Coming to Loup City

World Famous Medical Specialists to Visit Three Days Here at the St. Elmo Hotel.

WILL CURE THE SICK FREE.

Word has been received here that F. Earl Gordon, one of the Hot Springs doctors who have their Nebraska State Institute permanently located at 14th and O streets, Lincoln, has decided to pay a three days' visit to Loup City, and while here will stop at the St. Elmo hotel, where he will receive patients.

This Hot Springs system of home treatment which Dr. Gordon is bringing to Loup City on April 6, 7 and 8 has a national reputation as is attested by the fact that the United States owns Hot Springs, Ark., and has established Army and Navy hospitals there where soldiers and sailors are sent after all other methods have failed to cure.

The daily papers throughout the country are continually publishing lengthy reports of the wonderful cures that have been made by these world famous doctors.

"Rufus E. Geiger of 210 South 10th street, Lincoln, tells an interesting story of how he was cured of epileptic fits by the Hot Springs Doctors and is now able to go back to work at his trade as a machinist without fear of falling among the heavy machinery and being killed, while having a fit, because he has no more fits.

The late republican state convention is reported by our returned delegates to have been so smoothly oiled and adjusted by the engineers in advance of the date of its holding that all they had to do was to ratify or stand helpless to prevent its easy capture by Victor, the son of his father, who did things Brown winning with the Field in his favor.

The writer is so constituted that he has little consideration or affection for a certain element of pap-suckers, hero-worshippers of camp-followers always to be found in every party.

Last week the Northwestern called public attention to the Loup City high school building, regarding its condition in event of fire. We are pleased to note at this time that a very thorough examination of the building by a committee composed of County Clerk Beushausen, H. E. Musser and A. L. Zimmerman, accompanied by a representative of the Northwestern, found said building to be in splendid shape and almost impossible of danger to life or limb in case of a conflagration.

J. W. BURLEIGH, Ed. and Pub.

April 7th next will be another royal battle between the "wets" and "drys."

Harry Orchard, the wholesale murderer, who by his own confession has been the worst human beast of the present century, has pleaded guilty to his enormous and almost unbelievable record of blood and asks the death sentence.

A lone robber, representing himself to be a postal inspector, is reported to have gained access to a mail car on the Great Northern in Idaho, last Sunday morning, did up a couple of mail sacks, rifled a number of mail sacks and escaped with the booty.

The late republican state convention is reported by our returned delegates to have been so smoothly oiled and adjusted by the engineers in advance of the date of its holding that all they had to do was to ratify or stand helpless to prevent its easy capture by Victor, the son of his father, who did things Brown winning with the Field in his favor.

The writer is so constituted that he has little consideration or affection for a certain element of pap-suckers, hero-worshippers of camp-followers always to be found in every party.

Last week the Northwestern called public attention to the Loup City high school building, regarding its condition in event of fire. We are pleased to note at this time that a very thorough examination of the building by a committee composed of County Clerk Beushausen, H. E. Musser and A. L. Zimmerman, accompanied by a representative of the Northwestern, found said building to be in splendid shape and almost impossible of danger to life or limb in case of a conflagration.

This wonderful Hot Springs System of home treatment is what Dr. Gordon is bringing to Loup City. He will be here only three days and while here he will receive patients at the St. Elmo hotel.

By the State Journal we see that calls have been received by Labor Commissioner Snyder from Hastings, St. Paul, Loup City and other towns in the state to inspect the school houses, opera houses and hotels of the respective locations in compliance with the law regarding safety from such horrors as have recently visited Cleveland, Chicago and other cities. It is very timely and imperative.

Along R. R. No. 1.
