

If you are going to do any fencing this spring, remember I handle the Grand Island Field Fencing with barbed wire at top and bottom, which keeps your stock from creeping under or crawling over.

Respectfully, yours, P. O. REED.

An exchange says that you shouldn't throw potato parings into the garbage box, but in the stove and thereby save yourself the annoyance of having to call the fire department to put out a chimney fire. The burning of potato parings prevents the gathering of soot. A man who is keeping up a soft coal fire in his kitchen range every day during the winter says you can never find trace of soot on the lids, the bottoms of the kettles, or any part of the stove if the potato parings are burned daily.

Mrs. C. C. Cooper will have on sale at the store, a complete line of stylish attractive and up-to-date spring and summer hats for ladies. Please call and see them and get our prices before you buy.  
W. R. Mellor arrived home from Chicago, Monday. He reports that Mrs. Mellor passed through the surgical operation and is getting along nicely, but it will be several weeks before she can return home. Our people will be pleased to learn the favorable news.  
That Judge Angier is an artist as a cabinet maker, not a doubt exists in the writer's mind. Last Saturday at his residence we viewed a couple of pieces of mechanism of his artistic mind and hand which are wonderful. They are china closets, composed of twelve different kinds of wood, and the front of each closet showing over six hundred inlaid pieces of wood, forming a beautiful contrast in colors, shapes and designs most bewildering to the beholder. The closets are exactly the same composition, a veritable likeness of each other and designed for his two married daughters at a distance. He has put in all his spare moments for the past seven months in this labor of love. They have to be seen to be appreciated, as no word painting could do them justice.  
Mr. G. A. Curry, the breeder of fine horses, who has purchased the A. P. Paulson place, some eight miles south and west of town, and will make of it a fine stud farm, arrived Monday from St. Edwards, in Boone county, with two of his fine Hameltonians and his household goods, preparatory to taking possession of the new home. He had shipped here several days in advance, a large number of his blooded horses and mares and had them taken to the farm. His family arrived on Tuesday, and soon will be settled in the home. Mr. Curry expects to make one of his best stock farms in the west out of his big place, which has all the best qualities necessary for successful work along that line, and soon will make our people acquainted with his fine strain of horses and mares. In Boone county, Mr. Curry was rated one of her most successful breeders of blooded stock, and came to Sherman county in order to get larger facilities for his purposes. We welcome Mr. Curry and family, consisting of wife and two sons, and know they will like Sherman county and her people, and will have even greater success than in their old home.

Don't forget to hear the great humorist, John G. Scorer, at the opera house next Monday evening, March 6th. He's very fine.  
Mr. T. S. Nightingale is recovering slowly from his recent attack of the grip, but altogether too slowly, when he thinks of the accumulation of work on his desk.  
Editor Brown developed a case of the grip last Friday, but there was too much framework of him for one little grip to get a firm hold and he was out again in a day or two.  
The next entertainment of the lecture course in this city will be the popular humorist, John G. Scorer, who will appear at the opera house, next Monday evening, March 6th. Don't forget it.  
Miss Minnie Gilbert on Saturday favored the editor with a glimpse of a large number of views taken while on her Oregon visit, as well as a large collection of Oregon curios she had brought home.  
Burt Fancher and wife left over the U. P. Monday morning for Omaha, where Mr. Fancher will take a position in a wholesale house. Mrs. Fancher will visit with friends at Whiting, Iowa for a while before joining Mr. Fancher in their new home.  
Wm. Strankman and family left for Hallam, in the southwest part of Lancaster county, on Tuesday of this week, where they will make their home. We regret losing this good family from Sherman county, but wish them all sorts of good fortune in their new home.  
Mayor Depew is nothing if not original. Last Sunday morning he could have been seen sitting in front of THE NORTHWESTERN office, with a long fishing pole, engaged in piscatorial pursuit from the picturesque lake there situated. He is said to have gotten "the fisherman's luck" for breaking a chunk off the wrong day. P. S. and later.—It was Saturday morning, instead of Sunday, but we are not going to spoil a good item by "killing" it.
