Amendment to Immigration Bill Is Not Liked.

Tokio - The official text of the amendment of the government bill has been published. As expected it has created the strongest dissatisfaction among the interested parties, although the movements of procedure have not yet assumed a definite shape. The Japanese residents of the Hawaiian islands have telegraphed President Roosevelt and the Hawaiian representatives in the house reporting the seriousness of the injury which will be caused to their rights and interests by this legislation.

The leaders of opinion here are aware, however, that under the circumstances the only alternative is to calmly resign themselves to the situation, hoping that the government can arrange with the government authorites to reduce the sacrifice in the interest of Japanese immigrants to a minimum.

They regret the enw law, lest the San Francisco people, glorying in their success, should asume an overbearing attitude.

News of this kind would only tend to injure Japanese susceptibilities, which President Roosevelt has specially been careful to avoid.
