There seems to be a general complaint among the men when the time for house cleaning is upon us. If they don't want to help move the furniture, why, let them get out of the way and let the women do it. We suggest that it doubtless would make domestic affairs more agreeable if the men would use the rake in the back yard while the scrubbing is going on inside.

The greatest danger from colds and grip is their resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the tens of thousands who have used this remedy for these diseases we have yet to learn of a single case which has resulted in pneumonia, which shows conclusively that it is a certain preventative of that dangerous disease. It will cure a cold or an attack of the grip in less time than any other treatment. It is pleasant and safe to take. Sold by Odendahl Bros.

The high wind of last Sunday tore the tin roofing off the shed part to F. E. Brewer's building and landed it in the top of some trees on the line between Messrs Hunter's and Pedler's residence when, after some time it became dislodged and came down into Pedler's garden with a crash. In its flight it went as high as Mr. Hunter's wind mill and then dropped just in time to catch the comb of his house, doing very slight damages. Mrs. Pedler was out in the yard at the time and but for the trees might have been seriously injured. It made a noise like a cyclone and very much frightened her.

Every several days the blood, muscles and bones of a man of average size loses two pounds of worn out tissue. This waste cannot be replenished and health and strength keep up without perfect digestion. When the stomach and digestive organs fail to perform their functions, the strength lets down, health gives way, and disease sets up. Kodol Dyspepsia Cures enables the stomach and digestive organs to digest and assimilate all the wholesome food that may be eaten into the kind of blood that rebuilds the tissues and protects the health and strength of the mind and body. Kodol cures indigestion, Dyspepsia and all stomach troubles. It is an ideal spring tonic.—Sold by Odendahl Bros.

This section experienced one of the worst snow storms ever had here at this time of year, since the origination of the county. At least that is the way some of the oldest settlers remember it, while some seem to remember of a similar storm at this time of year back in the 80's. However that may be, after several hours of rain and sleet it developed into a genuine northwestern blizzard, and for the greater part of 24 hours snowed and blowed to such an extent that great drifts were piled up on every side. For thirty-six hours the mercury was below freezing point, and the fruit and shade trees, which were practically all out, were hanging full of ice and it is certain that there will be no fruit this season. Nearly all the fruit trees of every variety were in bloom, and great beads of ice formed a covering for each blossom. It began raining Monday. On Tuesday the rain continued with a cold wave, which, in the evening became worse as above stated, and lasted all day Wednesday. On Thursday morning the sun came out clear and beautiful, and as we go to press the snow is melting rapidly.
