The bowling is getting to be a pretty noisy game. Last Friday night the excitement ran so high that the noise thus created was almost sufficient to wake the dead, to say nothing about the tired and worn out fellow who wanted a little sleep. Mr. Niles M. Nilson, of Hazard made us a friendly call Monday and subscribed for this paper. He is one of the substantial farmers of that section and is giving his time and attention to the dairy business. At present he is milking 19 head of cows from which he realizes nearly \$900 per month. His check for the last two weeks' receipts from cream was \$44.00 which is about the average. Mr. Nilson says that he realizes about \$45. per head per year from his cows, \$30. being from cream and the balance for the calf. He sells his cream at the Hazard station which is a branch of the Omaha dairy plant. He is agent for the improved United States cream separator, which make him is now using with the best of satisfaction. Frank Bonczynski, of Rockville township was in to pay his respects to the printer last Saturday and renewed his subscription to this paper. Mr. Bonczynski came to Sherman county in 1878 and bought a quarter section of railroad land. He now has 1,000 acres of good Sherman county soil. He has been engaged in farming and stock raising and this year has 200 acres of winter wheat, 70 acres of spring wheat, 60 acres of oats, and 30 acres of rye which he is now harvesting. He estimates his winter wheat to yield 30 bus. per acre. Mr. Bonczynski also has 200 acres of growing corn, 100 head of hogs and about 50 head of cattle. He came to this county and bought his first quarter section on ten years time and had to borrow the money to make first payment. This is about the greatest success we have recorded for some time and is due wholly to his own efforts. It will serve to show what inducements this country holds out to those who are seeking homes.

Good Horse Sense will tell you that old eggs and glue are not things you want to eat; yet some coffee roasters glaze their coffee with such things. Not so with Lion Coffee. It was a case in which Mr. Dobson sued for the value of some loose property that he claimed was to revert to him with the purchase of the Wilson farm, but was afterwards sold by Wilson at a public sale. A verdict by a jury of five was rendered in favor of Wilson. It has been a little wet here for harvest, but we think that the statement made by the Times in its last issue, to the effect that lots of grain will rot or remain standing in the field because they cannot get on to the fields with binders, is far fetched. Every binder in the country is already hard at work, and it will be but a few days until all of the winter wheat and rye will be in the shock. Roland Shestler, of Riverton Nebraska and who has a position in the Roller Mills at that place includes a dollar bill to us for this paper and writes: "Everything here has been flooded. Our mill dam here is the only one left on the Republican valley for a hundred miles and it was badly damaged. Thousands of bushels of grain have been damaged by sprouting in the shock and every clear day finds the farmers re-setting their grain.
