

We have purchased the complete outfit of type of Mr. David Kay which he used some twelve years ago to publish the Farmer's Alliance paper at this place. The outfit consisted of 48 cases, many of them laid with two fonts of type. In all, there are from 60 to 65 fonts of display and job type, besides about 400 pounds of body type and several cases of slugs rules ornamental fonts, etc. etc. The type is nearly all new, so far as wear is concerned, but little the worst for mix up. We hope however to have it straightened out for use in a few weeks and then, when added to our already large assortment we can boast of having an outfit with which to turn out as good job work as can be done in most any city office.

As our office now stands we have over 700 pounds of body type and about 125 different job and display type faces, and can give our customer in all cases exactly what he wants, as to style in all display work. One thing we wish to mention is that we have all material necessary for fine book work, or poster work. Give us your order in this line and we will assure you an excellent job.

The campaign in Sherman County will soon open and it is about time to cast about for good material for nominees. There is but little doubt that, if the republican party, at the next county convention nominate good men the whole ticket can be elected. A full set of county officers except county attorney is to be elected, including the new office for assessor, created by the legislature at the last session.

That Mr. Gibson should be re-nominated for a second term, as county clerk there should be no doubt in the mind of any republican. He made an excellent race in the campaign two years ago, and his record as an officer is just as good. He should receive the hearty endorsement of the convention. The balance of the ticket should be well and carefully selected, and if that is done no republican need fear the result. This is a republican year not only in state and nation but in county as well.

The reports from Jackson, Ky., where the trial of Curtis Jett and Thomas White charged, with killing attorney J. B. Marcum, is to the effect that the jury is in a state of terror and is afraid to bring in a verdict of guilty. It is stated that the prosecution was compelled to rest their case without the attendance of material witnesses as fear of assassination kept them away. Kentucky is getting up quite a reputation for lawlessness and it may be necessary for Uncle Sam to again take a hand in the proceedings.

National Medicine Co. St. Paul Neb. April 9th, 1903
Gentlemen: This is to certify that I have used Liquid Koal for ergot disease in cattle and believe it to be a cure for this disease from the experiments I have made, but believe it should be used when the animal is first taken with disease. And for a lice killer it can't be beat by anything I know of. Yours respectfully, W. L. LITTLE.
