Wellville," in every pkg.

W. J. BLACK

New Passenger Traffic Manager for the Santa Fe Road.

William J. Black, who has just been promoted by the Santa Fe railroad to be passenger traffic manager of the entire system, with headquarters in Chicago, was born Oct. 3, 1864, in St. Louis, and has been in the railway service since 1879, beginning as an office boy with the Vandalia at the age of 15 years. He retained his first position five years, when he became rate clerk in the passenger department of the Missouri Pacific. In March, 1886, he was given a similar position by the Santa Fe. He was promoted to chief clerk in the passenger department in April, 1887, and to assistant general passenger agent Jan. 1, 1892. He has been general passenger agent, with headquarters at Topeka, Kan., since Feb. 1, 1897.

A Sermon in it.

In the following paragraph, from a story by Gouverneur Morris, in the Reader magazine, there is a whole sermon: "Edward," said my grandfather, "never undertake to patronize God. If you feel that you do not understand Him keep it to yourself. It is enough to know that you were dust, and He made a man of you; that you grow wear at length and He gives you sleep!"-Ttlantic Constitution.

MANY KNOW THIS-DO YOU?

The following very interesting conversation between Mr. White, banker, and Mr. Waiter Wellman, retired, two prominent citizens of the town, was recently overheard:

"I never buy patent medicine," said Mr. White. "When I feel the need of medical assistance I call our physician. I don't believe in taking a lot of stuff that I know nothing about. I know, however, that a great many do use it, and apparently with good results, but I am for getting a doctor every time."

"Your circumstances render this possible," replied Mr. Wellman, "but the majority of people must consider the expense. My experience is that some patent medicines frequently cure when the doctor's skill is baffled. Take, for instance an affliction; say like constipation and stomach trouble. Did you ever hear of your family physician curing a case like that? If constipated, he gives you a physic; but a physic cannot cure constipation, and he will tell you so. It is a temporary relief and before long you need more physic or pills. The doctor charges you \$2 every time you call on him and you have to pay 50c or 75c to have his prescription filled. Pretty soon you have the 'Pill' or 'Physic' habit and your doctor has a steady customer. You cannot read the doctor's prescriptions. You know you \$2 every time you call on him and you have to pay 50c or 75c to have his prescription filled. Pretty soon you have the 'Pill' or 'Physic' habit and your doctor has a steady customer. You cannot read the doctor's prescriptions. You know no more about what he gives you than you do about the ingredients of a patent medicine. No reliable company will put a lot of money into a patent medicine unless they are convinced that it will do all that is claimed for it. Usually it is the prescription of some specialist who has devoted his life to the study of a certain disease and has mastered it.

I mention constipation and stomach trouble because I suffered from that affliction for years. It is the beginning of nearly all disease. Once it gets a grip on you, it is serious, stubborn and hard to overcome. I never knew a case that was cured by an ordinary practicing physician, but I do know of a number of bad cases that were permanently cured by medy called Mull's Grape Tonic. I seed it in my family with satisfactory results. It cured me, and I know a great many more persons it has cured. It costs 50 cents for a small or \$1.00 for a large bottle. I don't know exactly all that is in it, but I do know it cures constipation and stomach trouble and that is more than my family doctor could do for me.

I was first attracted to the remedy by

was first attracted to the remedy by I was first attracted to the remedy by the company's offer to give the first bottle free to any one who would write to them giving their druggist's name. I am thankful for the benefit it has given and advise every sufferer from constipation to write to the Mull's Grape Tonic Co.. 148 4th Ave., Rock Island, Ill., giving them their druggist's address, so that they can procure a bottle free of expense."

Tennyson's Porter.

Tennyson was a lover of porter. When a peerage was offered him didn't he put off deciding whether to accept it or not until he had debated the question with himself over a bottle of what Goldsmith called "parson's black champagne?"

TORTURING HUMOUR.

Body a Mass of Sores-Treated by Three Doctors but Grew Worse -Cured by Cuticura for 75c.

"My little daughter was a mass of sores all over her body. Her face was eaten away, and her ears looked as if they would drop off. I called in three doctors, but she grew worse. Neighbors advised Cuticura, and before I had used half of the cake of soap and box of ointment the sores had all healed, and my little one's skin was as clear as a new-born babe's. I would not be without Cuticura again if it cost five dollars, instead of seventy-five cents, which is all it cost us to cure our baby. Mrs. G. J. Steese, 701 Coburn St., Akron,

It takes the state legislature to change a man's name, but any justice of the peace can change a woman's.

A man may as well tell the truth when he comes home at 2 a. m., for his wife won't believe him anyway.

If you train servants in the way they should go, the first thing you know they are gone.

Make Housewives of Girls.

Farmers' daughters are educated in many parts of Germany in traveling schools, which go from village to village to give girls over sixteen years of age practical lessons in housekeeping, cooking, the selection of food, care of poultry and cattle, the cultivation of vegetables, and butter and cheese making. The results have been so satisfactory that it is now proposed to add instruction in nursing, cooking for the sick, mending and sewing. The teachers, who are graduates of the schools of housework and have passed government examinations, carry with them an outfit of a cooking stove and the various utensils for cooking and ironing. The classes are held in the schoolhouses, the term lasts six weeks, and the cost of tuition is put so low as practically to exclude no one.
