a complimentary. We did so, and strange as it may seem the same darned thing, which was supposed to be an original editorial, appeared in all of our exchanges throughout the territory whereever the company was doing business. Hence we say that this company is doing a rushing business, and when the newspapers (not the company) gets the farmers thoroughly educated and a seperating machine established on every farm it will no doubt be a howling success.

Since we have opened up this free at column statements reported to have come from Mr. Conhiser leads us to think that he is like a horse hair in a stagneat pool. He is coming to life and is beginning to wiggle. And vet some folks will contend that it does not pay to use printers ink.

A certain business man said the other day to a certain citizen that if Benschoter didn't "But you assisted and favored keep his name out of this column he would jump on to us all spraddled out. Well he can't spraddle any two soon. We will run this paper to suit ourself and not to the dictations of any one. But what we were going to say is if you want to know who that person was, wait until you hear something spraddle.

> O. F. Peterson, the popular merchant on the north side of Broadway, this city is enlargabove and adding it as a warehouse to the rear. It is thought that he has recently made a large sale of baby ribbons and safety pins, from which he has realized profit sufficent to fix up some. We hope he will soon be in a position to use printers ink. Perhaps a few more such sales will bring this about.

If you are a merchant, a professional man a real estate agent, a hotel keeper, blacksmith, a stock buyer or in fact doing business in a commercial way in Loup City and really cannot afford to advertise, wait a little, be patient and we will try and work you in this free ad column.

HEAD NOISES CEASE IMMEDIATELY. Being entirely cured of deafness, thanks to your treatment, I will now give you

Gentlemen: — Being entirely cured of deafness, thanks to your treatment, I will now give you a full history of my case, to be used at your discretion.

About five years ago my right ear began to sing, and this kept on getting worse, until I lost my hearing in this ear entirely.

I underwent a treatment for catarrh, for three months. without any success, consulted a number of physicians, among others, the most eminent ear specialist of this city, who told me that only an operation could help me, and even that only temporarily, that the head noises would then cease, but the hearing in the affected ear would be lost forever.

I then saw your advertisement accidentally in a New York paper, and ordered your treatment. After I had used it only a few days according to your directions, the noises ceased, and to-day, after five weeks, my hearing in the diseased ear has been entirely restored. I thank you heartily and beg to remain the diseased ear has been entirely restored. I thank you heartily and beg to remain the diseased ear has been entirely restored.
