Bad Stomach Makes Bad Blood.

Bad Blood. You can not make sweet butter in a foul, unclean churn. The stomach serves as a churn in which to agitate, work up and disintegrate our food as it is being digested. If it be weak, sluggish and foul the result will be torpid, sluggish liver and bad, impure blood. The ingredients of Dr. Pierce's Golden Medical Discovery are just such as best serve to correct and cure all such de-rangements. It is made up without a drop of alcohol in its composition; chem-ically pure, tripie-refined glycerine being nsed instead of the commonly employed a valuable medicine, instead of a deleteri-ous agent like alcohol, especially in the various forms of indigestion. Prof. Finley Ellingwood, M. D., of Bennett Medical College, Chicago, says of it: "In dwarensia it serves excellent nur-

Ellingwood, M. D., of Bennett Medical College, Chicago, says of it: "In dyspepsia it serves an excellent pur-pose. "It is one of the best manufact-ured products of the present time in its action upon enfeebled, disordered stomachs; especially if there is ulceration or catarrhai gastritis (catarrhai inflammation of stomach), it is a most efficient preparation. Glycerine will relieve many cases of pyrosis (heartburn) and excessive gastric acidity. It is useful in chronic intestinal dyspepsia, especially the fiatulent variety, and in certain forms of chronic constipation, stimulating the secre-tory and excretory functions of the intestinal glands."

chrome considuation, stimutume the sector tory and excettory functions of the intestinal glands." When combined, in just the right proportions, with Goiden Seai root, Stone root, Black Cherrybark, Queen's root, Bloodroot and Mandrake root, or the extracts of these, as in Dr. Pierce's Golden Medical Discovery, there can be no doubt of its great efficacy in the cure of all stomach, liver and intestinal disorders and derangements. These several ingredients have the strongest endorsement in all such cases of such eminent medical leaders as Prof. R. Bartholow, M. D., of Jefferson Medical College, Chicago; Prof. Hobart A. Hare, M. D., of Medical Department, University of Pa; Prof. Laurence Johnson, M. D., Medical Department, University of New York; Prof. Edwin M. Hale, M. D., Hahnemann Medical College, Chicago; Prof. John M. Scudder, M. D. and Prof. John King, M. D., Authors of the American Dispensatory, and scores of others among the leading medical men of our hand. Who can doubt the curative virtues of a medicine the ingredients of which have such a professional endorsement?

a medicine the ingredients of which have such a professional endorsement? Constipation cured by Doctor Pierce's Pleasant Pellets. One or two a dose.

ble of dairy farm

74 Cortlandt Strect NEW YORK

Your farm pays for itself

in the Southwest.

It is not an uncommon thing for a farmer in

the Southwest to pay for his farm in one year. This could only be done where the crops are

big, the prices good, and the land inexpensive.

Precisely these three conditions exist in the

Southwest. Good rich land can be bought for

a small part of what land costs in your locality.

This land will yield 50 bushels of corn to the

acre, 30 bushels of wheat, 90 bushels of oats,

as a regular thing. The average prices of

grains sold by farmers in the Southwest during

the past five years was higher than the prices

secured by farmers in your neighborhood.

Under such favorable conditions, the South-

Now is your opportunity

to exchange your few acres at home for a bigger and more productive farm in the Southwest. You can sell your present farm, pay off the mortgage and have enough left to buy a big farm in the South-

west that will make you independent in a few years. Write us what you want and we can place you in
