To whom it may concern:

Whereas, some people in this community have a wrong impression regarding the settlement made with me by the Connecticut Fire Insurance Company, represented by Mr. Williams at the First National Bank of this city, in the adjustment of my loss by fire of barn and granary, I take this opportunity to explain the facts, in justice to an honorable company. The loss has been adjusted in cash to my entire satisfaction, both on the buildings and the grain, being all the property covered by the agency of Mr. Williams and the lawyers who have been paid. MICHAEL CHILEWSKI. Loup City, Neb., August 17th, 1909.

THREE MILLION ACRES OF GOVERNMENT LAND to be opened for settlement about Oct. 1st in South Dakota. Uncle Sam's greatest land drawing. These lands to be opened under the United States homestead laws. For reliable information about these lands, send 25 cents (silver) for our interesting little booklet, "The Cheyenne and Standing Rock Reservations." Tells about the history, topography and soil, climate, rainfall, who may take homesteads, etc., compiled by state historian. Includes also up-to-date map of South Dakota showing lands to be opened. If you are interested in securing 160 acres of this rich land, wrap up a quarter and send for this booklet and map at once. Address, Homestead Information Bureau, Pierre, S. D.

According to the report of the health officers on the epidemic of spinal meningitis over the state, the disease is now considered under control and rapidly dying out. The centers in the state of this disease, Stromsburg, Minden, York, Culbertson, DeWitt, Arcadia and Comstock, are reported under good control. The death rate for July is reported at 18, while so far in August the death rate has been considered less. It is claimed if death ensues in such case it is invariably within the first three or four days. The disease was formerly considered fatal, but with the use of the serum and a better conception of the disease, the facilities are comparatively few. Later reports than above, however, claim the epidemic has broken out in Hamilton county and that last Sunday the churches were closed and every precaution is used to prevent its spread and to stamp it out in its incipency.

Big Horn Basin: This rich land is fast settling up with homesteaders taking up the cheapest Government irrigated tracts. The Big Horn Basin will soon be served by the Burlington's new main line through central Wyoming; products will have direct access to the best markets in the West. Land values are fast increasing. Get hold of a farm in the Basin before it is too late.

320-Acre Lands—This is the size farm you can homestead in east and northeast Wyoming, Colorado etc. Some of the finest lands in the West, with 18 inches of moisture annually, can be taken under the Mound Act. These 320 acre homestead tracts are a new thing in the distribution of Government lands, and deserve your attention.

I personally conduct excursions the first and third Tuesdays of each month to these lands, and am employed by the Burlington to answer all inquiries, and to assist you in every possible way to locate along the Burlington lines. Write me.
