It is amusing to read the misleading article published in the "Times-Independent" last week, in an effort to justify the expenditure of \$600 for railroad transportation by Gov. Shallenberger. The facts are that out of the \$1500 appropriated for travelling expenses for Gov. Sheldon during his term of office there was \$600 unexpended, and for fear that this taxpayers' money would lapse back into the people's treasury, if not spent prior to August 1st, Gov. Shallenberger made a blanket purchase of railroad transportation for the full amount, which leaves him the whole amount of the \$1000 appropriated by the last legislature to draw from, thereby permitting his access to \$1,600 for travelling expenses as against \$900 actually used by Governor Sheldon. Watch the press of the "Reformers" tell about the legislative appropriations, and their silence about actual expenses. Bah! Be men and tell the people the truth.

Political Announcements

FOR COUNTY TREASURER I hereby announce myself as a candidate for the office of County Treasurer on the democratic ticket, subject to the action of the electors at the primaries. O. F. PETERSON.

FOR SHERIFF I hereby announce myself as a candidate for re-election to the office of Sheriff of Sherman county, Nebraska, subject to the will of the Republican voters at the coming primary elections. Respt., L. M. WILLIAMS.

To the voters of Sherman County, Nebraska

Soliciting your support and votes for the nomination to the office of County Treasurer and applying for endorsement by the People's Independent and the Democratic Party organizations, I here make known my candidacy for this nomination. To this announcement and the race for the office and its emoluments, I confess that I am not urged by "Many Friends" as is the custom, nor is there that loud and persistent call at large for my services—as it should regularly be—but the announcement proceeds, so far as I know, not from any weightier reasons than my desire to hold the office with your kind indulgence. Very truly yours, LOUIS REIN.

The Illinois primary law has been declared unconstitutional by the supreme court of that state.

A petition was circulated here last week in the interest of E. C. Calkins of Kearney for supreme judge and was generally signed by our business and professional men.

E. B. Gurney, a banker of Fremont, is said to have shied his castor in the ring for the republican nomination for governor of this state. He is the first so far named. We do not wish to be considered too verdant, but will somebody please tell us who he is and just what particular service he has done the party to entitle him to the honor?

A report is abroad to the effect that Governor Shallenberger is in favor of county option. It is to be hoped the report is true and that he can line his party up on the question with him. With both parties standing for county option, the state will vote out three-fourths of its saloons and enjoy more real prohibition than it would under a prohibition constitution, and the saloons will be forced out of politics.—Aurora Republican.

The partial eclipse of last Thursday evening came on as perschedule, and was witnessed by a large number of our people. According to the editor's Waterbury, the first noticed was at 6:18, the greatest part of the eclipse being at 7 o'clock, and the shadow passing off at precisely 7:40. The shadow appeared at the upper right hand corner of Old Sol, covered about a third of the sun's surface and disappeared from the upper center of the bright luminary. At its greatest, the shadow made the sun appear as if a good bite had been taken from its upper right hand corner.

Several of the Northwestern's readers have taken issue with us in our article of the eclipse of 1869. One insists the eclipse was in 1870, instead of the year we stated; another is sure the eclipse came on in the middle of the afternoon; still another that the totality occurred about 4 p. m., etc. The editor did not state positively the time, but to the best of his recollection the shadow was first noticeable at noon or within about an hour afterward. All however, agree the event was during harvest time, presumably in August, and all, with one exception, claim the year 1869 was correctly dated. What do you say?
