DIFFERENT OPINIONS ON COOP-ER'S REMARKABLE SUCCESS HELD BY MEDICAL MEN OF NEBRASKA ME ROPOLIS.

Omaha, Neb., Feb. 16.-The aston-Ishing sale of Cooper's preparations in this city has now reached such immense figures that the medical fraternity at large have become forced into open discussion of the man and his

The physicians as a whole seem to be divided with regard to the young man's success in Omaha-some being willing to credit him for what he has accomplished, while others assert that the interest he has aroused is but a passing fad which cannot last. and which will die out as quickly as it has sprung up.

The opinion of these two factions is very well voiced in the statements made recently by two of a number of physicians who were interviewed on the subject.

Dr. J. E. Carass when questioned about the matter said: "I have not been a believer in proprietary preparations heretofore, nor can I say that I believe in them at present. But I must admit that some of the facts recently brought to my notice concerning this man Cooper have gone far towards removing the prejudice I had formed against him when the unheard-of demand for his preparations first sprang up in this city. Numbers of my patients whom I have treated for chronic liver, kidney and stomach troubles have met me after taking Cooper's remedy and have stated, positively that he has accomplished wonderful results for them. I notice particularly in cases of stomach trouble that the man has relieved several cases of years' standing that proved very obstinate to treatment.

"I am the last man on earth to stand in the way of anything that may prove for the public good simply through professional prejudice, and I am inclined to give Cooper and his preparations credit as deserving to some extent the popular demonstration that has been accorded them in this city." Another well known physician who

was seen took the opposite view of the "Cooper-mania," as he called it, which now has this city in its grip. He said: "I can only liken the present state of affairs to a certain kind of hallucination. For want of a better name, I might call it 'Cooper-mania.' The people of Omaha seem to be firm in the belief that this man Cooper has health corked up in a bottle.

"Some of them imagine that he has completely cured them of various ills, judging from their statements. It is beyond me to say why the city has gone crazy over the man. It may be safely put down, I think, to one of the passing fads that so often attack the American public.

"Sooner or later the people are bound to regain their senses and will then realize that the reputable physician is the one to whom their health had best be entrusted.

In the meantime Cooper meets several thousand people daily, and only smiles when statements of the above character are quoted to him.

More Free Homesteads

Secretary Ballinger has ordered 1,400.000 acres of choice land thrown open to settlers under the homestead laws, on and after March 1, 1910. This land is mostly level or rolling prairie and is covered with a heavy growth of wild grass. The soil is a brown clay loam. This land lies in Valley County,

Eastern Montana

It is known to be very fertile and wherever farming has been carried on, good yields of wheat, oats, rye, barley, flax, alfalfa, hay, potatoes and even corn have been obtained. The land is free under the homestead laws. No registration-no drawing. No long waits and disappointments as is the case with the lottery system. No expense-except the few dollars for filing fee.

The Great Northern Railway is now building a branch line through the very heart of the tract. Low one way and round trip rates during March and April. Send for map folder giving full details. Ask for "Rocky Boy" Indian Lands Circular.
