

NEBRASKA NOTES

MISCELLANEOUS MATTERS IN THE COMMON WEALTH.

A CASE THAT INDICATES MURDER

Jacob L. Heady Found Dead in Burt County—Mrs. Lillie Again Loses in the Supreme Court—Other Matters Here and There.

CRAIG—With every circumstance indicating murder and robbery, the body of Jacob L. Heady, a wealthy farmer, was found in Bell creek, a mile and a half northwest of here. It was almost entirely covered by the water and was badly decomposed. Heady disappeared three weeks ago and nothing had been heard or seen of him until his body was identified. The discovery of the body was made by Robert Adams, who went to the creek to repair some fence. Adams immediately notified the coroner, who began an inquest this afternoon. The body was so badly decomposed it was impossible to identify it by the features. From the clothing it was identified as Heady.

A gunshot wound in the head plainly indicated the manner of death, and surrounding circumstances proved beyond doubt that the wound was not self-inflicted. At the inquest it was shown he should have had between \$50 and \$100 on his person, but no money was found, his pockets evidently having been rifled before the body was thrown into the creek.

First of Assessments in Lincoln

LINCOLN—Dakota county is the first of the counties to make its return of assessment to the state board of equalization, the report having been received this morning. The returns show a total increase of \$41,753.99 in the assessed valuation, or an increase from a total assessment from \$2,160,334.39 this year. Horses, cattle, hogs, mules and sheep were each increased in value by the assessors, though the railroad property was returned by the state board in this county at the same valuation as last year, except that by the addition of the Sioux City & Western road to this county this year the total railroad property in the state was increased from \$428,160 in 1905 to \$463,850 this year, or an increase of \$35,690. This leaves an increase on all other property of \$5,935.99 in the assessment, which is one-fifth of the valuation. Land was increased 4 cents an acre in the assessment, while lots were increased 15 cents in the assessment on each acre.

Surveyors Near Fremont

FREMONT—Surveyors, presumably in the employ of the Burlington, are working west of Fremont, and are heading for the Maple Creek valley. There are nine men in the party, and they are equipped for a fortnight's work. They have two wagons, a tent, cooking utensils and a stock of provisions. This morning they began work on the Turner ranch and cut diagonally across it. Many people watched them, but were unable to get any information.

The surveyors arrived over the Union Pacific, and it was announced at that time that they were in the employ of that road, and would survey for the block system of signals which is being inaugurated. The fact that they pitched their tent two miles north of the railroad line and went to work in a cornfield disqualified this statement.

Girl Accidentally Poisoned

FREMONT—Gertrude Hunter, a daughter of L. H. Hunter of Crowell, died from the effects of poison accidentally taken. She was playing tacking medicine and told her mother that she had taken a pill which she had found in a glass of water. A little while after she was taken sick and a physician who was summoned found her beyond help.

ARBORVILLE—The Union Pacific on the Central City and Stromburg new line four miles north of here have been having a hitch in their proceedings of getting town sites (land) and it looks as if there would be but one town on the extension.

NEBRASKA CITY—The closing exercises at the institute for the blind were concluded and the scholars left for their homes in various parts of the state. The trustees, at the suggestion of Superintendent J. T. Morey, retained the entire faculty for the ensuing year.

ELMWOOD—Mrs. Sarah Inman, a widow about sixty years of age, was found dead at her home in this city. For several days Mrs. Inman had been anticipating a visit from her son, Bert, and wife, who reside at Florence, Col., and they came. Going to the home of his mother, they found the door locked and could get no response to their knocking. Going to a window Bert peered into the room and was horrified to discover his mother lying on the floor dead.

Miss Neill Has Disappeared

THE LOST CHILD.

If President Roosevelt Starts Out to Find It, a Rescue May Be Effected.

INSPECTION BILL OUTLINED

COST OF SUPERVISION FALLS ON GOVERNMENT.

Requires Federal Label on Meat and Meat Products as Guaranty of Purity.

Washington—A meat inspection provision was completed by the house committee on agriculture Wednesday and will be presented to the house for action at once, which it is declared by the committee will insure that American meats and meat products are healthful, clean and in every respect wholesome and fit for food.

The important features of the legislation are that it places the cost of the inspection on the government and makes an annual automatic appropriation of \$2,000,000 to pay the expenses. It requires a rigid post mortem and ante mortem inspection of all animals killed for food. It requires a government label as a passport for all meat and meat products which enter interstate commerce and in addition to this label, a certificate of purity to the carrier and to the secretary of agriculture for such products which enter foreign commerce. To secure this label the product must be handled in accordance with sanitary regulations to be prescribed by the secretary of agriculture, who is authorized to employ, without regard to the civil service law for the first year, an adequate corps of efficient inspectors to supervise the enforcement of his regulations.

It prohibits the use of preservatives or chemicals in the preparation of meat foods which are deleterious to health, and leaves the matter of determining this question to the secretary of agriculture. The label on the product is to indicate the ingredients, but the date of manufacture is not required to be stated.

The sanitary requirements which the secretary is to prescribe and enforce must insure complete sanitation as to all buildings, whether slaughter houses or canning establishments.

Washington—Chairman Wadsworth of the house committee on agriculture Friday night made public the correspondence between President Roosevelt and himself regarding the inspection bill.

The president in his letter says that almost every change in the house amendment was for the worse as compared with the senate amendment, and, in his judgment, so framed as to minimize the chances of rooting out the evils in the packing business.

Mr. Wadsworth declares the president is "very, very wrong" in his estimate of the committee's bill, calls attention to provisions in the bill and concludes with an expression of regret that the president should feel justified, by inuendo at least, in impugning the sincerity and the competency of a committee of the house of representatives.

"You have no warrant for it," says Mr. Wadsworth, in closing.

Kansas City, Mo.—Armour & Co., Swift & Co., Cudahy & Co., and the Nelson Morris Packing company were found guilty in the United States district court here Tuesday of accepting rebates from the Chicago, Burlington & Quincy railway on export shipments on packing house products.

The specific case considered, which was practically identical with the others, was that charging Cudahy & Co. with accepting a rate of 23 cents per 100 pounds on a shipment of lard to New York for export to Germany, when the legal tariff then on file with the interstate commerce commission was 35 cents.

Kansas City, Mo.—The Chicago, Burlington & Quincy Railway company was found guilty here late Wednesday afternoon by a jury in the United States district court on four counts of granting concessions on packing house shipments for export to the Armour Packing company, Swift & Co., Cudahy & Co., and the Nelson Morris Packing company.

The conviction carries with it a fine of from \$1,000 to \$20,000 on each count. Judge Smith McPherson, the presiding judge, deferred sentencing the defendant until June 22. All four counts are practically the same.

RUSSIAN MOB SLAYS JEWS

Thirty Killed and Many Others Are Wounded in Massacre at Bialystok.

Bialystok, Russia.—A Jewish anarchist threw a bomb among the Corpus Christi procession which was in progress here Thursday, and killed or wounded many persons.

In consequence the Christians attacked and massacred the Jews and demolished their shops.

Thirty persons were killed and many others wounded.

The bomb was thrown from the balcony of a house in Alexandrov street. A Russian clergyman named Fedoroff was among those killed by the explosion.

Immediately after the explosion Jews began to fire with revolvers from the windows of the house into the crowd. Soldiers surrounded the house and fired two volleys into the windows.

Meanwhile the enraged Christians attacked the Jewish stores in Alexandrov and Suraz streets, demolishing the fixtures and windows and throwing the goods into the gutters and beating and murdering the Jews.

St. Petersburg.—Disorders appear to have broken out at Bialystok Friday afternoon with even greater fury than characterized Thursday's riots. Semi-official messages from Grodno and Minsk report that the excesses were started again by the throwing of several bombs. The crowds then opened fire on the police station, to which the troops replied, and there was a constant interchange of shots between Jews in their houses and soldiers in the streets.

TO SUE IN REBATE CASES

CRIMINAL ACTION AGAINST OIL AND RAIL MEN ORDERED.

Admissions of Concessions to Standard Is Cause—Millions in Fines Faced.

Cleveland.—Instructions have been given at Washington to begin criminal proceedings against the Lake Shore railroad, George J. Grammer, vice president of the New York Central lines west of Buffalo, the Standard Oil company, and whatever other officers may be shown to have been implicated in the payment and receipt of rebates which were disclosed in the interstate commerce commission hearing here Thursday.

The contemplated proceedings may include Edgar Bogardus, traffic manager of the Standard Oil company at Chicago, and other officers of the Lake Shore at Chicago and Cleveland.

This, together with the complete back-down of the Standard Oil company, when it was given the eagerly sought opportunity to make a defense before the commission, was the denouement of the commission's session.

Acting under instructions from the commission, Attorney J. Marchand started for Chicago with a view to preparing the cases for presentation to the federal grand jury there. His instructions are positive with respect to Capt. Grammer, and he has been further ordered to ascertain whether it will be possible to proceed also against the officials of the Lake Shore for a violation of the injunctions issued more than three years ago and restraining the railroads from paying rebates on any kind of traffic. It is the purpose to proceed under both the injunctions and the Elkins amendment to the interstate commerce act.

This decision is the result of testimony given before the commission that from 1903 to January, 1906, the Lake Shore paid rebates to the Standard Oil company, in the form of remitted charges for storage of oil. The evidence showed that this was done directly by the authority of G. J. Grammer, and was discontinued by his express authority.

Auditor Marcus C. Tully, of the Lake Shore, reluctantly told the commission that it had been the practice of Edgar Bogardus to give his bills for storage to the general agent at Chicago, who would forward the accounts to the auditor at Cleveland, who in turn would give the Chicago office credit for the amount without receiving the money from the Standard Oil company. The sum thus rebated amounted to about \$500 a month and is said to have been sufficient to drive other oil dealers out of business.

The federal grand jury will be asked to indict Vice President Grammer and the Lake Shore for paying these rebates. Under the law both the railroad company and the official can be fined not less than \$1,000 nor more than \$20,000 for each offense, and similar treatment can be given the Standard Oil company and the officials of that corporation who may be shown to have been guilty of soliciting the payment of the rebates.

The maximum fines that could be assessed under the law would aggregate \$720,000 against the railroad, a like sum against each of its officers who is guilty and a like sum against the Standard Oil company and against each of its officials found guilty. It is possible, therefore, for the Standard Oil company and the railroad company and their officials to be assessed several millions of dollars for infractions of the law.

In addition to this, if the commission's attorney finds that he can proceed under the injunctions of the courts, and he is now certain that this is possible, a charge of contempt of court might be pressed and an imprisonment.

The testimony in the case was so positive and clear that the commission felt that they could not ignore it. After communication with Washington it was determined to institute all the criminal proceedings possible against the accused and to prosecute them vigorously. The instructions are to leave no stone unturned in the attempt to bring the suspects to the fullest justice.

Omaha, Neb.—The government has made all arrangements for the registration for the lands of the Crow reservation, which will be drawn July 2 at Billings. The registration dates are June 14 to 28 at Sheridan and Billings, and the Burlington has offered exceptionally low rates to those wishing to take a chance in Uncle Sam's big lottery.

The rate will be one fare for the round trip from nearby points, where the regular one way fare is \$20 or less. From all other Burlington route points it will be 75 per cent. of the one way fare, but not less than \$20. This will make the rate from Omaha, Kansas City and Denver much less than a fare for the round trip.

The tickets will be sold June 10 to 26 inclusive, with a return limit till July 10. All lodging places will be listed and committees at each town will meet the excursionists.

The mayor of Billings has wired the Burlington that everything will be done to take care of the registration crowd and he will take personal charge of the police force. Tents with board floors will be laid out in the streets, and booths will be constructed. The mayor says that Billings will be able to take care of 10,000 people at any time.

Sheridan has also advised the Burlington that complete arrangements are being made to take care of the crowds for registration. The location of every available room will be filed, while cots, bedding and tents sufficient to accommodate a small army will be secured from Fort MacKenzie. Fine camping grounds will be prepared. Hotels and eating houses are stocking up and will be prepared to take care of all that come. The police force is taking measures to eliminate all undesirable elements, such as thugs and gamblers. The Chamber of Commerce and city council are taking vigorous measures to insure registration visitors a safe and comfortable time at Sheridan.

Talk of Political Strike Which Will Bring Government to Its Knees—Prospect of a Struggle Between Parliament and the Proletariat.

ST. PETERSBURG.—The pitiable affair at Bialystok apparently has burned itself out. No further bloodshed was reported today and no more is expected even by the radicals, who are satisfied that the authorities are now in control and will do everything possible to prevent a renewal of the excesses.

This confidence is based on the action of the governor of Grodno, who is hated and distrusted by the bureaucrats and who, after investigating the situation at Bialystok, took the unprecedented step in order to prevent a spread of the massacres to telegraph the authorities of all towns within the Jewish pale, denying the alleged official reports that the disorders were due to the wanton throwing of bombs at a Christian
