Old Coins Discovered. Workingmen in demolishing the old melter house of the first United States mint, on Seventh street, Philadelphia, have uncovered a number of relics of the early days of the republic. These relics consist of a number of foreign and domestic coins, dating as far back as 1793. Some of the interesting finds are a number of test coins that were experimented with by the officials in the olden times. These coins are similar to Chinese money, each containing a hole in the center that was filled with various kinds of metal to bring up the value of the

Hospital Story-Telling.

It is curious that philanthropists in search of a novel means of doing good do not engage reciters and storytellers to visit hospitals and amuse the patients. A rich man in New York engaged Marshall P. Wilder, the diminutive entertainer, who has given pleasure in nearly every city, to visit regularly certain hospitals in New York. Mr. Wilder was welcomed enthusiastically by the convalescent patients, and his merry stories did them

Pay for Prison Labor Law.

The Lee Brown and Duster company, which now has the contract with the state penitentiary for convict labor at 50 cents a day for each convict employed, probably will have trouble in getting its contract renewed. Some members of the board are opposed to the company getting its labor so cheaply and will oppose a renewal of the contract. In addition to getting the labor 50 cents a day, the npany is furnished power to run its machinery. The company probably would be unable to get the same labor for less than \$2 a day outside of the prison. Treasurer Brian is very much opposed to the price being paid for the convict labor. He said: "I shall certainly oppose renewal of a contract which calls for only 50 cents a day to be paid for the work of the convicts. While I have not figured the matter very closely. I believe this \$2,500 or \$3,000 the state gets from this company won't more than pay for the coal bill. It looks to me like the company should furnish its own power if the state is to receive only 50 cents for the labor. It looks to me like we ought to get rid of the broom factory anyhow. as it puts convicts in competition with other labor. I believe it would be a shoe factory or a tailor shop and let the convicts make the clothing and shoes to be furnished the inmates of the various state institutions. None of this clothing or shoes is made in the state, I believe, and there would be no competition. The goods made of course, would not be sold, but would be used only for the state's wards."

Liquor Dealer Roasted.

In affirming the decision of the dis trict court of Box . Butte county the supreme court has written a scathing araignment of the saloon business Winifred King secured a divorce from William King, the court dividing the property equally. This gave each each party to the suit about \$16,500. In the body of the opinion the court says: "King is the proprietor of several liquor saloons, some or all of them, it was said in the argument, having gambling room attachments. and it is alleged that he enjoys a net annual income of \$6,000, and so, it is attempted to be argued, has an earing capacity of that amount. Opinion Asked on Insurance Law.

The mutual insurance laws of the state have been passed up to Attorney General Thompson for an interpretation, Insurance Commissioner Pierce desiring to know just what the companies may do under the statutes. Some of the mutual companies have been writing policies providing a stipulated premium to be paid by the member. On the face of it, one section of the law seems to provide this, said Mr. Pierce, but, in his opinion, this is not what was intended by those who enacted the law. He believes the law means that every member of a mutual company should pay his proportionate share of a loss, and not be relieved by the payment of a stipulated sum each year. If the latter is done, he holds the mutual company should maintain a fund for the payment of losses. Otherwise, he holds, in case of a great calamity or a number of losses, some one is going to lose-the man who pays the stipulated premium by being stuck for his proportion of the loss in addition to the stipulated premium or the policy holder. Former Attorney General Prout held the mutual company nad a right to provide for the stipulated premium. Attorney General Thompson is expected to hand down an opinion within a few days.

Railroads Try to Tie Up Laws. Judge W. D. McHugh, representing some of the railroad companies that failed to obtain an injunction in the federal court in Nebraska to restrain the railway commission from publish ing new grain rates, notified Attorney General Thompson that the railroads will appeal to the circuit court at St. Louis in the hope of obtaining what money-making proposition to install a was denied them in Nebraska. It will be an appeal to the circuit court for an injunction restraining the railway commission from publishing new grain rates. What is considered very significant in this matter is that the railroads will also try to induce the circuit court at St. Louis to issue a tem porary restraining order pending the hearing of the appeal. The nomination was made when the subject of the vacancy in the seat of Joseph Barns was hotly debated in the meeting of the county central committee. Burns is now a resident of Colorado. He still laid claim to the senatorship, however, and the question of his right to hold it was discussed. The need of filling the vacancy, it was pointed out, was not very acute unless a special legislative session is called for this winter.

IN LIFE'S BRIEF SPAN.

Experiences, Joys and Sorrows of the Human Existence.

The loves and friendships of individuals partake of the frail character of human life, and are brief and uncertain. The experience of a human life may be shortly summed up: A little loving and a good deal of sorrowing; some bright hopes and many bitter disappointments; some gorgeous Thursdays when the skies are bright and the heavens blue, when Providence, bending over us in blessings, glads the heart almost to madness: many dismal Fridays, when the smoke of torment beclouds the mind and undying sorrows gnaw upon the heart; some high ambitions and many Waterloo defeats, until the heart becomes like a charnel house filled with dead affections, embalmed in holy but sorrowful memories; and then the chord is loosed, the golden bowl is broken, the individual life-a cloud, a vapor, passes away.-Matthew Hale

WHEN MILESTONES CHEER.

They Always Gladden the Heart of the Pedestrian.

In a walking trip a milestone along the way is the most companionable fellow in the world; your spirits rise as you near him as though you were about to greet a human friend, and they keep almost consistently on his high level till his brother a mile distant advances to meet you.

And when you overlook one of this friendly company because of an encroaching bank or screening boughs, says the Travel Magazine, his neighbor further on comes to you doubly welcome. At the latter end of this nassage in the journey your spirits flag a trifle as though oppressed by a sense of desertion. You may even scowl at the overhanging bank which is more than a party to this conceal-

Those worthy persons who attend to the roads should see to it that every milestone within their province stands out frankly from its leafy background. Observance of this, however, would rob the wayfarer of that leap of the heart which is his when the stone tells the story of two miles done rather than one. For however much the landscape and the minute world at his feet may claim the footfarer's admiration he is still keenly alive to the virtue of decent distances covered in his day's journey.

Laundry work at home would be much more satisfactory if the right Starch were used. In order to get the desired stiffness, it is usually necessary to use so much starch that the beauty and fineness of the fabric is hidden behind a paste of varying thickness, which not only destroys the appearance, but also affects the wearing quality of the goods. This trouble can be entirely overcome by using Defiance Starch, as it can be applied much more thinly because of its greater strength than other makes.

Wisdom of Solomon. In a dog case at Felixstowe, England, one witness testified that the dog whose loss was being sued for was worth \$125, while another swore it was worthless. So the judge awarded \$62.50 damages as a fair average.

That an article may be good as well as cheap, and give entire satisfaction, is proven by the extraordinary sale of Defiance Starch, each package containing one-third more Starch than can be had of any other brand for the same money.
