A child of Mrs. Geo. T. Benson when getting his usual Saturday evening bath stepped back against a hot stove which burned him severely. The child was in great agony and his mother could do nothing to pacify him. Remembering that she had a bottle of Chamberlain's Pain Balm in the house, she thought she would try it. Bill says it makes no difference whether it is a smooth shave or not, its all the same price.

There will have to be a little change made in the furnace flues at the school house. It seems that after the north flue had been constructed all regular up to the attic a mistake was made and the smoke stack part was covered over with brick and discontinued, while the hot air flue which should have been stopped was built on up through the roof. The one will simply have to be plugged up and the other will have to be opened and built on up. They have also experienced some difficulty on the south side by locating the smoke stack in the hot air flue, but the workmen say that the plans plainly indicated it so. On this side it will necessitate the relocating of the registers. When the furnace was started up for trial last Sunday morning a good fire was put on and in a few minutes the rooms above were full of smoke. It was discovered in time to prevent any damage.

Something New, What is it? There's a new kind of cough going the rounds of the town.

And in many homes the thing may be found. This new fashioned cough no remedy can reach; It sticks in the throat as tight as a leech. It is neither a gripper, bronchitis, or cold, But seems to be worse than these ailments of old.

Now all that it needs is a professional name. Which may be supplied by Jones or by Main.

Invaluable for cuts, burns, bruises, sprains, lacerations, tetter, salt rheum, and all other skin diseases. Look for the name DeWitt on the package—all others are cheap, worthless counterfeits.
