FOR A NEW CAPITOL.

Gov. Shallenberger Declares for the Same.

Governor Shallenberger believes the next legislature should take steps to secure a new capitol for Nebraska. "The next legislature should make an appropriation to start the new building," said the governor.

"I am opposed to spending any \$650,000 for a building to house the State Historical society when the state so badly needs a capitol. That is why I vetoed the appropriation for the historical society building.

To my mind that historical society building is what Joe Cannon would call an ulcer on the body politic. The society wants \$25,000 this time, \$50,000 the next time and so on.

"The time has certainly arrived for a new state house. This building has outlived its usefulness, it is too small, in bad condition, unsanitary and not worthy of the state."

Never pour cream over cereal or fruit, but put it in a tiny pitcher. Individual pots for coffee, tea or chocolate are not expensive.

Most important of all when the tray is finally full, perhaps to overflowing, nothing need be spilled over the edges if the one who is carrying it will sway the tray slightly from side to side as she walks.
