Paul Heizer, our good friend from Hazard, was in the county seat last Saturday, looking after business matters, and gave us a favored call. Paul says the corn's alk disease got in its deadly work lately on Chris. Buetler's cattle in his vicinity, taking nine head. Mr. Heizer has some five or six thousand bushels of shelled corn yet on hand with which he is feeding a handsome bunch of steers.
Score another important honor for Loup City and Sherman county. Last week, W. R. The protracted meetings being held at the Baptist church are proving a success in so much as those who attend are feeling well repaid for the effort put forth. It can truly be said that the Spirit of God prevades the meetings. While the attendance has not been what could have been wished yet there is no reason to be discouraged for that good is being done, no one who has attended can doubt, Rev. Wold is untiring in his effort to do his part in making the meeting a success, and God is blessing his efforts. The union service Sunday evening was well attended and a friendly feeling was evidenced among all in attendance. Rev. Cowell occupied the pulpit with Rev. Wold and did much to make the meeting a success. We are glad to see the friendly feeling between these servants of God. When Gods people can come together and work for the advancement of His kingdom we may expect that those who are indifferent about these things will stop and consider. United efforts are being put forth in almost all our large cities, and why cannot those who profess to love and serve God get together and show to the world that the spirit of God is a spirit of love and friendliness? The meetings will continue through this week and all are cordially invited to attend and help in the good work.
Dr. Sumner Davis, Grand Island, Neb., specialist in disease of eye and ear. Examination for glasses.
