Strange Visits.

There is a queer story related of a

Canadian schooner, with a lot of things

in it which could be explained, no

doubt, if only we knew everything. One

voyage a man fell from her foremast

and was killed. Shortly afterwards an-

other hand fell from the same mast,

and died. After which there was a

cabin into which none would re-enter

(for quite private reasons), having

once been in it. The men would not

go aloft in the foremast; they said it

was not necessary to have any more

hands up there. There were two al-

ready. The ship had luck all the

way in, and the crew left her. Nor

could another be obtained, for the

yarn had gone round the town. Even-

tually the mate persuaded a new lot

to ship who had just come off salt

water and were new to the place.

Straddling over the bulwarks, one of

them looked aloft. "Hullo," he said,

the foretruck?" "It must be Bill,"

gasped the mate involuntarily. He

was sorry he spoke. The new lot

tumbled ashore at once. And it is a

fact that yet more accidents hap-

pened that voyage, which finished

with the foundering of the schooner.

CURED BY NO-CLOTHES.

Delicate Boy Now Able to Walk Bare-

footed in Snow. Gustave Nagel was a very delicate child and grew to manhood almost a chronic invalid. His parents had spent fortunes on medical attention for him. and he had consumed barrels of medi-

cine, but all to no effect. Some years ago he conceived the idea that modern man lived too far from the state in which nature intended that he should, and he resolved to return to the habits of his primeval ferefathers and become strong or die in the attempt.

He discarded all clothes, except what the law required, are only raw foods and no meat, and bathed only in water of a natural temperature.

At first of course he suffered severely, but in a few years he was able to walk barefooted in the snow with as liftle discomfort as the ordinary mortal suffers going shoeless on a sandy beach in summer.

When he bathes he never dries himself, when he sleeps he prefers the cold, bare ground; he never has his hair cut short, deeming it a protection from the weather given man, by nature; his food is of fruits, vegetables, bread and nuts.

Nagel is about to be married, but I am not able to say whether the lady of his choice is a new woman or has primeval tendencies like his own .-London Tatler.

Reed's Way Out of It.

While Mr. Reed was speaker of the house he had occasion one day to call one of his political henchmen to Washington, so sent the following telegram: "Come at once to Washington,"

There had been a severe storm in Maine, which had impeded traffic considerably, so Mr. Reed received the following reply: "Can't come: big washout on the line."

To which Mr. Reed, with his everready wit, replied: "Never mind; buy a clean shirt and come away."
