Indian Eduaction That Counts. The Indian school at Chilocco has just graduated the largest class in its history, and some of its graduates and many of its other classes will help the sugar beet raisers in the vicinity of Rocky Ford, Col., during the vacation. Over 150 of the young Indians are now engaged in this work in that district, and will remain there until the crop is all gathered. They will be back in the

The boys and girls are taught all that is imparted in the ordinary grammar schools of the country, and a little more, in some cases. In addition the boys are taught to make and repair harness, to shoe horses, to build houses, to do farm work of various sorts, to raise and care for cattle, and some of the rest of the things that need to be done in the average community in the west or east. The girls are instructed, by actual practice, in cooking, baking, laundering, nursing, sewing and other work suitable to their sex.

This is the education that counts, says the St. Louis Globe-Democrat. The Chilocco school was in practical operation at the St. Louis world's fair, and was one of its most attractive features. It was visited by hundreds of thousands of people during the seven months of the fair. Admiration for its system and for the intelligence and good behavior of its pupils was expressed on every hand. Superintendent S. M. McCowan, the head of the school, was here with it, and won aigh praise for the thoroughness and practical character of the work of his pupils. The United States government made many mistakes in its dealings with the Indians in the old days, but for the past quarter of a century it has been on the right track. Chilocco, Carlisle, Haskell and the rest of the great government schools are doing a good work in training the young Indians of both sexes to help to intelligently bear society's burdens.

#### Chinese Students' Uniforms.

The establishment of government schools in China, and the equipment of students in uniforms is furnishing a market for military clothing. According to the British consul at Wuchow 60 of these schools have been opened in that prefectorate alone. The uniform consists of a coat and trousers of foreign cut, with brass buttons and peak caps, and shoes of foreign pattern. The material used is either serge, union cloth or cotton tweed for been accused of murder. winter uniforms, and for summer to be of British cloth, but there is a rule, which is evidently ignored, that ferior kind is made locally of native lights. leather. Mrs. Phipps began a contest for the possession of the children, but eventually terms were reached under which a divorce was granted on the ground of desertion. Then almost before their friends had ceased talking about their case Mr. and Mrs. Phipps made up. and it is said that they will be remarried. This seems to have finished the calendar of sensations as far as the Phipps and McKee millionaires are concerned.

At the Waldorf one morning Mr. Peacock was discovered scribbling on a sheet of paper in the writing-room. A friend asked him what he was doing.

Some time afterward Mr. Corey gave Mr. Schwab a Lucullian feast. The costliest wines, the daintiest hat-house fruits and the rarest flowers were liberally provided. The waiters wore colonial costumes with powdered wigs, and the souvenirs were silver cardcases. Previous to this, however, Mr. Corev had emulated other Pittsburg rich men by figuring in a swimming party of which Miss Maybelle Gilman, an actress, was a member. The party took place at the Pittsburg natatorium. There were hot birds and cold bottles and some very pretty exhibitions of plain and fancy swimming.

At this party an infatuation for Miss Gilman is said to have sprung up on the part of the millionaire. An estrangement took place between Mr. and Mrs. Corey supposedly on account of Miss Gilman, and at present Mrs. Corey is in the west, where she is residing with a view to securing a di-

The expert in feminine beauty who has to do with the selection of the perfect forms and piquant faces that go to make up the dazzling mass of beauty in a Broadway production is forced to admit that the New York girl doesn't figure up in statistics as being prettier on the average than girls in any other locality. In fact, aside from a tendency o clearer skin there are a greater number of pretty girls come rfom he country than from the city seeking a place before the footlights

It may be that the New York girl is not so dazzled by the glare but the fact remains that the river towns and for fame, husbands or both.

Indiana is another state that despite its malaria and swamps produces some remarkable beauties, and Ohio has almost as great a representation by its good looking girls on the stage as it has by its men in politics. Colorado has contributed some "peaches," as the term goes, and California seems to have a pretty-girl atmosphere when you come to count the amount of San Francisco girls who lead in beauty contests on the stage.

There is a distinct difference in the temperament of the girls who come from the interior states, so-called, and that of the girls of New York or California. There is something in the spirit of the girls from these latter places that seems to impel them to go on and up in the bits of butter and bake until firm. work they have chosen, and they are looking for a chance to improve and take advantage of their beauty to shine as "stars," while the girls from the interior states are always looking for a chance to get married.
