Since his experience of last week, the editor sees snakes too often for his nerves. On Monday evening of this week, he killed a viper on the cement walk leading past his home. At 5 p. m. last Friday evening a host or the little friends of Winnie Gasteyer gathered at Jenner's Park to help the young lady celebrate her 11th birthday. From that hour until 9 p. m., the park echoed the sounds of happy laughter, and it is the regret of the editor that he was unable to be present on the merry occasion. When refreshments were served at 7 p. m., just sixty-two little folks sat down to partake thereof; but it is difficult to determine who were enjoying themselves the most, the children or the baker's dozen of grown folks who were assisting Mrs. Gasteyer in serving the luncheon. At all events, a merry time is reported by all and it is hoped that a repetition will be in order before many days.

Loup City is taking on metropolitan airs in an unusual way to her. Last Tuesday evening, somewhere before 10:30, while the family were out enjoying the evening with friends at our metropolitan bathing park, some sneak thief broke into the residence of C. C. Cooper, by prying open the rear screen door and turned things topsy-turvy. The family wearing apparel was tossed hither and thither, in attempt to find some of the wealth or valuables supposed to belong to all wealthy merchantmen, but nothing was taken so far as has been noticed. Now, if it had been at the editor's mansion—but, pshaw! who ever heard of an editor's house being invaded by bold, bad burglars. They know who to touch.

**Oil on Troubled Waters**

Did you ever try to fill a lamp and miss your guess and put in just a little too much oil? Perhaps you got a little on your clean dress, and naturally it made you feel rather out of patience.

We've found a remedy for this little mishap, in the most convenient oil can on the market today. It is called the "Never Fail," is in the 5-gal. size and is painted red for Gasoline and blue for Kerosene.

(And that reminds us that there has been a law pending recently making it unlawful for any merchant to put Gasoline in any can that is not so labeled, either in words or in color.)

Our vocabulary isn't large enough to give you an accurate description of this can, so we will give you a cordial invitation to call and see for yourself.

Take one home and use it for 30 days and if you don't think it's the best oil can you ever saw or used, return it to us and we will give you your money back. Now, isn't that a fair proposition?
