It is surprising to find how readily the habit is formed-more readily, of course, by women than by men, as the latter are thrown more into the world's hap-

penings. A woman should ever beware of making herself the central subject of her talk-her home, her profession, her health, how naturally she comes to consider them. And it is quite natural that she should. But before she burdens her friends too much with her history let her stop and wonder whether she would like to listen to her friend Mrs. X. and her personal troubles or her sewing society problems for hours at a stretch.

It is not meant by this that one should not speak of or ask sympathy in one's own interests, but there is a limit to patience, and if a woman must have a "hobby" she should not expect her friends to ride it constantly, too. -Philadelphia Ledger.
