AS TO COLOMBIA.

She May Try to Put Up a Bluff at Fighting.

COLON-A person who is in intimate association with General Reves, who has seen much of the general during the past few months and who is thoroughly familiar with the interior of Colombia, speaking to the Associated Press correspondent Tuesday concerning the probable course which General Reyes will pursue at Washington, said he thought that Reyes would make every effort, no matter how helpless, to secure a settlement the integrity of Colombia. Thinking his position to negotiate to this end would be stronger if he had an armed force in the field, the Associated Press informant said it was not improbable that General Reyes would order propa rations for an attempt to invade the isthmus. Generals Sarria and Bustamente left General Reyes at Port Limon. Sarria returning to Bogota and Bustamente to the province of Antioquia. It is possible that they carried General Reyes' orders to undertake warlike preparations, if it can be proved that such preparations will strengthen Reyes' position or if the generals think that the people of Colombia require such propitiation. "Colombia's extremity is severe and her chagrin over the loss of the isthmus is so great," said the Associated Press informant, " that it would not surprise me to see the republic of Colombia eventually asking admission into the republic of Panama, all other efforts failing. Already isthmians are expecting the influx of prominent Colombians, who doubtless regret that they were not in the isthmus when independence was accomplished in order to partake of its benefit." General Reyes hopes the United States will withdraw to some extent from the position it has taken, possibly to the extent of giving Colombia an opportunity to recapture the isthmian territory. Believing this possible, the attitude of General Reyes is understandable. Failing to accomplish anything at Washintgon, Royes might find , necessary, owing to the political situation in Colombia and the need of propitiating the people, to do his utmost to preserve Colombian integrity, even to the extent of leading a forlorn hope, possibly with the expectation that aid might be given by some European power.

There are rumors in the city of a revolution in the state of Cauca, directed against the Marroquin government.

Rumors have reached the state department from another source that General Reyes' mission to Washington is primarily to try to array opposition senators against the ratification of the Bunau-Varilla-Hay canal treaty.

There is also taik of formation of a combination of South American countries directed against the United States. Respecting the coming of General Reyes to Washington, it is said at the department that much depends upon the nature of his credentials as to the reception he will have. It seems probable that if he is brought to the department by the Colombian be accorded a respectful hearing. But it also is pointed out that his activities must be confined to lawful channels as an alien and any attempt on his part to influence by direct representations any other than the executive branch of the United States govwith equanimity.

Respecting the statements attributed to the general in a New Orleans interview that Colombia would send 100,000 men into Panama overland, the fact is recalled that the instructions to the United States naval offi-

CHICAGO OR ST. LOUIS LIKELY TO CAPTURE IT.

OTHER PLACES IN THE FIELD

St. Louis Will Make a Special Effort-New York Hopes to Get the Gathering-When the Convention Will Likely Be Held.

WASHINGTON-It is thought highly probable that the next republican national convention will be held in Chicago, and that the date of its meeting will be Tuesday, June 14. That is the opinion of several members of the national committee, although of course the place and date will not be decided until the meeting of the committee, which Chairman Hanna has called at the Arlington hotel in this city for December 11 and 12.

The opinion will not preclude the usual interesting and lively struggle between rival aspirants for the honor. Seven cities will this year present their claims, with more or less display of oratory and earnestness. These are Chicago, New York, Pittsburg, St. Louis, Milwaukee, Detroit and San Francisco. It looks as though the struggle would be narrowed between Chicago and St. Louis.

St. Louis will make a special effort to add a national political convention to the list of attractions in connection with the Louisiana Purchase exposition. It will be urged that there will be ample hotel accommodations, and attention will be called to the successful entertainment in St. Louis of the republican convention that nominated McKinley in 1896. The point will also be pressed that everyone who attends the convention will wish to visit the exposition, especially those who come from distant parts of the country, and thus will be able to avoid the time and expense of two journeys during the summer of the exposition and convention

Pittsburg will press its claims seriously. It will promise excellent hotel accommodations and will urge good of the Panama situation to preserve railway connections. Philadelphia has encouraged Pittsburg by keeping out of the contest, being content with having enjoyed the honor of entertaining the second McKinley convention in 1900.

State department officials are awaiting a report from the United States consul at Cartagena, respecting the refusal of the port authorities to allow him to communicate with the British merchant steamer Trent. It is the conviction at the department that the officials at Cartagena, which is in the province of Bolivar, are acting entirely without authority from the Colombian government at Bogota, and, in fact, it is suspected that a state approaching anarchy exists throughout Colombia.

NO PEACE FOR SAN DOMINGO.

Attempt to Compromise Fails and Bombardment Must Continue.

SAN DOMINGO, Republic of San Domingo, Sunday .-- President Wos y Gil, in his efforts to bring about a peaceable arrangement with the insurgent forces which are besieging this city, today commissioned United States Minister Powell, the Belgian minister, the minister of Hayti and the Spanish consul to visit the insurgent camp. Consequently an armistice was agreed upon, to expire at noon, and the peace commission conferred with the insurgent leaders. The latter, however, refused to entertain the peace proposals and demanded the surrender of the city, but they prolonged the armistice until 6 o'clock this evening, after which hour the bombardment of San Domingo was resumed and will be continued until the

capital falls. The United States minister's residence was destroyed during the previous bombardment. The inhabitants of this city are in

Rumors of Dissolution.

New York has been suggested for years as an admirable convention city. and no doubt many of those who will take part in nominating the next president would enjoy a visit to the metropolis of the country. New York has always shown an air of indifference as to whether the convention should come there or not. But it is said that representatives of the republicanism organization there will appear this year and urge its selection.

The probable date of the convention corresponds with that of four years ago. If the plans of the republican managers do not miscarry congress will have adjourned before the second week in June, and that date will allow ample time for thorough preparations for the campaign, whose months of chief activity will be September and October.

THREE HUNDRED MOROS KILLED

Fighting in Vicinity of Jolo is Most Sanguinary.

MANILA-Three hundred Moros are known to have been killed and many others were carried off dead and wounded as a result of fighting in Jolo between the American troops under General Leonard Wood and the insurgents.

Major H. L. Scott of the Fourteenth cavalry and five American privates were wounded.

General Wood landed near Siet lake, in Jolo, November 12. The Moros were soon located, and fighting began immediately, and continued until November 17. Major Scott was taking Panglima Hassen, the Moro leader, who had been taken prisoner, to Jolo. While en route Hassen asked to be allowed to see his family. His appeal was granted, and he thereupon led Major Scott into an ambuscade, where the American detachment was fired upon. Major Scott was shot in both hands.
