"If women would pay more attention to their health we would have more happy wives, mothers and daughters, and if they would observe results they would find that the doctors' prescriptions do not perform the many cures they are given credit for.

"In consulting with my druggist he advised McElree's Wine of Cardui and Thedford's Black-Draught, and so I took it and have every reason to thank him for a new life opened up to me with restored health, and it only took three months to cure me."

Wine of Cardui is a regulator of the nenstrual functions and is a most astonishing tonic for women. It cures scanty, suppressed, too frequent, irregplar and painful menstruation, falling of the womb, whites and flooding. It is helpful when approaching womanhood, during pregnancy, after child-birth and in change of life. It frequently brings a dear baby to homes that have been barren for years.
