WEALTH OF NATION

COMING CONFERENCE THAT WILL BE OF GREAT INTEREST.

HELD IN WASHINGTON IN MA

Rail and Water Transportation. Forests. Minerals and Land Laws to Be Under Expert Discussion.

Washington .- At 10 o'clock on the morning of May 13, in the historic East room of the White House, Presient Roosevelt will call to order the most distinguished gathering of men of this country ever assembled at one time. It will include the governors of all the states, the members of the cabinet, the justices of the United States supreme court, senators and representatives in congress, and as special guests, others among the most noted men in the

They will meet to consider what the president has declared to be the "fundamental problem" before the country-the conseravtion of the nation's natural resources.

The chief executive of practically every state has accepted the president's invitation. Each governer was asked to bring with him three of the most distinguished citizens of his state or territory and these names are being received in every mail. They include such men as Judge Gray and James J. Hill, as well as others equally prominent, in business enterprises of the most importance.

it is evident the conference will bring together not only the nation's distinguished men, but its foremost experts and specialists in the several lines of discussion. Among these, under the general head of watre resources, are rail and ,water transportation, navigation and water power; under land resources are soil forests, sanitation, reclamation, land laws, grazing and stock raising; under mineral resources will come ores. mineral fuels and related minerals.

the names of the men who While are to discuss these several topics not yet been announced, they are known to be recognized experts on the subjects, which have been assigned to them. For instance, it is generally understood that James J. Hill, the great reallroad builder, will discuss the relation between rail and water transportation. Mr. Hill is not an authority on this subject, but has shown his deep interest in the sub-

TWO WESTERN STATES GO OUT. Nebraska and Minnesota Bolt the Convention. For President of the United States-Thomas E. Watson of Georgia.

For Vice President of the United States-Samuel W. Williams of Indiana. St. Louis .- The above ticket was

minated Friday by the People's parconvention, after two stormy ses ons, throughout which the Nebraska and Minnesota delegations, working in the interest of William J. Pryan, strove desperately to bring about an adjournment of the convention until after nominations had been made by the democratic and republic.: parties. Hopelesely outnumbered and without any chance whatever of gaining their object, the Nebraska men fought desperately to the last. and when Jay W. Forrest of Albany N. Y., mounted the platform to place Watson in nomination they withdrew from the convention, attended by the Minnesota delegation, which consist cd, however, of only one man-T. J Weighan. If Bryan is nominated at Denver the men who walked out of of the convention will support him and they declare that the populists of Nebraska will do so to a man.

At the morning session the Nebras ka men made decided headway. They filibustered cleverly and with a knowl edge of parliamentary procedure that several times threw the 'convention into fearful snarls. They fought long and hard to have Temporary Chain man Jacob S. Coxey of Ohio made permanent chairman. They were a-cker of Jersey City was made pernanent chairman.

The tartest dialogue of the convention took place at the close of the morning session between Honnecker connected with the adoption of the platterm. The chairman declared that motion or a substitute to a motion. "it some peoste can't understand

Ohio, Western Pennsylvania, Missouri, Iowa, Kansas, Texas and Other States Affected.

Indianapolis, Ind .- The union miners in most of the coal fields of the country will lay down their picks and shovels Tuesday night. Almost 250,-600 of them will stop work in Ohio, Pennsylvania, Missouri, Western Iowa, Kansas, Oklahoma, Arkansas, Texas and probably in Indiana, Illinois, Michigan, West Virginia and Kentucky. Technically the miners will go out on strike, but in reality they stop work because the operators, except in Indiana and Illinois show no real intention of meeting and treating with them, though no question of wage or principle is at stake.

John Mitchell returned and is preparing to step out of office. Congressman W. E. Wilson is back from Central Pennsylvania where he scored the first big success in the tral Pennsylvania operators and mintral Penncylvania operators and miners into an agreement. The district will continue work.

Vice President Lewis, who will suc ceed President Mitchell Wednesday, will announce his appointments when he takes office. It is understood that Samuel Sexton, editor of the United Mine Worker's journal, is to be retired and that possibly Chris Evans, the official statistician, may be succeeded by a new appointee.
