To Messrs. Gibson & Mathew:

Since you are attempting to justify the 15 per cent reduction in Ashton township, please explain to the people of Clay township why the Conklin quarter in Oak Creek Valley, at the southeast corner of Ashton, should be valued originally at \$449 and raised by order of the State Board to \$527, when at the same time Andy Gray's valuation on the northeast quarter 20-14-14 is \$570 and Sid. Hollister's valuation on the northwest quarter 18-14-15 is \$576? Don't you know that the Conklin quarter would sell on the market for as much money as both Gray's and Hollister's combined? If such is the fact, why should Conklin's quarter pay taxes only on a valuation of \$527 when the same value of land in Clay township is to pay on a valuation of \$1,146? W. R. MELLOR.

Have appreciated our unparalleled efforts to furnish them with seasonable up-to-date merchandise at prices heretofore unknown. For Thirty days we have sold large quantities of goods to people from all parts of this county. Even the other towns have given us their quota of economical buyers. Everybody has been satisfied with the bargains they have received. Now that the Thirty Days' Sale is over, we have been more than pleased with the result. If some bargains were good, more would be better.

We have had requests from all this surrounding country to grant a continuation of the prices of the past thirty days. Many farmers have been busy and were unable to get here in time to take advantage of our offerings. Why Stay the Tide of Oncoming Buyers? WHY, INDEED? We have asked ourselves, and in answer have determined to continue the good work

Another Thirty Days

Which will carry it until Christmas.

Great quantities of goods at prices we could not afford to take in ordinary merchandising will be marked with the **Big Red Tag** We must have room and must have **Cash!**

Cash is the Great Lever of this Sale. It is that which impels us to continue these prices FOR THE NEXT THIRTY DAYS, when we should be making a profit; to unload our goods at prices that will pay the people to come miles to take advantage of.
