BIG FIRE IN CHELSEA

LARGE SECTION OF THE CITY SWEPT BY FLAMES.

DAMAGE ABOUT TEN MILLIONS

Many of the Town's Best Structures Wiped Out, Leaving Thousands of People Homeless.

Boston .- An apparently insignificant fire which started among rags on a dump in the city of Chelsea Sunday was fanned by a northwest gale into a conflagration which obliterated about one-inird of the city. Over 500 dwelling houses were destroyed, and many hundreds of families were driven from their habitations and 10,000 people are homeless. Three lives are known to have been lost and at a late hour at night it was reported that two other persons had perished, one, a woman, having shot herself in a frenzy over her inability to save her property. From fifty to 100 were in

Accurate estimates of the loss is impossible. The city solicitor estimates t at nearly \$10,600,000. The fire raged before a forty-five-mile gale for more than twelve hours, defying the utmost efforts of the combined fire departments of Chelsea and several nearby cities and a large detachment of Bos-

ton firemen and apparatus. The fire area, which was in the form of an ellipse a mile and a half long and half a mile wide at its widest part, extended diagonally across the city from a point near the boundary between Everett and Chelsea to the water of Chelsea creek. It was useless for the firemen to attempt to check the on-rushing flames before the gale and their main efforts were to prevent a spread of the fire on either side. Their last stand was taken at Chelsea creek late in the afternoon, and for hours a doubtful battle was waged. At 9 o'clock word was passed that the firemen were winning and with renewed energy the contest was pressed. At 10:50 official announcement was made by Chief & A Spencer that the fire was under control. A great many of the buildings were of wood and were quickly destroved, but structures of other ma-

terial were almost as quickly and thoroughly incinerated. of the house to the front. The demo-All the banks, more than three-quarcrats were again charged with mak cept the appropriation bills and it is ness blocks and nearly all the school

Washington - Should President Roosevelt's present desires be realized he will spend the first year after his retirement from office in travel outside the United States. Mr. Roose velt's itinerary, however, has not been determined. His plan is to see some of the rugged and little frequented portions of foreign land, as well as to

A LAW TO REACH ANARCHISTS.

Special Message to Congress on the Subject.

Washington-In one of the shortest messages which he has yet transmitted to congress, President Roosevelt on Thursday called the attention of that body to the necessity for further legislation on the subject of anarchy. With the message he transmitted a report reviewing the legal phases of the question by Attorney General Bonaparte.

The message of the president is as

follows "To the Senate and House of Repre-

sentatives: "I herewith submit a letter from the Department of Justice which explains itself. Under this opinion I hold that existing statutes give to the president the power to prohibit the postmaster general from being used as an instrument in the commission of crime; that is, to prohibit the use of the mails for the advocacy of murder, arson and treason, and I shall act upon such construction. Unquestionably, however, there should be further legislation by congress in this

"When compared with the suppres sion of anarchy, every other question sinks into insignificance. The anarchist is the enemy of humanity, the enemy of all mankind, and his is a deeper degree of criminality than any other. No immigrant is allowed to come to our shores if he is an anarchist, and no paper published here or abroad should be permitted circulation in this country if it propagates anarchistic opinions

"THEODORE ROOSEVELT "The White House, April 9, 1908."

One Anarchist Paper. Besides his direction to the postmaster general to exclude from the mails such publications as La Questione Sociale, President Roosevelt in his letter to Attorney General Bonaparte, asking for an opinion on the legal phases of the subject, says he has had the particular case called to the attention of the governor of New Jersey by Secretary Root, that the governor may proceed under the state

The opinion of the attorney general, congress, embraces a discussion of the whole subject from many legal angles. His first conclusion is that the article in question, which advocates the use of arms and dynamite in annihilating police and soldiers that anarchy may prevail constitutes a "seditious libel" and is "undoubted-

ly a crime at common law." SENATE PASSES BILL.

Through Without Amendment. Washington.-The bill relating to the liability of common carriers by railroads passed by the house of representatives on April 6 was on Thursday passed by the senate without amendment and without devision. The senate bill on the subject was not confined to railroads, but covered all forms of common carriers, and Senator Dolliver, who had reported it from the committee on education and labor, sought to substitute it for the house bill, but his motion was defeated. Numerous amendments were offered to the bill, but all were voted down. As passed, the bill is expected to meet the objections of the United States supreme court to the common carrier liability law of 1896, decided to be unconstitutional by the

OCEAN TRAVEL UNAFFECTED.

Another Record-Breaking Year for Water Business in Prospect. New York .- Another record-breaking year for ocean travel is possible if present prospects continue. While steamship agents at the beginning of the year were dubious of the outlook. their attitude during the last few weeks has changed and they themselves were greatly surprised when

the statistics for the first three show but slight decrease.

Taft on Western Prosperity. Springfield, O .- Secretary of War Taft came back to Ohio Thursday. 'West of Chicago," he said. "they don't know anything directly about hard times. As far as the country as a whole is concerned I am hopeful of the speedy return of better conditions. The west has not felt the depression to any great extent. Building operations in the western cities seem to be as good as they ever were. In Omaha and other cities more building is being done than ever
