the Studebaker Wagon stands for the qualities that make wagons desirable. Light-running and easy on the team, durable because the lumber is seasoned right before being finished. Made to stand up under heavy loads.

THE STUDEBAKER WAGON

is built from first-class material down to the minutest detail. The slow-growing, fine-grained, tough-fibered black birch from the rocky hills of New England is used in the hubs, select white oak is made into spokes and felloes and choice second growth, butt cut hickory is used for the axles. Every other part as carefully selected. The skeins, tough and hard, are forced into place on the axles under 100 tons pressure. Studebaker slope shoulder spokes are driven into the hub under the same tremendous pressure. Best and toughest iron and steel strongly reinforces every part where needed. The Studebaker is
