

# Women in Our Hospitals

Appalling Increase in the Number of Operations Performed Each Year—How Women May Avoid Them.

Going through the hospitals in our large cities one is surprised to find such a large proportion of the patients lying on those snow-white beds women and girls, who are either awaiting or recovering from serious operations.

Why should this be the case? Simply because they have neglected themselves. Ovarian and womb troubles are certainly on the increase among the women of this country—they creep upon them unawares, but every one of those patients in the hospital beds had plenty of warning in that bearing-down feeling, pain at left or right of the womb, nervous exhaustion, pain in the small of the back, leucorrhoea, dizziness, flatulency, displacements of the womb or irregularities. All of these symptoms are indications of an unhealthy condition of the ovaries or womb, and if not heeded the penalty has to be paid by a dangerous operation. When these symptoms manifest themselves, do not drag along until you are obliged to go to the hospital and submit to an operation—but remember that Lydia E. Pinkham's Vegetable Compound has saved thousands of women from surgical operations.

When women are troubled with irregular, suppressed or painful menstruation, weakness, leucorrhoea, displacement or enlargement of the womb, that bearing-down feeling, inflammation of the ovaries, backache, bloating (or flatulency), general debility, indigestion, and nervous prostration, or are beset with such symptoms as dizziness, lassitude, excitability, irritability, nervousness, sleeplessness, melancholy, "all-gone" and "want-to-be-left-alone" feelings, they should remember there is one tried and true remedy.

The following letters cannot fail to bring hope to despairing women.

Mrs. Fred Seydel, 412 N. 54th Street, West Philadelphia, Pa., writes:

Dear Mrs. Pinkham:—  
"I was in a very serious condition when I wrote to you for advice. I had a serious womb and ovarian trouble and I could not carry a child to maturity, and was advised that an operation was my only hope of recovery. I could not bear to think of going to the hospital, so wrote you for advice. I did as you instructed me and took Lydia E. Pinkham's Vegetable Compound, and I am not only a well woman today, but have a beautiful baby girl six months old. I advise all sick and suffering women to write you for advice, as you have done so much for me."

Miss Ruby Mushrush, of East Chicago, Ind., writes:

Dear Mrs. Pinkham:—  
"I have been a great sufferer with irregular menstruation and ovarian trouble, and about three months ago the doctor, after using the X-Ray on me, said I had an abscess on the ovaries and would have to have an operation. My mother wanted me to try Lydia E. Pinkham's Vegetable Compound as a last resort, and it not only saved me from an operation but made me entirely well."

Lydia E. Pinkham's Vegetable Compound at once removes such troubles. Refuse to buy any other medicine, for you need the best.

Mrs. Pinkham invites all sick women to write her for advice. Her advice and medicine have restored thousands to health. Address, Lynn, Mass.

Lydia E. Pinkham's Vegetable Compound Succeeds Where Others Fail.

### Freaks of Fortune.

In January of last year a murderer named Helfert had just been sentenced in Moravia to penal servitude for life when he learned that he had won a prize of \$10,000 in the state lottery, and a few weeks earlier Ernesto Hijar was buried in a pauper's grave at Barcelona on the very day on which a ticket found in his possession won a prize of \$40,000 in the Spanish national lottery.

Hundreds of dealers say the extra quantity and superior quality of Defiance Starch is fast taking place of all other brands. Others say they cannot sell any other starch.

### Poisons Known to Science.

The effect of every poisonous drug on the human body has been so carefully and exhaustively studied by the toxicologist that he can, in cases of suspected poisoning, not only verify the suspicion, but determine the drug used and even its method of administration. The modern physiological laboratory would have made short work of the Borgias, Toffanas and Spasas.

\$30.00 per M. Lewis' "Single Binder," straight 5c clear, costs the dealer some more than other 5c cigars, but the higher price enables this factory to use only grade tobacco. Lewis' Factory, Peoria, Ill.

### Physical Sunshine.

By paying due regard to wholesome diet, cleanliness and proper habits, the denying the power of the desires of the flesh to overcome the higher calls of mind well stocked and moral natures keenly alive to joyous duty, we go far toward making ourselves true sons of God, true brothers to man.

Storekeepers report that the extra quantity, together with the superior quality of Defiance Starch makes it next to impossible to sell any other brand.

### Welch Tombstone.

On a flat stone in Conway church, Wales, is the following inscription: "Here lyeth the body of Nicholas Hookes of Conway, gent., who was the forty-first child of his father, William Hookes, Esq., by Alice, his wife, and father of twenty-seven children, who died the 20th day of March, 1637."

## HIS SOCIETY "STUNT."

### BOWERY HERO HAD AT LEAST ONE ACCOMPLISHMENT.

Effort of Tom Gould to Impress the Ladies of the Astor Household in the Only Way He Could Think of at Embarrassing Moment.

When Mr. Astor ran for Congress—and lost—one of his adherents was Tom Gould. Mr. Gould was a type. He was proud of his own physical strength; proud of Mr. Astor as his choice for the national legislature. Any bibulous one who visited Mr. Gould's bar and expressed a dislike for Mr. Astor fell a prey to trouble.

Mr. Astor liked Mr. Gould, being struck with his amazing garb and untrammelled manners. The ladies at his house, to whom he spoke of Mr. Gould and his eccentricities of speech and dress, were smitten of a desire to know more of him. They besought Mr. Astor to invent an excuse and have Mr. Gould to the house, where they might rejoice their eyes and ears with him.

Mr. Astor made the excuse; Mr. Gould appeared. The latter wore a silk hat, a reefer jacket with white pearl buttons as large as silver dollars, checked trousers, striped shirt, red necktie and a waistcoat like unto an alarm of fire. Over all this splendor was cast a light green topcoat; for the air of autumn was chill.

Mr. Astor received his visitor in the drawing-room; presently the ladies of the household drifted in, and Mr. Gould was presented.

Having launched his adherent on what might be termed the tides of high society, Mr. Astor to the end that the ladies study Mr. Gould at their ease, if not at his, made a pretense of retiring to the library in quest of certain papers of moment in his campaign. Left alone and unprotected, Mr. Gould was discouraged, and tried to hide it. The ladies themselves could think of nothing to say, but eyed Mr. Gould in timid silence.

Mr. Gould began to feel the strain; that he might be more at elegant ease, he paced the floor—five majestic strides one way, then wheel and return.

This pedestrianism gave a measure of relief and yet Mr. Gould felt the necessity of saying something. He must screen his awkwardness from the ladies and show them how he felt at home.

Suddenly, like a flood of light, a happy thought swept over him. Mr. Gould paused, half turned to his fair auditors, shrugged his square shoulders, inflated his deep chest, made a gesture with his hand, palm downward, and spake these words huskily: "Soy, ladies! I'll bet y' a hundred dollars I kin lift th' pianny."—A. H. Lewis in the Saturday Evening Post.

## STATISTICS OF THE OCEANS

### Few People Seemingly Realize Their Enormous Extent.

An officer of a big liner once told the writer that most folk seem to be as ignorant about the size of the sea as they are of the distance between the heavenly planets. Here are a few facts for the curious:

The Pacific covers 68,000,000 miles, the Atlantic 30,000,000 miles, and the Indian ocean, Arctic and Antarctic 22,000,000.

To stow away the contents of the Pacific it would be necessary to fill a tank one mile long, one mile wide, and one mile deep every day for 440 years. Put in figures, the Pacific holds in weight \$48,000,000,000,000,000 tons.

The Atlantic averages a depth of not quite three miles. Its waters weigh 325,000,000,000,000 tons, and a tank to contain it would have each of its sides 430 miles long.

The figures of the other oceans are in the same startling proportions. It would take all the sea water in the world 2,000,000 years to flow over Niagara. A tank to hold it all would have to measure nearly 1,000 miles along each of its sides.

### Masculine Dullness.

See, Alice is knitting. "One—skip two—Then over. Somehow, I just feel that he is going to like these slippers I've knitted. Only one thing troubles me: Will they be? And I wonder if he will like pale blue? Will he understand it—'My love is true'—Four—five—six—seven—eight—skip ten—And there—(He'll never suspect this was hard to learn.)

"It's surprising, they say, how knitting holds." I guessed his size. These are number five soles: Now, with pale-blue slippers I really think the prettiest bows are a sea-shell pink; He will enjoy putting these on at night; Dear boy, he sits up till past 2 to write; With these on he will be dreaming of me—(But he says he does that continually.)

"What's this festive young bundle tied up so. Decorated with holly and mistletoe? Alice writes it's something she has made for me— I must promise to wear them constantly."

The dear little angel—she only lacks wings! (If I only knew the name of these things!) Is it two thoroughsores—or a sachet?—Whatever it is, I will put it away."—New Orleans Picayune.

### Not a Safe Juror.

Attorney for defense: "One more question, Mr. Plunkett. Have you any prejudice in this case, one way or the other?"

Talesman—No sir.

Attorney—If you should be accepted as a juror do you think you could render a verdict in accordance with the law and the evidence?

Talesman—I think I could.

Attorney (after whispered conference with his client)—Your honor, we'll excuse Mr. Plunkett.

### Jealous Workman Does Damage.

Jealous of what he thought undue favor to another employe, Hugo Heckelmuller, an officer in the works of the United Railways of San Francisco, began putting sand in the machinery journal boxes of the power house machinery. He was caught when he had done damage to the amount of \$10,000.

### Temple of Fraternity.

A temple of fraternity will be one of the features of the Lewis and Clark centennial at Portland, Ore.

## Not a Bit Tired.

A little girl was very proud of being taken for a walk by her father, and, though sometimes the rambles extended a trifle beyond her strength, she would not have pleaded fatigue for worlds. One day, however, her father noticed that she was lagging. "Tired, Puss?" he asked. "No, father—that is, not azzactly tired. I was only wishing I could take off my legs and carry them a little bit, that's all."

## Feminine Confessions.

Whether we are doing the London season or a round of country house visits, the enjoyment of most women is largely dependent on the amount of opportunities accorded to them for flirtation. No matter how indignantly some of my sex may deny it, we all thrive on admiration.—Ladies' Field.

## Do Not Make Good Soup.

An authority on cooking asserts that England is a soupless country, meaning that English cooks cannot make soup and that soup does not appear on the menu of an English every day dinner. Which is a fact, though soup is about the first form that English charity takes.

## Japanese Servants.

A traveler says that the Japanese servant is a person of social importance. In the absence of the mistress callers are entertained at tea by the household, whose knowledge of the etiquette of tea drinking and whose grace and charm are often the equal of those of her employer.

## Accepts Small Deposits.

A new banking system, which enables persons to make deposits of twenty-five cents and upward, interest being allowed when the amount lodged reaches \$5, was adopted by the National Bank of Ireland recently. The bank has several branches in London.

## Sterilized Water for Navy.

Dr. Le Mehaute suggests that on French war vessels water that has been sterilized by heat should be substituted for the distilled water at present used, which, in his opinion, is open to many grave objections, including excessive costliness.

## Lord Mayor's Unique Honor.

Only one man in the city of London outside the Tower possesses the password which enables him to answer the challenge of the sentries at any time. It is the Lord Mayor, and the password is given to him by authority of the king.

## Dog Tongues.

Preserved in the cathedral of Bangor, Wales, is a pair of old "dog tongues" which were used for ejecting quarrelsome dogs from church during service. A similar pair is preserved at Llanynys, Wales, and bears numerous teeth marks.

## \$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one remedy that has been able to cure in all its stages, and that is Catarrh of the Bladder. Catarrh is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The Proprietary has so much faith in its curative powers that it offers One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address F. J. CHENEY & CO., Toledo, O. Sold by all Druggists. Take Hall's Family Pills for constipation.

## A Well Deserved Tribute.

The awarding of the Grand Prize to the Winchester Repeating Arms Co., New Haven, Conn., at the St. Louis Exposition, confers upon this company the highest mark of distinction attained by any manufacturer of guns or ammunition in the world. Although a great number of medals were given to this class of manufacturers, the only award of a Grand Prize was to the Winchester Repeating Arms Co., and given as it was in competition with the leading manufacturers of all countries, it testifies in a decided way to the superiority of Winchester rifles, shotguns and ammunition over all other makes.

The success attained by the Winchester Repeating Arms Co. at this exposition is simply in line with the honors received in the past. At the Paris Exposition, Winchester arms and ammunition received the Grand Prize; and wherever they have been exhibited they have always been given the highest possible prices. This latest result is simply in line with the natural result of thirty years of careful and successful endeavor in maintaining the high quality of Winchester rifles, shotguns and ammunition.

Three tons of Epsom salts and 1,000,000 pills were used in the hospitals of London last year.

# BISHOP OWES HEALTH AND LIFE TO PE-RU-NA.

Ministers of All Denominations Join in Recommending Pe-ru-na to the People.

Public speaking especially exposes the throat and bronchial tubes to catarrhal affections. Breathing the air of crowded assemblies, and the necessary exposure to night air which many preachers must face, makes catarrh especially prevalent among their class. Pe-ru-na has become justly popular among them.

BISHOP L. H. HALSEY.

### The Friends of Pe-ru-na.

Despite the prejudices of the medical profession against proprietary medicines, the clergy have always maintained a strong confidence and friendship for Pe-ru-na. They have discovered by personal experience that Pe-ru-na does all that is claimed for it.

## The Bishop's Strong Tribute to Pe-ru-na.

L. H. Halsey, Bishop C. M. E. Church, Atlanta, Ga., writes: "I have found Pe-ru-na to be a great remedy for catarrh. I have suffered with this terrible disease for more than twenty years, until since I have been using Pe-ru-na, which has relieved me of the trouble. I have tried many remedies and spent a great deal of hard-earned money for them, but I found nothing so effectual in the cure of catarrh as the great medicine, Pe-ru-na. I feel sure that Pe-ru-na is not only a triumph of medical science, but it is also a blessing to suffering humanity. Every individual who suffers with respiratory diseases will find Pe-ru-na a magnificent and sovereign remedy."—L. H. Halsey, Bp. C. M. E. Church.

Pe-ru-na is the most prompt and sure remedy for catarrh that can be taken. Many a preacher has been able to meet his engagements only because he keeps on hand a bottle of Pe-ru-na, ready to meet any emergency that may arise.

We have on file many letters of recommendation like the one given above. We can give our readers only a slight glimpse of the vast number of grateful letters Dr. Hartman is constantly receiving, in praise of his famous catarrh remedy, Pe-ru-na.
