Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitu-tional treatment. Hall's Catarrh Cure is taken in-ternally, seting directly upon the blood and macous infaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by boliding up the constitution and assisting painter in doing its work. EASY METHOD OF SUICIDE.

Holding the Breath Will End Life in Tables Turned on Hunter Reynolds Short Time.

That it is possible to commit suicide by simply holding one's breath has been clearly proved by a despondent Norwegian, who recently killed himself in this very unusual manner. When he determined to die he closed ground, his mouth and nostrils and by mere edy in my only given where unusual personal force of will prevented his lungs from doing their proper work.

No Vowels in It.

Many places have curious names. but apparently there is only one place which has a name without any vowels. That place is the little hamlet of Ws. near Paris. Ws being an unpronounceable name, the inhabitants of the hamlet have transformed it into "d'Us," but this change has not been sanctioned legally, and on all the official records the name Ws still appears. The hamlet has 117 inhabiants, and its sole attractions are the Chateau d'Osny, which has been for many years in the possession of Edmond About's family, and the Chateau de Vigny, which is one of the best specimens of the Renaissance style of architecture.

So far as is known, there is only one person in Europe at present who has a name without any vowels, and that is M. Srb, the Mayor of Prague.

The shadow cast by an Egyptiar runner is grotesque enough to frighter children. Trouble in the Family. Dr. Bloomfield, who was for some

years bishop of London, became a widower rather early in life and soon afterward married again. By his first wife he had several children, and his second wife was a widow, who also had several children by her first husband. In due time other olive branches came to the bishop and his wife, and there now being three distinct clans of youngsters it can readily be imagined that a good deal of noise and at ames unseemly quarrels disturbed the episcopal palace at Fulham.

One morning while the bishop was engaged in studying some philosophical work, his wife burst into the library and exclaimed: "Hurry, hurry!' "What is the matter, my dear?" he asked anxiously.

"There's a good deal the matter,' was the reply, "and there's not a moment to be lost, for your children

Sculptor Changed Design.

While we are all sensitive to ridicule, artists are particularly so. Quite recently a celebrated sculptor was modeling a statue of one of the most noted officers of the civil warthe horse prancing, the general with his hat off, and the rest of the ordinary conception, with the added feature that a soldier was leading the his hand a branch of laurel. The but a negro messenger looking at it asked the artist what the "life preserver" was for, and the sculptor immediately changed the wreath to the bunch of laurel.

BOTH FEEL

What Proper Food Does for Both Mind and Body.

Physical health, mental health, inearth depend in great measure upon proper food.

Without health nothing is worth while and health can be won almost every time by proper feeding on the scientific food Grape-Nuts.

A California trained nurse proved this: "Three years ago I was taken very sick, my work as a trained nurse having worn me out both in body and physicians and specialists and getting no relief I was very much discouraged and felt that I would die of general nervous and physical collapse.

"My condition was so bad I never imagined food would help me but on the advice of a friend I tried Grape-Nuts. The first package brought me so much relief that I quit the medicines and used Grape-Nuts steadily three times a day. The result was that within 6 months I had so completely regained my strength and health that I was back nursing again and I feel the improvement in my brain power just as plainly as I do in physical strength.

"After my own wonderful experience with Grape-Nuts I have recommended it to my patients with splendid success and it has worked wonders in the cases of many invalids whom I have attended professionally." Name given by Postum Co., Battle Creek. Mich.

Old-Time School Fees.

One of the old schoolmarms of Salis bury, Mass., was Elizabeth Eastman who received ten cents per day fo. tuition. An old bill for twenty-four weeks (\$2.40), which was a deduction of twelve cents for absences, was found recently, dated 1824. It was the custom in those days for pupils tc carry their fuel with them and it was probably done in this case. A bill of "Master Walsh," dater ten years later for tuition of the same pupil, gives the price as \$4.33 for schooling of thirteer weeks.
