NEBRASKA POLITICAL PARTIES

Republican, Democratic and Populist State Conventions.

BRYAN AND TAFT PRESIDENTIAL GHOICE

The Respective Meetings Highly Harmonious, All Nominations Having Previously Been Made in Recent State Primary Election.

The republican state convention which met in Lincoln on the 24th, presided over by Gov. Sheldon, had but little to do but to frame a platform and appoint the state central committee, as nominations had been made in the primaries. Two sessions were held, both short, the last of Believing, with Jefferson, in "the

4. More equitable rates for transportation of passengers and freight.

5. Equal taxation of railroad property for city, purposes.

6. Abolition of fellow servant law and full employer's liability.

7. A pure food and dairy law.

8. Rigid economy in appropriations.
Every one of these pledges has been fulfilled.

We express our satisfaction with the operation of the new primary law. It gives to the individual the same equal voice in the selection of all candidates that is given in the election that follows. Its first experiment was to obtain a freer and fuller expression of sentiment than has heretofore been possible to obtain under the caucus system. We pledge such amendments to the law as experience demonstrates are necessary to make it a more perfect system of choosing candidates.

We indorse the work of the state railway commission and expect it to continue to be a serviceable instrument in enforcing the laws without fear or favor and to deal speedily, impartially and justily with all complaints against the roads. And we especially indorse the present efforts of the commission to effect a reasonable additional reduction in grain rates. We call unpor the railway commission to effect a reasonable additional reduction in grain rates. We call unpor the railway commission to effect a reasonable additional reduction in grain rates.

THE DEMOCRATS.

THE DEMOCRATS.

The democrats gathered in the senate chamber, where organization was perfected. Ererything passed off smoothly, there being no hitch or lack of harmony in the proceedings. W. J. Bryan delivered an earnest political address but the convention refrained from en. Jorsing him for president. There was some little conflict in naming the state committee, but the business was soon got through with in a highly satisfactory manner. In general there was no disposition to fuse between the democratic party of Nebraska, in delegate convention assembled, express our continued conjudence in, and admiration for, Honorable William elanings between the democratic party of Nebraska, in delegate convention assembled, express our continued conjudence in, and admiration for, Honorable William elanings Bryan, and reasert our fidelity to the principles which at this time are so generally accepted by a large majority of the people of the United States. The various investigations are an admiration for, Honorable William elanings Bryan, and reasert our fidelity to the principles which at this time are so generally accepted by a large majority of the people of the United States. We rejoice at the increasing signs of a moral awakening in the United States. The various investigations are appropriated by the people and power. right of each state to exercise just as complete common to the commission to effect a reasonable additional reduction in grain rates. We call upon the railway commission to investigate if only those giving the railways "the major portion of their time" are on the list of passholders, and we insist upon a rigid enforcement of the anti-pass law.

We believe the federal judiciary law should be amended to define the citizenship of interstate corporations for the purposes of jurisdiction of federal courts by providing that for the purposes of original jurisdiction and jurisdiction on removal from state courts. or federal courts, a corporation shall be deemed a citizen of every state where it has filed or is required by the law of that state to file in the manner required of domestic corporations, and in addition thereot that every foreign corporation, or its successors, assigns, or lessees, exercising or claiming the fight of eminent domain, under a state law, shall be deemed a citizen of that state for the purposes of jurisdiction of federal courts.

We favor the enactment of a federal law, and, if necessary, an amendment to the federal courts from issuing writs of injunction against state officers charged by law with the enforcement of state statutes.

We regard with high favor the nomines of our state citizes, and invite all voters who believe in official probity and efficiency to join in electing them.

wherever possible, we believe that our nation should announce its determination not to use our navy for the collection of private debts, and its willingness to enter into agreements with other nations, providing for the investigation, by an impartial international tribunal, before any declaration of war or commencement of hostilities, of every dispute which defies diplomatic settlement.

Undoubtedly the railroad commission which was created by an amendment to the constitution has no power to fix rates, therefore we demand that the governor shall call an extra session of the legislature and that that body shall establish maximum rates upon grain. Silve stock, fruit, vegetables, building material, fuel, and such kindred products as enter into the necessities of life. Also a stringent anti-pass law, a reciprocal demurrage law, and a law directing the governor of this state to appoint a competent commission of at least five, no more than two of whom shall, after due investigation, report upon the physical values and the mataket values of all common materials doing business within the state for the guidance of the legislature and the taxing powers.

In Said to Promptly Relieve Backache and Overcome Kidney Trouble and Essand Pleasant to Take.

What will appear very interesting to many people here is the article taken from a New York daily paper, giving a simple prescription, as formulated by a noted authority, who claims that he has found a positive remedy to cure almost any case of back-ache or kidney or bladder derangement, in the following simple prescription, if taken before the stage of Bright's disease:

Beginning Right.

The surest way of making the world better is to begin with ourselves. Until we have fought our own sins, and come up against the deceit fulness of our own hearts, we cannot be wise warriors for the right, or merciful helpers to the fallen. Until we have learned self-denial, obedience and love, we will be of very little use in the world's dark places. Being good is the threshold of doing good.

Corks Made from Paper. A machine for making corks out of waste paper an dpaper pulp has re cently been perfected and patented. This machine makes corks out of all kinds of waste paper, which are much superior to the ordinary corks, as they are impervious to acids or oils. Tests made by chemists and the larger users of corks say they are far superior to the old style in every way.

Bright's disease:

Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. Shake well in a bottle and take in teaspoonful doses after each meal and again at bedtime.

A well-known authority, when asked regarding this prescription, stated that the ingredients are all harmless, and can be obtained at a small cost from any good prescription pharmacy, or the mixture would be put up if asked to do so. He further stated that while this prescription is often prcscribed in rheumatic afflictions with splendid results, he could see no reason why it would not be a splendid remedy for kidney and urinary troubles and backache, as it has a peculiar action upon the kidney structure, cleansing these most important organs and helping them to sift and filter from the blood the foul acids and waste matter which cause sickness and suffering. Those who suffer can make no mistake in giving it a

Uncle Eli felt he knew the metropolis pretty well. Had he not been there three times in four years-and twice he had ridden on the elevated. So when he brought Aunt Susan with him (on the fourth trip) he naturally assumed the role of guide.

She marveled at everything until they sat down for luncheon. They had gone into the Astor house for that meal, but all its other marvels seemed lost on the visiting country hostess, as she looked open-eyed at the crowds that filled not only the corridors but the restaulants. Scarcely had they found seats, when this amazement took definite shape.

"After my granddaughter of about seven years had been cured of the measles, she was attacked about a fornight later by a furious itching and painful eruption all over her body, especially the upper part of it, forming watery and bleeding sores, especially under the arms, of considerable size. She suffered a great deal and for three weeks we nursed her every night, using all the remedies we could think of. Nothing would help. We tried the Cuticura Remedies and after twentyfour hours we noted considerable improvement, and after using only one complete set of the Cuticura Remedies. in five consecutive days the little one. much to our joy, had been entirely cured, and has been well for a long time. When the Orator Soared. In the course of an address extolling the virtues of the medical profession, Dr. L. B. McBrayer of Asheville, N. C., used the following characteristic southern language:

"Could I borrow from the sun his cheery smile, from the moon her golden beams of light, from the southern zephyrs their softness, from the rose its fragrance, from the rainbow its celestial beauty, from the babbling brook its laughter and song, from the sea its awe and wonder, from the valley its serenity, and from the mountains their majesty and put these down upon a piece of azure blue sky, with comets for commas and planets for periods, I might then paint for you what the practice of medicine is like."

Pure Food.

The pure food law does not prohibit the sale of Cream of Tartar Baking Powders because Cream of Tartar is as pure as Alum-but it is a well known fact that a baking powder in which Alum is used instead of Cream of Tartar is less injurious. Dr. Herman Reinbold, the expert German chemist, in a recent official report concerning Baking Powders, declares that a pure Alum baking powder is better and less injurious than the so-called Cream of Tartar powders. He says that if the quantity of alum contained in a suficient quantity of baking powder for a batch of bread or cakes for an ordinary family, be concentrated to one mouthful of food, and taken into the stomach of any one person, no matter how delicate, it could do no harm.

ENGLISHMAN'S FIRST AND SUC-CESSFUL ATTEMPTS IN MANI-TOBA-SOIL PRODUCES STRIKING RESULTS.

The Winnipeg (Canada) Free Press of a few days since contains account of the success that followed the efforts of William Knowles, an English man who located near Winnipeg, Manitoba. This is but one of many letters giving experiences of settlers. and should be encouraging to those who are looking about for a new home in which they may better their conditions. The following is a copy of the article referred to:

William Knowles, who cultivates some twelve acres of land just below Middlechurch ferry on east side of the Red River has probably as fine a display of horticultural products as any in Manitoba. The whole of his holding is in a high state of cultivation and literally crowded with splendid vegetable specimens, which have fortunately escaped damage by hail, although heavy storms have more than once occurred within a few miles. The potatoes are a wonderful crop, and he expects to raise 1,500 bushels from his patch of 41/2 acres. A half dozen of tubers selected yesterday average more than a pound each. Adjoining the potatoes may be seen a marvelous collection of tomatoes. There are 600 plants, all growing under an enormous weight of fruit. One single stock picked yesterday contained eighteen tomatoes and weighed four pounds. This extraordinary example of marvelous growth, together with some of the potatoes were sent to the Free Press office.

The proprietor was the first in town with several specimens, including green corn. The season has been favorable for onions, and one square patch of nearly an acre is looking remarkably healthy. In addition there are good crops of cabbages, cauliflower, turnips, parsnips, carrots, pumpkins, marrows, cucumbers, celery, peas, lettuce, rhubarb, etc. The floral department has not been neglected and a charming display of all the well known blooms were shown, including a specially choice lot of asters.

Mr. Knowles, who gained most of his gardening experience in England. is loud in his praise of Manitoba soil for vegetable raising, and is gratified with the result of his first attempt at extensive horticulture.

"I suppose your family had a good time in Europe."

"Well," answered Mr. Cumrox, "I don't think mother and the girls enjoved themselves all the time. You see, they had so much trouble figuring foreign money back into dollars that every now and then they were embarrassed by finding they had accidentally ordered something that wasn't expensive."

Women Avoid Operations When a woman suffering from female trouble is told that an oper-

ation is necessary, it, of course, frightens her. The very thought of the hospital, the operating table and the knife strikes terror to her heart. It is quite true that these troub-les may reach a stage where an ope-ration is the only resource, but a great many women have been cured by Lydia E. Pinkham's Vegetable

Compound after an operation has been decided upon as the only cure.

The strongest and most grateful statements possible to make come from women who by taking Lydia É. Pinkham's Vegetable Compound

made from native roots and herbs, have escaped serious operations, as evidenced by Miss Rose Moore's case, of 307 W. 26th St., N.Y. She writes:—
Dear Mrs. Pinkham:-"Lydia E. Pinkham's Vegetable Compound has cured me of the very worst form of female trouble and I wish to express to you my deepest gratitude. I suffered intensely for two years so that I was unable to attend to my duties and was a burden to my family. I doctored and doctored with only temporary relief and constantly objecting to an operation which I was advised to undergo. I decided to try Lydia E. Pinkham's Vegetable Compound; it cured me of the terrible trouble and I am now in better health than I have been for many years."
