He was still enjoying the remembrance of a big ball game in his neighborhood Sunday, in which the professionals of Ashton came out there and proceeded to do up his hayseed boys in the National game, but which did not turn out to their liking, as the country boys sent the professionals back home to do better practice, with a score of 22 to 14 in favor of Peter's Champions. Judge Wali had an exciting time with his spirited team near W. H. Creary's south of town, last Sunday, and only his superior horsemanship saved a serious time. They will visit the suburban retreats of Guernsey and Wheatland to dispose of the pelts of all the wild beasts abounding in the mountain fastnesses, of which they expect to leave few alive to tell of the prowess of the mighty hunters. They (the aforesaid m. h.) are understood to have chartered a train to bring back their trophies of victory, all of which is to be accomplished in time for their return to this promised land in about seven days by the clock. According to the infantile instruction of these gentlemen, the unhampered ideas of their unfettered quarry will be respected on the appropriate day, which will be their only chance for delivery from extinction.

The Champion Coolie of Arcadia last week tried to take a fall out of the Loup City papers over their items of building interest in the city. When the fact is patent that there will be more new buildings erected in Loup City this year than can be counted in the whole of Arcadia, our wild-eyed Boxer friend will have to fall back on more of his last year's bird's nest items to fill his readers with the evidence of his lack of knowledge of important events. That Coolie is not keeping up-to-date, and should not be taken seriously, we have only to quote the following item from his last week's paper: "That the chances are Governor Mickey will veto the biennial election law, in which case we will be obliged to go into politics again soon." Some one keep him from hitting the pipe till he posts up a little.
