On account of the method that is being practiced by unscrupulous competition, we hereby challenge any Stock Food or Remedy Company in the County to make a test with us. Gentlemen, can you afford to be without this protection, when the Government reports show that the loss of hogs in this state alone amounts to more than a million dollars annually?

Do you want to help make up this loss? Certainly not. Then let us protect you.

The above statement ought to prove the value of our goods, when we can produce as much fat with 8 bushels of corn as you can with 10, we immediately become a benefactor to you, by increasing the earning power of the corn. Besides that we protect you against the terrible death loss.

We have an honest medicine of genuine merit, it cures when cure is possible. While you are growing hogs you have but one object in view that of making money, and when we stand ready to go into a 10 weeks test, backed up with a guarantee of Two Hundred Dollars, deposited in any bank, that our Remedy will do as claimed, it certainly proves that we have got value in our goods, and you cannot afford to be without them
