

A "J. P." that Fined Himself.  
Robert Malzahn, Justice of the peace at Good Thunder, Minn., dispenses liquor at retail when not occupied with his judicial cares. A food inspector secured from Mr. Malzahn's place of business a sample of blackberry. A complaint was sworn out and Judge Malzahn in his judicial capacity, heard the case of Malzahn, the defendant, guilty. Judge Malzahn imposed a fine of \$25, and then as Malzahn, the saloonkeeper, he paid the fine. The money has been remitted to the state treasurer.

### AGRICULTURE

**Sugar Beet Experiments.**  
The results of experiments with sugar beets by J. J. Vanha and by H. Claassen have been summarized in the Experiment Station Record. In Vanha's experiments beets were grown 20, 25 and 30 cm. apart in rows 35, 40 and 45 cm. distant. The distance allowed each plant ranged from 700 to 1,250 sq. cm. The smallest yields were obtained from the 25 cm. rows with the plants at intervals of 30 cm. Planting the beets 30 cm. apart in rows 45 cm. distant gave much the best yields.

**Royalties Coming Here.**  
If all promises are fulfilled the United States will have royal visitors galore next summer. So far these have announced their intention to visit the land of the free: King Leopold of Belgium, King Menelik of Abyssinia, the Crown Prince of Germany, the Crown Prince of Sweden and the Crown Prince of China.

Not a few men have to wear glasses because their eyesight is too good. Such glasses are the spectacles of tolerance.

Only a woman is capable of arriving at a conclusion without using either reason or judgment.

Defiance Starch is put up 16 ounces in a package, 10 cents. One-third more starch for the same money.

The masculine idea of an intellectual woman is one who is as thin as a match and wears glasses.

When a small boy gets his finger caught in the pantry door it isn't the jam he is looking for.

The difference between charity and philanthropy is the length of the newspaper free space.

To be ashamed of one's wife or mother is the saddest fate that can befall a man.

The weather man is having lots of fun with his vaudeville stunt of quick changer.

People who withhold gratitude are apt to do wholesale grumbling.

Some preaching is about as filling as a bill of fare in the desert.

The man who hurries is frequently only spurring a rocking-horse.

Science is simply the search into the mind of the Supreme.

It is possible for a man to be a flatterer and also a rounder.

The sweetness of adversity is apt to sour a man's disposition.

Some mothers save slipper soles and spoil children.

**\$100 Reward, \$100.**  
The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all the stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

### HORTICULTURE

**Locating an Orchard.**  
The orchard and fruit plantation should be located on sloping land. The soil will be drained of surplus water and will not bake and become as dry and hard in time of drouth, says O. M. Morris of Oklahoma. The north and east slopes are the best. They are much cooler in summer and are not subject to as great variations of temperature in winter. The effect of the afternoon sun is somewhat weakened by the slope and the early blooming trees are not forced into blossom so early and more frequently escape the late frosts. The protection from the wind is perhaps the greatest benefit derived from such slopes. The warm dry winds of July and August do not strike the orchard with their full force and thus a great amount of moisture is saved for the use of the trees and fruit. This protection from the wind is also of great value to young trees while they are forming their root system and becoming well established. The southern slopes are warmer and earlier in the spring and for some purposes are to be preferred, but usually the fruit matures early enough and with apples in particular the latest varieties mature almost too early for winter use. A sandy loam soil with clay subsoil is best adapted to the use of all kinds of fruits. The trees set on heavy clay soil will produce a heavy growth of foliage and wood but will be slow to come into bearing, and the fruit will not be as bright in color as that grown on sandy soil. The trees grown on a poor sandy soil will usually make a poor growth and begin bearing young. These trees will be short-lived and weak. The poor, thin, gray and black soils are poorly adapted to trees. The trees set on such land are almost sure to make a very poor growth and be shy bearers. Good upland is the best for orchard land. The bottom land will grow better and stronger trees, but they will seldom be as productive. This is especially true of the peach, plum and apricot. The late frosts are more liable to destroy the crop while the trees are in blossom on low land. The lowland also maintains better conditions for the plant diseases that are sure to infest the orchards sooner or later. If the land was formerly in timber, it should be carefully examined for evidences of root-rot before setting out fruit trees.

**Cantaloupe Seed.**  
The Rocky Ford is now the best known muskmelon in the country. It was originally "Burrpoe's Netted Gem." Under the warm skies of Colorado and the stimulating influences of water it developed into a melon that is probably without superior in the markets of the country. There may be better ones grown for home use, but if so, they have some characteristics that keep them from coming generally into the market. The Rocky Ford melon of the past was probably better than is the same melon today, for the reason that at first the eastern seedsmen were able to produce all the seed of this variety that could be sold. But as the demand increased, the seedsmen began to gather seed from almost all sources where cantaloupes were grown. The result was that much of it was not pure, some crossing having taken place with other and inferior varieties of melons. This has caused some deterioration in the case of Rocky Fords, and a good many melons have to be thrown out as culls when being packed.

**Montreal Crab.**  
This is a well known variety of American origin. Trees have made only a moderate growth at this place. Forms an open, spreading head. Trunks average 16 inches in circumference at base; 15 inches at head. Trees have shown attack of both black rot canker and blight. (One tree much injured by blight.) First bloom noted in 1893; first full crop in 1895. Trees have borne full crops in 1897, 1899 and 1901. Small crops in 1898 and 1900. On the whole a sure bearer and quite productive. Fruit large, yellow washed with bright red, quite was in the ear, and in 1895 he tried to establish the custom, but found himself far in advance of his times. The times have now caught up with him in this matter. In the year mentioned he laid in a large stock of corn in the ear and advertised it largely. But he could sell little of this corn for the reason that corn in the ear cost more to the consumer than shelled corn. He tried sending out sample ears at 5 cents each, but few would buy even the sample ears. His prices for corn on the ear ran at from \$1.50 to \$2.50 per bushel, while his competitors were selling shelled corn at from \$1.25 to \$1.75 per bushel. The price was a weightier matter at that time than the quality of the corn, as all farmers then believed that "corn was corn." It is noticeable that this year corn of selected varieties is selling at as high as \$3.00 per bushel and the seedsmen are unable to supply the demand.

**Ox Warbles.**  
A bulletin of the Kansas Agricultural College says: Treatment should begin as soon as the warbles are noticed upon the animals' backs. Most of the warbles or grubs can be destroyed by putting turpentine, kerosene, crude petroleum or mercuric iodine in or on the opening through the skin directly over the warble. If the opening is very small, it should be enlarged by using a smooth, pointed stick. A machinist's oil can having a slender nozzle furnishes an excellent method of applying the medicine. By running the cattle through a chute they can be treated quite rapidly. They should be examined in about ten days, and any that escape the first treatment should be destroyed by a second; or better, squeezed out and crushed; or they can be crushed beneath the skin by pinching the lump, or killed by inserting a pointed wire or large blunt-pointed needle. It is important that any grubs squeezed out or escaping naturally should be destroyed or they will transform into adult flies.

**Sawdust as Mulch.**  
Sawdust makes a good mulch for various kinds of fruits, especially for strawberries. Many of our readers doubtless live near saw mills where sawdust can be obtained at a very low cost. This will save the strawberries from becoming dirty and will prevent the loss of moisture between the rows. It also makes a good mulch for gooseberries and currants. In the case of tree fruits it is also useful, but should not be permitted to pack too closely around the trees. Perhaps it is most useful where it is not turned under. Some men are of the opinion that pine sawdust is rather harmful to the soil, but it would be difficult to demonstrate this.

**Failure of Orchards.**  
Orchards fail for various reasons but chiefly for lack of care. In some of these cases the owners declare that they have given their orchards the best possible care; but the fact is that the people in charge have not known what was good care. Sometimes manure has been put on when the ground was rich enough anyway. In that way a growth has been stimulated that has resulted to the detriment of the trees. If a man wants a good orchard he will have to study along several lines before he will understand the various factors entering into the care of an orchard of any kind.

**Ox Warbles.**  
A bulletin of the Kansas Agricultural College says: Treatment should begin as soon as the warbles are noticed upon the animals' backs. Most of the warbles or grubs can be destroyed by putting turpentine, kerosene, crude petroleum or mercuric iodine in or on the opening through the skin directly over the warble. If the opening is very small, it should be enlarged by using a smooth, pointed stick. A machinist's oil can having a slender nozzle furnishes an excellent method of applying the medicine. By running the cattle through a chute they can be treated quite rapidly. They should be examined in about ten days, and any that escape the first treatment should be destroyed by a second; or better, squeezed out and crushed; or they can be crushed beneath the skin by pinching the lump, or killed by inserting a pointed wire or large blunt-pointed needle. It is important that any grubs squeezed out or escaping naturally should be destroyed or they will transform into adult flies.

**Causing Iron to Swim.**  
Elisha required a stick to make the ax of iron swim. We have never learned the properties of that stick. But there is a pretty trick of causing a piece of iron to swim of its own accord. Let it be a half inch thick, say, and two inches square, or have it round, and perfectly smooth on one side at least. Place the smooth side against the perfectly smooth, square end of an open glass tube, say an inch and a half in diameter, and hold it there until it and the tube are lowered into a vessel of water to a depth greater than about eight times the thickness of the iron. Remove the hand and the iron will remain in its place, the upward pressure of the water preventing its sinking. This is the principle of the iron ship.

**Returned the Compliment.**  
Lafacadio Hearn, writing from Japan, says that when Oyama, chief of the Japanese general staff, was judge advocate he attended a ball at Tokio one night. He was standing near a doorway, when a beautiful European woman swept by, and so gently did her charms impress Judge Oyama that he exclaimed, involuntarily: "What a lovely woman!" She overheard him. With a little smile she looked back over her shoulder and, recognizing him, she said: "What an excellent judge."

**He Learned Something.**  
"I like your preachin'," said a tall, gaunt native who had heard Bishop Potter one night in a small Adirondack town near which he had his summer camp. "I alluz I'arn somethin' new from ye. I rid ten mile to-night to hear ye, an' as usual, I heard somethin' that I never knowed afore."

**Best Introduction Speech.**  
Senator Spooner of Wisconsin says the best speech of introduction he ever heard was delivered by a German mayor of a small town in Wisconsin, where Spooner had engaged to speak. The mayor said: "Ladies and gentlemen, I asked haf been to introduce you to the Honorable Senator Spooner, who to you will make a speech, yes. I half now done so, and will now do so."

**The Czar and the Kaiser.**  
The last time the czar and the kaiser met was in the Baltic, where each had a fleet. As their boats drew away from each other the kaiser, from the Hohenzollern, semaphored to the czar, "The admiral of the Atlantic salutes the admiral of the Pacific." The reply required tact. The czar did not want to offend the British by expressing his belief that the kaiser was right, neither did he wish to show discourtesy to the latter by making no reply. So he quietly rebuffed him by signaling "farewell," and steaming away.

**Try One Package.**  
If "Defiance Starch" does not please you, return it to your dealer. If it does you get one-third more for the same money. It will give you satisfaction, and will not stick to the iron.

**Piso's Cure cannot be too highly spoken of as a cough cure.**—J. W. O'BALES, 322 Third Ave., N. Minneapolis, Minn., Jan. 6, 1904.

**Wiggle-Stick LAUNDRY BLUE**  
Wet's spill, break, freeze nor spot clothes. Costs 10 cents and equals 20 cents worth of any other bluing. If your grocer does not carry it send 10c for sample to The Laundry Blue Co., 14 Michigan Street, Chicago.

**Mrs. Winslow's Soothing Syrup.**  
For children teething, softens the gums, reduces inflammation, brings pain, cures wind colic. 25c bottle.

**A true hero is a man who fights for his country and refuses to scrap with his wife.**  
Defiance Starch is guaranteed biggest and best of money refunded. 16 ounces, 10 cents. Try it now.

**What a man sews he doesn't always also rip. If it is a tailor.**  
How to Clean Laces.  
To clean delicate laces, take a large glass jar, cover with old cotton and spread the lace carefully on it. Set the bottle in warm Ivory Soap suds and leave for an hour. If stains are difficult to remove place in the sun and they will disappear. Rinse by dipping the bottle in clear water.

**ELEANOR H. PARKER.**  
Men like to feel that advice to a woman is an evidence of true friendship.

**FITS permanently cured. No flux or nervousness after first day's use of Dr. King's Great Nerve Restorer.** Send for FREE 32c trial bottle, and treatise. Write to Dr. J. C. Wells, Ltd., 67 Arch Street, Philadelphia, Pa.

### "PE-RU-NA, A VALUABLE PREPARATION," WRITES DR. KEMBALL.

Most of the Ailments Peculiar to the Female Sex are Due to Catarrh of the Pelvic Organs.

Rachael J. Kemball, M.D., 334 Virginia St., Buffalo, N.Y.

Peruna has cured thousands of cases of female weakness. As a rule, however, before Peruna is resorted to several other remedies have been tried in vain. A great many of the patients have taken local treatment, submitted themselves to surgical operations, and taken all sorts of doctor's stuff, without any result.

Catarrh of one organ is exactly the same as catarrh of any other organ. What will cure catarrh of the head will also cure catarrh of the pelvic organs. Peruna cures these cases simply because it cures the catarrh.

Most of the women afflicted with pelvic diseases have no idea that their trouble is due to catarrh. The majority of the people think that catarrh is a disease confined to the head alone.

This is not true. Catarrh is liable to attack any organ of the body; throat, bronchial tubes, lungs, stomach, kidneys and especially the pelvic organs.

Many a woman has made this discovery after a long siege of useless treatment. She has made the discovery that her disease is catarrh, and that Peruna can be relied upon to cure catarrh wherever located.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

**NOW DON'T FORGET**  
Don't forget when you order starch to get the best. Get DEFIANCE. No more "yellow" looking clothes, no more cracking or breaking. It doesn't stick to the iron. It gives satisfaction or you get your money back. The cost is 10 cents for 16 ounces of the best starch made. Of other starches you get but 12 ounces. Now don't forget. It's at your grocers.  
MANUFACTURED BY THE DEFIANCE STARCH CO., OMAHA, NEB.

**RED CROSS BALL BLUE**  
Should be in every home. Ask your grocer for it. Large 2 oz. package only 5 cents.

**LEWIS'S SMOKE BINDER**  
STRAIGHT 5c CIGAR  
Your jobber or direct from Factory, Peoria, Ill.

**PORTRAIT AGENTS**  
Deal Direct with Manufacturers and Save Money.  
Our goods the best. Prices the lowest. Prompt shipments. Delivery of all portraits guaranteed. Send for catalogue and agents' price list. Address ANAX J. REGILL & CO., New Era Bldg., Chicago.

**Sprains and Bruises**  
made by St. Jacobs Oil  
Stamp it the perfect remedy

### DISFIGURING HUMORS

Of the Skin and Scalp Speedily Cured by Baths with CUTICURA SOAP.

To cleanse the skin of crusts and scales, and soften the thickened cuticle, gentle applications of CUTICURA Ointment to instantly allay itching, irritation, and inflammation, and soothe and heal, and mild doses of CUTICURA PILLS to cool and cleanse the blood.

A single SET, costing but One Dollar, is often sufficient to cure the most torturing, disfiguring skin, scalp, and blood humors, eczemas, rashes, itchings, and irritations, with loss of hair, from infancy to age, when all else fails.

Sold throughout the world. Cuticura Soap, 25c, Ointment, 50c, in form of Cuticura Tablets, 50c per box of 60. Dealers: London, J. Charles; New York, J. B. Allen; Chicago, J. B. Allen; Philadelphia, J. B. Allen; Boston, J. B. Allen; San Francisco, J. B. Allen; St. Paul, J. B. Allen; Portland, J. B. Allen; Seattle, J. B. Allen; Tacoma, J. B. Allen; Vancouver, J. B.
