

BISHOP JOHN M. FARLEY TO BE GIVEN SEE OF NEW YORK

Bishop John M. Farley, who, it is reported, has been recommended by the propaganda for appointment to the archiepiscopal see of New York, has been the auxiliary bishop of that diocese since 1895, in which year he was consecrated bishop of Zeugma. In 1884 Pope Leo had already given Dr. Farley the title of monsignore, and in 1891 he was made vicar gen-

eral of New York. The prospective archbishop was born in Armagh, Ireland, sixty years ago, and was educated partly in his native land and partly in St. John's college at New York, in the American college at Rome, and in St. Joseph's Seminary at Troy. He has been a priest for thirty-two years. The appointment is popular in New York.

DREAD DISEASE OF SAMOA

Is Caused by a Worm-Like Animal That Lives on Mosquitoes.

Dr. Verner Lyman Kellogg, head of the department of Entomology of Leland Stanford university, who accompanied D. S. Jordan on his summer trip to Samoa, has returned to the university, bringing with him many specimens of sea and island life to be added to the National Museum at Washington. His investigation of the fallaria, a worm-like animal living on mosquitoes and producing in human kind the dread skin disease elephantiasis, was thoroughgoing. Most half the native population of Samoa is afflicted with this disease, and at the suggestion of Capt. Sebree, United States governor of the American Islands, Dr. Kellogg has devised a plan looking to the removal of the scourge by preventing the use of infected water, etc., by the natives.

Out of the Ordinary.

A novel twentieth century memorial has been erected at the head offices of the Bridgewater trustees' extensive Lancashire collieries. The public clock now strikes thirteen instead of one in order to enable the workpeople to resume operations promptly after dinner. The device is the original idea of the Duke of Bridgewater, who, in the eighteenth century erected a similar clock at Worsley to meet the workpeople's complaint that they sometimes failed to hear the clock strike one.

Popular Woman Lawyer.

Miss Sue M. Strauss of Montrose, Pa., has just been licensed to practice law, and so popular is she among her neighbors that on the day she "hung out her shingle" she was retained in no less than seven different cases.

Immense Cotton Mill Projected.

What is to be the largest cotton mill in the world is to be located soon near Kansas City, Mo. The investment will reach about \$10,000,000.

SWIMS THROUGH WHIRLPOOL RAPIDS

Carlisle D. Graham performed his seventh sensational feat in the waters of the Niagara river and gorge last week. This was to swim from the whirlpool through the rapids of the lower section of the river to Lewiston.

No other human being has swum this section of the river and lived. But Kendall, a Boston policeman, did swim through the rapids above the whirlpool and come out all right. His feat was greater than Graham's.

Graham made his start from the New York shore of the pool, leaving a ledge of rock and slipping into the water a short distance above the outlet, so that he rounded the sharp angle and turn, dashing through the mighty waves that roll there. The trip was full of peril.

Graham kept well out in the water, even to the Canadian channel. The worst water with which he had to deal was at the Devil's Hole. As he met the great waves he disappeared frequently.

He was supported by a cork vest and a life ring. The course of the swim was about four miles long. In the quiet water near the suspension bridge at Lewiston a boat took him in tow. As he neared the dock he again took to the water and swam ashore while over 10,000 people cheered his arrival.

SECRETARY WILSON IN STATE.

Unexpectedly Pays a Visit to the Nebraska Fair.

LINCOLN, Neb., Sept. 6.—The board of agriculture had as its guest at the fair for a few hours James Wilson, secretary of the United States department of agriculture at Washington. His coming was a surprise. He had been invited several months ago, but no definite answer having been received, his appearance was not advertised. He was able to make Lincoln, however, and on his arrival here the announcement of his appearance greatly gratified the members of the state board of managers. He spoke at the race track before the amphitheater. His general theme was on the subject of agriculture. At the outset he spoke of the efforts of the federal department of agriculture in sending out after information relative to agricultural products that will benefit the United States. He spoke in a complimentary way of Ernst Bessey of Lincoln, who at present is in Russia, where he is acting as one of the army of men interested in the acquisition of knowledge that will benefit the farmer of America. The government hopes to bring the people of this country information which will permit them to grow here everything that they use.

To assist in this work Secretary Wilson mentioned another series of efforts now being undertaken. The department hopes to teach new and improved methods to the people of the new lands that have come under the control of this government. The islands are fertile and capable of great productivity if the soil is properly tilled.

Turning to Nebraska, Mr. Wilson paid her every compliment of which he thought her worthy and they were many. He made no reference to his hurried visit to the state during the heated term when everything was drying out, but as if to show his appreciation of her efforts in an agricultural way, he said the state was raising some of the best crops of any state in the union. He had seen the best hay crop in Nebraska that he ever saw in his life. The corn crop was immense and he thought the farmers would realize magnificently from it because the drouth in the southern states would create a big demand for the products raised here.

INDIANS DOING NO DAMAGE.

Mayor of Naper, Neb., is Needlessly Alarmed.

STUART, Neb., Sept. 6.—Some of the Indians who created the excitement at Naper were in Stuart.

Several hundred Indians came over from the reservation to participate in the festivities of a three days' carnival and wild west show at Naper. Following the examples of their white brothers several bucks loaded up with fire water and made night hideouts by war whoops and the firing of revolvers. The mayor became excited and requested rifles and side arms of the governor. But when the effect of the bad whisky had worn off peace reigned again in the wigwags of the Sioux. Old-timers declare there was never danger at any time except to the nerves of the uninitiated tenderfoot.

Two Weeks More for Corn.

WINSIDE, Neb., Sept. 6.—The weather changed Sunday night and prospects are now for clear and cool days. Much wheat and oats are still in shock and if this weather continues will be threshed within the next ten days. Dry weather would improve corn very much and even a slight frost would not injure it, as it is growing yet and should be ripening. Conservative farmers think that two weeks more would put most of our corn out of the way of frost.

Ate Green Cornstalks.

NEBRASKA CITY, Neb., Sept. 6.—William Gress, a farmer residing north of the city, lost fourteen head of milch cows a few days since in a very singular manner. He turned them out into a field of corn where all of the corn had been gathered and sold to the canning factory, and after they had been out there a day they were brought in and began to sicken and die. All fourteen head died despite the efforts made to save them.

Valuable Animal Killed.

HEBRON, Neb., Sept. 6.—During the rain storm a valuable two-year-old Hereford bull on the farm of C. A. Meyer, five miles west of here, was struck by lightning and instantly killed.

No Coal in Sight.

FREMONT, Neb., Sept. 6.—Fremont users of anthracite coal are awakening to the fact that the miners' strike in the east is going to have a serious effect here as elsewhere. At the present time not a ton of the coal can be bought here at any price, and in fact no prices are being quoted. All that was in the hands of the local dealers has been disposed of and most of it delivered.

FAIR A SUCCESS

OPENS UP UNDER VERY FAVORABLE CIRCUMSTANCES.

GREATER AND BETTER EXHIBITS

Lancaster, Dundy, Kearney, Saline, Franklin, York, Washington and Other Counties Have Fine Exhibits—Miscellaneous State Matters.

LINCOLN, Neb., Sept. 3.—The Nebraska state fair and exposition made its thirty-fourth annual bow to the people on the first and was cordially received. Never in the history of the board of agriculture was a state fair opened under such auspicious circumstances. The exhibits are greater in number and better in quality and represent a wider range of subjects. The interest manifest seems to be more widespread and everything, in fact, seems to indicate that the prediction of Secretary Furnas that the fair will pass into history as the best ever held will easily come true.

Of all the exhibits on the grounds there are none more illustrative of the rich resources of the state than those found in the agricultural building. In this department there are collective exhibits from sixteen counties—Lancaster, Dundy, Kearney, Saline, Franklin, York, Washington, Nemaha, Howard, Hayes, Antelope, Cuming, Gage, Brown, Hitchcock and Thomas. Practically everything displayed by these counties in the collective class was grown without irrigation.

In the fisheries building there are upward of 5,000 representatives of the finny tribe on display, including some rare varieties. In a large tank in the center of the building is a channel catfish which tips the scales at 126 pounds. This mammoth fish has as his companion in captivity a spoonbill catfish, the first ever shown at the fair. This latter fish resembles the ordinary catfish with the exception that it has a long spoon bill, measuring ten inches from the teeth.

Taken as a whole, the state never made a better showing at its fair, and that it will be alike successful in attendance seems at this writing to be a foregone conclusion.

Three Requisitions Issued.

LINCOLN, Neb., Sept. 3.—Three requisitions ought to be enough to bring James S. Romine back to Nebraska. He is now under arrest at Worcester, Mass., and the governor signed papers to secure his return. Some time ago he fled from Scotts Bluff county in disguise and under an assumed name. Left behind him were numerous people stirred up over his doings. William P. Blackburn vows that he secured from him \$1,646.33 through false representations in a deal over a stock of goods. Another charge is that he reaped securities worth \$20,000 by false pretenses. Still another charge is that he fraudulently transferred property. Sheriff Rooney C. Campbell of Scotts Bluff county is equipped with the requisitions and will spring them one after another until Romine succumbs.

Overcome by Dancing.

EMERSON, Neb., Sept. 3.—Miss Marie Kerwin, daughter of John Kerwin, died after a very brief illness of heart failure. She attended a dance and participated in almost every number until midnight, when she was taken with fainting spells, from which she did not rally. She was about 20 years old.

Arrested on Charge of Rape.

TABLE ROCK, Neb., Sept. 3.—George Law, who is the delivery man at Wheeler's meat market and who has resided here only a few weeks, coming from Falls City, was arrested on a warrant sworn out before Justice M. H. Barble charging an assault with intent to commit rape.

Former Grafton Resident Killed.

GRAFTON, Neb., Sept. 3.—A message received here announced that George Brady of Peoria, Ill., had been killed. No particulars were given. He formerly lived here and later at McCook, where he was employed in the Burlington railroad shops.

Increases Hastings' Population.

HASTINGS, Neb., Sept. 3.—The recent division changes and change in running of trains on the Burlington & Missouri means quite an addition to the number of company employes here. Twelve families will remove from Lincoln here.

Tramp Falls Off the Train.

LEXINGTON, Neb., Sept. 3.—When train No. 4 arrived here the other morning, four hours late, two tramps got off the tender and reported to the night operator that a companion had fallen off the train east of Cozad. The section men were notified and with a hand car went west on a search. Two miles east of Cozad they found a body, which they brought to this city. Coroner Miller was notified and an inquest held.

MADE A CLEAN SWEEP.

Cashier Chamberlain Took Everything in Sight When He Fled.

TECUMSEH, Neb., Sept. 8.—Poor judgment, recklessness in the investment of funds, then dissipation and finally embezzlement and disappearance, all on the part of the trusted cashier and sole manager, Charles M. Chamberlain, were the combined causes of the financial wreck of the Chamberlain banking house of this city. A few days ago this was supposedly one of the strongest institutions in the community. The people generally thought Chamberlain was square and they gave him their confidence and their money, and both were manipulated by the shrewd banker in a manner which shows now that he was a master in the art of deception.

It is impossible for those now in charge of the bank to estimate safely what percentage of the deposits will be paid. From all that has been learned thus far, however, it would be conservative to say that the bank will not pay over 50 per cent. The dividends may amount to a trifle more than that, but will probably be much less.

Today the Chamberlain banking house stands about as does a building which has been gutted by fire. The walls remain and here and there a pillar or some part of the structure is found intact, but the greater part of the interior is literally cleaned out. The value of the mass of notes left in the bank, showing \$80,000 on their face, is problematical. In the pile are securities that are long past due, some that have been paid off and many that are worthless.

Comparatively little is known by the people of Tecumseh regarding the actual condition of the bank. They know that the institution is closed and that Cashier Chamberlain has disappeared, but as to the state of the funds, they are almost as far in the dark as they were before the failure.

SAYS ROAD IS SURE TO BE BUILT.

Riley Talks of Electric Lines and Platte Power Canal.

PLATTSMOUTH, Sept. 8.—J. E. Riley, the promoter of the Platte river canal project, was in the city and stated that "The hydraulic engineers are expected in Omaha soon, and will make a thorough investigation of the project. In reference to the electric railway, I can say that it will be built, whether the power is canal or not. While the first survey is completed to the city of Lincoln, another is contemplated east of this place, which has Nebraska City for its objective southern terminal, instead of Lincoln. The Mortons of Nebraska City want to build and own the line from there to Weeping Water.

"The Plattsmouth branch will be built, but the Plattsmouth people will be expected to give the right of way to our main line. We are receiving encouragement all along the line."

Train Backs Into a Depot.

SUPERIOR, Neb., Sept. 8.—A Santa Fe freight train made a pretty complete wreck of the Santa Fe-Northwestern freight house here. The freight house, which is a large frame affair, stood upon a foundation of piles. The engineer sent the train down the freight track too hard and it went plunging through ten feet of heavy platform and into the freight house. The whole building was knocked off the piles about four feet and racked out of shape.

Abundant Crops in Brown County.

AINSWORTH, Neb., Sept. 8.—A careful investigation reveals the fact that Brown county has the largest crop of small grain ever grown here. The prospects for a large corn crop were never better. In the canons of the Niobrara river and Pine, Plum and Bone creeks there are thousands of bushels of wild plums and grapes. The growth of all kinds of vegetables is something wonderful.

Edgar Man Badly Scalded.

EDGAR, Neb., Sept. 6.—Oscar Byers, one of the employes in the Edgar canning factory, was very badly scalded. While carrying a pail of boiling water he tripped and fell, and in falling the boiling water was thrown upon his right shoulder, the right side of his head, neck and face and also his right arm and hand. His right leg is also scalded below the knee.

Refunding Bonds Defeated.

WYMORE, Neb., Sept. 8.—The refunding bond proposition was submitted to the voters of this city and was defeated by nine votes.

Crushed in a Horse Power.

ULYSSES, Neb., Sept. 8.—N. Malone, a well known resident of this place, 70 years old, while driving a horse power had his foot caught in the cogs and was crushed in a horrible manner.

Month's Rainfall in Gage.

BEATRICE, Neb., Sept. 8.—The rainfall for the month of August, 1902, amounted to 4.07 inches. In August, 1901, it was 3.06 inches.

THE LIVE STOCK MARKET.

Latest Quotations from South Omaha and Kansas City.

SOUTH OMAHA.

CATTLE—There was not an excessive run of cattle, and as the demand was active for both killers and feeders, the market ruled active and stronger on all desirable grades. Cornfed steers were in good demand and the few cars that were offered sold at fully steady prices. The cow market was active and all good stuff sold stronger. The proportion of cows was not large, so that buyers rode fast and everything was disposed of in good season. Bulls, veal calves and stags were all in good demand where the quality was at all satisfactory and the prices paid were fully steady. Although the big bulk of the receipts consisted of feeders, the demand was fully equal to the occasion and the market ruled active and steady to strong anything at all desirable. There were not so very many range steers on sale that were good enough for packers and besides that feeder buyers were active competitors on a good many of the more desirable bunches, so that packers had to pay steady to strong prices for what they got. The cow market was active and strong to a dime higher on the better grades and other kinds were steady to strong. Good stockers and feeders, met with ready sale at strong prices, with the commoner grades about steady.

HOGS—The light receipts of hogs continued at all points, but in spite of that fact the tendency of prices was downward. Packers started in bidding weak to 5c lower than yesterday's general market, and that was about the way the hogs sold. The bulk of the sales went from \$7.30 to \$7.35 and as high as \$7.50 was paid for choice hogs. The greatest decline was on the common grades and especially on the coarse heavy packers, while the choice butcher weights sold to the best advantage.

SHEEP—Quotations for clipped stock: Good to choice yearlings, \$3.00@4.15; fair to good, \$2.00@3.00; good to good wethers, \$2.40@3.60; fair to good wethers, \$2.25@3.40; choice ewes, \$3.00@3.25; fair to good ewes, \$2.50@2.90; good to choice lambs, \$5.00@6.25; fair to good lambs, \$4.00@4.50; feeder wethers, \$2.75@3.40; feeder yearlings, \$3.25@3.60; feeder lambs, \$3.75@4.50; cull lambs, \$3.00@3.50; feeder ewes, \$1.25@2.50.

KANSAS CITY.

CATTLE—Corn cattle, cows, quarantine, stockers and feeders, steady; choice export and dressed beef steers, \$7.20@8.00; fair to good, \$3.10@7.15; stockers and feeders, \$2.00@4.75; western-fed steers, \$3.35@4.15; Texas and Indian steers, \$3.35@4.15; Texas cows, \$2.50@3.05; native cows, \$1.50@1.15; native heifers, \$2.50@4.75; canners, \$1.00@2.15; bulls, \$2.50@4.00; calves, \$2.75@3.25.

HOGS—Slow, 10@15c lower; top, \$7.65; bulk of sales, \$7.45@7.55; heavy, \$7.45@7.65; mixed packers, \$7.40@7.55; light, \$7.20@7.35; yorkers, \$7.50@7.55; pigs, \$6.00@7.30.

SHEEP AND LAMBS—Market steady; native lambs, \$3.25@5.00; western lambs, \$3.00@5.25; native wethers, \$3.40@4.00; western wethers, \$2.90@3.50; fed ewes, \$3.20@4.25; Texas clipped yearlings, \$3.00@3.25; Texas clipped sheep, \$2.90@3.25; stockers and feeders, \$2.90@3.00.

Will Stop En Route.

WASHINGTON, D. C., Sept. 6.—Lieutenant General Miles intends to make an inspection of the military defenses along the Pacific coast before embarking for the Philippines. General Miles will not be able to leave Washington on next Wednesday, as was expected, but instead will time his departure so as to sail on the transport Crook, which is scheduled to leave San Francisco for Manila September 30.

The general has for some time cherished a wish to inspect the stations along the Pacific, and if time will permit he will make quite an extensive tour through Washington, Oregon and California.

Is Discussed in England.

LONDON, Sept. 5.—The escape of President Roosevelt has universally called out in the London dailies congratulatory and eulogistic editorials and unanimous expressions of England's thankfulness that he was spared to his country. The Daily Telegraph says: "President Roosevelt has taken in his time many risks, but he never cheated death by a narrower margin. A singularly dramatic moment, such as this occurrence will confirm among the mass of the American people the feeling that Roosevelt is in the best sense of a once suspected word, 'Their man of destiny.'"

Prof. Wiley Seriously Ill.

MADISON, Ind., Sept. 6.—Relatives here have received information that Prof. Henry W. Wiley, chief chemist of the United States Department of Agriculture, is very ill of appendicitis at Venice, Italy.

China and England Agree.

SHANGHAI, Sept. 6.—Sir James Mackay, the British tariff commissioner, and the Chinese commissioners signed the treaty between China and Great Britain.

Carpenters Get an Increase.

NEW YORK, Sept. 6.—Eight thousand carpenters of this city won their strike for an advance of 50 cents a day when the Master Carpenters' association late last night, after a conference of seven hours, granted the demand. The strikers in addition asked the employers to agree not to employ carpenters of any other union. This the employers positively refused and the carpenters accepted the 50-cent advance.
