

WHAT FASHION DECREES FOR WOMEN

yards 52 inches wide. A May Manton pattern No. 4541, sizes 32 to 40, will be mailed to any address on receipt of ten cents.

Housewifely Hints.

Rub light gloves with fine bread crumbs after each time of wearing. If you allow them to get very dirty, home cleaning is seldom a success; but treated in this way they will look nice for quite a long time.

If lace is ironed directly after washing, first under a cloth, finishing off with nothing between it and the iron, there is no need to starch it. Ironing while wet gives it just the right amount of stiffness.

After baking a cake stand the tin directly on a cloth which has been wrung out of hot water. Leave a few minutes, and then turn out. The cake will come out without any trouble.

When furnishing use the same pattern carpet in all bed rooms; then, when the carpets begin to wear, or you move to another house, the best part of one or two can be joined together, and will make quite a presentable carpet.

The New Bridal Fan.

At a recent New York society wedding a decided novelty was in evidence. Instead of the orthodox bouquet of orange blossoms or white and silver prayer book, the bride carried a fan of costly point lace, which was attached to her wrist by means of a narrow white sash ribbon. Her long and narrow point applique veil was so arranged as to conceal little of her hair. The top was twisted in a loose fold, which was arranged in two loops, one much lower than the other, at the side of her moderately high coiffure. A very long and full spray of orange blossoms was fastened at the left of the tulle loops and trailed almost to her shoulder. A still larger spray was used on the corsage.

A Smart Storm Coat.

Rain coats have become so general as to be counted among the necessities of life. This one is smart at the same time that it serves its purpose well and is suited to all the many waterproof materials in vogue. As shown,

4541 Storm Coat, 32 to 40 bust. —Design by May Manton.

however, it is made of Oxford cravenette stitched, and is trimmed with straps of the same held by bone buttons. The coat is loose and simple at the same time that it is shapely and includes sleeves that can be slipped on and off with ease. The shoulder cape means warmth as well as style and the fitted collar provides both comfort and protection. To make the coat for a woman of medium size will be required 5 1/2 yards 44 or 5

Inexpensive Bath Robes.

Pretty wash flannels in pink or blue are just the thing for bath gowns. They are warm and comfortable for room wear and save a more elaborate gown, says the Philadelphia Bulletin. For one of average height six yards is enough, and as they need no trimming the cost of the gown is trifling. Cut in three widths, one in back or two in front; hem, and mount on a double yoke, finishing the neck with a wide turnover collar. Gather the full sleeves into a wristband, and stitch hems, cuffs and collar. Put a big square outside pocket on the left front, and fasten the garment with pearl buttons.

Tea Punch.

Make a strong infusion of tea, pouring a quart of boiling water over a tablespoonful of Ceylon or English breakfast tea and letting it stand until cold. Strain and add to the following mixture: The juice of three lemons and the juice of three oranges, the pulp and juice of a shredded pineapple and one pint of sugar. When the sugar is entirely dissolved add one quart apollinaris and one box fresh strawberries or raspberries, used whole. Pour over a block of ice in the punch bowl. A cupful of claret and a tablespoonful of curacao may be added if desired.

Contre La Migraine.

A delightful essence to inhale when suffering from headache is composed of one drachm of oil of lavender, one ounce lump camphor, three ounces liquid ammonia and one pint alcohol. Dissolve and bottle. Nervous headaches are often relieved by applying towels wrung out of hot water to the face and head. Use as hot water as can be borne.

Milliners' Ban on the Veil.

It will not do for the pretty girl to hide her face under an accumulation of gauze veillings any longer. The milliners have found her out. In convention assembled they have denounced the veil and jeered at the woman who wears it. It gives too much opportunity to economical women to look smart at a trifling expense

to suit the other women who live by the hats they sell. Mine Hunt, an officer of the National Milliners' association, says: "It is a dangerous fashion, a style which puts money in the pockets of the veil makers but takes it out of ours. Many women conceal old hats under fluffy masses of brown veiling and then forego the pleasures of a new hat. We must expose this practice."

Princess Wrapper.

No other garment yet devised means the comfort and relaxation of the well-made morning gown. This

4555 Princess Wrapper, 32 to 42 bust. —Design by May Manton.

excellent model is well adapted to its use and is suited to many materials. It also can be made either high or with a square neck. As illustrated it is made of blue challie dotted with black, the yoke being of ecru lace and the trimming black and white braid. The wrapper combines loose fronts with a fitted back, but is made over a fitted front lining that means perfect neatness. The pointed yoke with the sleeve caps give the breadth of shoulder that is so fashionable, but the square yoke can be substituted and the sleeve caps omitted if preferred.

To make the wrapper for a woman of medium size will be required 1 1/2 yards 27 or 7 yards 44 inches wide, with 1/2 yard of all-over lace. A May Manton pattern No. 4555, sizes 32 to 42, will be mailed to any address on receipt of ten cents.

PRETTY THINGS TO WEAR

Heavy white stitchings are always smart on black.

Fur scarfs are broader and longer than last year.

Shirtings form girde effects on many pretty frocks.

White and pale colored zibelines are used for dressy gowns.

The average woman looks best in a fine net veil without spots.

Have two or three sets of lingerie sleeve ruffles for the one gown.

Insect forms of jeweled gunmetal are worn at corsage and in coiffure.

Safety lies halfway between a drooping blouse and a tight-fitting bodice.

Yoke and sleeves of gold net add a rich finish to the white evening gown.

Mirror velvets are the lightest and best fitted for tucking and shirring concrets.

Most women are at their best in the dainty fluffly things they call "home gowns."

For the street there is the coat and skirt costume of navy blue velvet in walking length.

To Cook Prunes.

When prunes are served they should fall apart from the stones and be very tender. In order that the prunes should reach the perfection of tenderness it is better to soak them in cold water for twenty-four hours before cooking. First they should be washed thoroughly in scalding water; then put to soak. After the soaking they may be boiled with sugar—not too much—or they may be soaked a second twenty-four hours in milk and then served with honey. Honey is always better with cream than sugar is.

Readers of this paper can secure any May Manton pattern illustrated above by filling out all blanks in coupon, and mailing, with 10 cents, to E. E. Harrison & Co., 65 Plymouth Place, Chicago. Pattern will be mailed promptly.

PE-RU-NA PROTECTS THE LITTLE ONES

Against Winter Catarrh in Its Many Phases.

Neglected Colds in Children Often Bring Disastrous Results.

Peruna should be kept in the house all the time. Peruna should be kept in every house where there are children. Don't wait until the child is sick then send to a drug store. Have Peruna on hand—accept no substitute.

Pe-ru-na Protects the Entire Household Against Catarrhal Diseases.

As soon as the value of Peruna is fully appreciated by every household, both as a preventive and cure of catarrhal affections, tens of thousands of lives will be saved, and hundreds of thousands of chronic, lingering cases of disease prevented. Peruna is a household safeguard.

ALICE SCHAFER.

Mrs. J. M. Brown, Dunne-gan Springs, Mo., writes: "My little daughter three years old was troubled with a very bad cough which remained after an attack of catarrhal fever. She has taken one bottle of Peruna through which she has obtained a complete cure. She is now as well and happy as a little girl can be. When our friends say how well she looks I tell them Peruna did it."

In a later letter she says: "Our little daughter continues to have good health."

Mrs. Schaffer, 436 Bope Ave., St. Louis, Mo., writes: "In the early part of last year I wrote to you for advice for my daughter Alice, four years of age. She has been a puny, sickly, ailing child since her birth. She had convulsions and catarrhal fevers. I was always doctoring until we commenced to use Peruna. She grew strong and well. Peruna is a wonderful tonic; the best medicine I have ever used. "I was in a very wretched condition when I commenced to take Peruna. I had catarrh all through my whole body, but thank God, your medicine set me all right. I would not have any other medicine. "Peruna cured my baby boy of a very bad swell of cold and fever. He is a big healthy boy fifteen months old. I have given him Peruna off and on since he was born. I think that is why he is so well. I cannot praise Peruna enough. We have not had a doctor since we began to use Peruna—all praise to it."—Mrs. Schaffer.

Be Sure to Have Pe-ru-na on Hand During the Inclement Months of Fall and Winter.

Croup, capillary bronchitis, and articular rheumatism are the special banes of childhood. These all alike result from catching cold.

One child catches cold and scares its mother into hysterics by having croup in the dead of night.

Another child catches cold, develops a stubborn cough that will not yield to ordinary remedies. The parents are filled with forebodings.

Still another child catches cold and develops that most fatal malady of childhood, capillary bronchitis. The doctor is called, pronounces the case pneumonia, and if the child is lucky enough to live it has developed weak lungs from which it may never recover.

And yet another child catches cold and articular rheumatism is the result. Ankles, knees, wrists and elbows become suddenly swollen and painful. A long disastrous illness follows. The child may live and become convalescent, a miserable invalid of valvular disease of the heart. All these mishaps are the direct result of neglected cold. Peruna is the safeguard of the family. If a child catches cold, Peruna should be used immediately.

A few doses of Peruna and a child's cold is gone. The apprehension of the parents flee away. The household is free from fear once more.

If you do not receive prompt and satisfactory results from the use of Peruna write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

The man with liquid eyes and a full, gaud aspect usually has few traits of manliness.

CAPSICUM VASELINE

(PUT UP IN COLLAPSIBLE TUBES)

A substitute for and superior to mustard or any other plaster, and will not blister the most delicate skin. The pain-allaying and curative qualities of this article are wonderful. It will stop the toothache at once, and relieve headache and sciatica. We recommend it as the best and safest external counter-irritant known, also as an external remedy for pains in the chest and stomach and all rheumatic, neuralgic and gouty complaints. A trial will prove what we claim for it, and it will be found to be invaluable in the household. Many people say "it is the best of all your preparations." Price 15 cents, at all druggists or other dealers, or by sending this amount to us in postage stamps we will send you a tube by mail. No article should be accepted by the public unless the same carries our label, as otherwise it is not genuine.
