

# ENTRY OF TELEPOST TO OMAHA AWAKENS POPULAR INTEREST

NEW AUTOMATIC TELEGRAPH SYSTEM WHICH TRANSMITS 2,000 WORDS A MINUTE FOR ONE CENT A WORD IS MAKING DEEP INROADS ON BUSINESS OF ITS BIG RIVAL.

Nothing in a long time has awakened more popular interest throughout the Middle West than the extension to Omaha, Kansas City and Louisville of the telegraph system of automatic telegraphy. This system, which is revolutionizing the telegraph industry of the country with its 2,000 words a minute service and rates of from one-quarter of a cent to one cent a word, regardless of time or distance, is making deep inroads into the business of the older companies in St. Louis, St. Paul, Chicago, Springfield, Ill., Terre Haute, and Indianapolis in the west and in Boston and other cities of New England where it is now commercially operating in competition with the hand-operated system of the old companies.

Additional extensions of the system to Detroit, Toledo, Cleveland, Columbus, Pittsburgh and other cities in Michigan, Ohio and Pennsylvania, are near completion and it is expected will be ready to open shortly. Progress is being made in extending the system in still other directions, insuring the covering at an early date of more than half of the United States with telepost service.

## OUT OF THE QUESTION.

Fred, I hear George and his wife never quarrel now.

Maud—No, you see they're one now, and I take two to make a quarrel.

## Public Want Ads.

Wanted—Several nice old gentlemen to represent us financially. Nothing to do but utter wise remarks and endorse dividend checks. Good wages, from fifty to one hundred millions a year.

Wanted—A financier who will guarantee to keep us supplied with half-collars and half-dollars while we supply the other halves. No expert—none required. Good take-off.

Wanted—At once. A large number of stockholders to take charge of our food supply and keep us from eating too much. No regular hours. Pain death in winter. Advertisements in summer.

Wanted—A few select persons to represent us socially and do the things we haven't time for. No brains needed. All expenses paid. No worry.—Success.

## Secure the Egg.

A family having their city to a suburban locality and were told that they should get a watchdog to guard the premises at night. So they bought the largest dog that was for sale in the kennels of a neighboring dog fancier, who was a German. Shortly afterward the house was entered by burglars, who made a good haul, while the big dog slept. The man went to the dog fancier and told him about it. "Well, you've told him about it," said the dog fancier, "is a little dog to take up the big dog."—Everybody.

## Foiled.

He was very beautiful and she tried to make it easy for him. They were driving along the seashore and she became silent for a time. "What's the matter?" he asked. "No, I feel blue," she replied. "No, nobody loves me and my hands are cold."

"You should not say that," was his word of consolation. "For God loves you, and your mother loves you, and you can sit on your hands."—Success Magazine.

Carve the face within, not dress it from without. For whoever would be fairer, illumination must begin in the soul; the face catches the glow only from that side.—W. G. Garrison.

# WATER SUPPLY SYSTEM CONVENIENT TO FARMERS

## WATER SUPPLY SYSTEM CONVENIENT TO FARMERS

Makes Farm Life Attractive and Lessens Danger From Fire—Can Very Readily Be Used for Carrying Water to Dairy and Barns.

Can farmers have running water, hot or cold, in their dwelling houses? Most certainly. What will the cost be? Fifty dollars and up, depending upon the size of the house and the kind of equipment used. This makes possible the bath and toilet room, protection from fire, the easy washing of windows and walks, the sprinkling of lawns, the irrigating of gardens, and all the other conveniences which a few years ago were thought possible

plant so that it will work perfectly. All that is needed for operating is to keep the tank pressure up to the desired point. This may be 20, 40, 60 or 100 pounds. A few strokes of the pump, if the work is done by hand, is sufficient. If a lot of water is used, of course the amount of pumping will increase. By being economical in the use of water, that is to say, by wasting none, this matter of pumping is not at all a serious problem. The most satisfactory method of

Hand Pump and Pressure Tank.

only in cities, where big water systems were available, writes Clarence A. Shamel in Orange Judd Farmer. This is one of the things that makes farm life attractive. It lessens the work in the house, insures a fine lawn and garden, reduces danger from fire, adds greatly to comfort and convenience in every direction.

The way to secure this is to install a water supply system, with a pressure tank in the basement. This pressure tank is so arranged that by pumping it full under strong air pressure the water is forced all over the house, and is available for the bathroom, toilet room and the garden or fire hose. The water is distributed about the house exactly as it is in city homes, by means of galvanized iron pipes. Where a small building is to be supplied and the amount of water to be used is not large, the system can be installed for \$50. For the average house \$90 is a better figure. Where the house is large, and where considerable amounts of water are needed for the lawn and garden, and possibly also for washing carriages, automobiles and horses, a larger sys-

tem should be installed, costing up to \$150. The cost of the system, therefore, depends upon the wishes of the owner and the demands that will be made upon it. Its installation is easy, and its operation is exceedingly simple. Any pipe fitter or plumber can put in the

## IN CHARGE AT WEST POINT

Maj. Gen. Thomas H. Barry, U. S. A., who has become superintendent of the United States Military Academy at West Point, is what Supreme Court Justice O'Gorman recently termed "a typical product of New York city." He was born and reared in the old First ward, and there are now in New York men who will tell you that "Tom" Barry was the handsomest boy in the old ward, and that when he came back from West Point to flourish the younger boys were wont to point him out as their hero.

General Barry was one of the popular cadets during the four years he was at the academy. As an athlete he stood in the front rank, and he stood high as a student. In June, 1877, he received his diploma, and as a second lieutenant was assigned to the famous Seventh Cavalry, Custer's old command. After three years in the Seventh General Barry was transferred to the infantry arm and assigned to the First Infantry as a first lieutenant. Two years later he was promoted captain, and after that passing through every grade until in August, 1890, President Roosevelt made him a brigadier general. In April, 1908, the same president promoted him to his present rank, the highest under the present law that an army officer can attain.

General Barry as superintendent at West Point is the second officer of his rank to hold that post since West Point was founded. The other was Lieut. Gen. John M. Schofield, who was a major general when appointed superintendent in 1876.

No officer in the army has a finer record than General Barry. In the Spanish war he was an adjutant general, and after the close of that war he saw hard service in the Philippines. When the Cuban government failed to make good several years ago, with the result that the Americans had to reoccupy the island, General Barry was designated by President Roosevelt as commander-in-chief of the Army of Cuban Pacification, as it was known, and in that capacity he did his work so thoroughly that when the island was for a second time turned back to its own people to rule General Barry was accorded when he left an ovation such as few officers have ever received at home or abroad.

## FEDERAL CHIEF OF MINES

In the appointment of Dr. Joseph A. Holmes to be director of the new bureau of mines it is conceded in Washington that probably the best equipped man for the position in the United States has been gained for this important post.

Ever since congress passed the bill creating the bureau and giving it authority to investigate mine disasters, make experiments and suggest means whereby accidents may be decreased and the yearly casualty list shortened, efforts have been made by hundreds of interested persons to have Dr. Holmes selected as chief. The endorsement of all the coal operators' associations has been given, every prominent mining engineer in the country, including John Hays Hammond, has made his plea for Dr. Holmes, and the miners' union has added its efforts in his cause.

Three great delegations visited Washington early in the summer to urge the appointment, the managers of sixty collieries joined in the laudatory chorus, and sixty-two senators put their names to a petition in his behalf.

All this recognition was won by Dr. Holmes while serving as chief technologist of the technological branch of the geological survey. In this capacity he was carrying on in a minor way the work which he now will develop to the fullest extent.

While the operations of the technological bureau have not been widespread because of lack of funds and authority, still the men under Dr. Holmes were able to diminish mine disasters. They personally saved the lives of many imprisoned miners by going to their rescue in the face of dangers which would have meant death to less experienced men with poorer equipment.

The work of making mines safe has occupied the attention of Dr. Holmes for years, and he has made rapid advancement in the finding of effective means to the end which he has sought. He gained the confidence of labor and capital, and it is well known here that his subordinates are loyalty itself to the chief.

## WOMAN WHO COST A MILLION

The series of exquisite gowns worn by Mrs. William B. Leeds of New York, Newport and London, has been the feature of the season at the ultra-fashionable watering place of Deauville, France. She is reported as having had great social success and has given a succession of delightful entertainments. Mrs. William B. Leeds, it will be remembered, is the woman who cost her husband one million dollars, and who refused the importunities of royal and noble suitors who were after her fortune, estimated at thirty times that amount.

Her maiden name was Nannie Stewart. She was the daughter of a wealthy Cleveland banker and was said to be the handsomest girl in Ohio. She married George E. Worthington. They disagreed, and Leeds, also a married man, became infatuated with her. It is said that Leeds paid his wife one million dollars for a divorce. Mrs. Worthington also secured a legal separation from her husband, and three days later the wedding took place.

Leeds made his new bride the present of jewelry worth over a million, a steam yacht, and a two million dollar palace in New York city. While on a visit to Paris, Leeds bought his wife a \$200,000 pearl necklace. She wore this on several occasions, had them unstrung and they were exported in a bag to the United States and entered at the custom house as loose pearls.

Then began her battle with the treasury, which has become celebrated. Although the pearls were apparently imported by a Paris jeweler, the customs authorities considered the action a subterfuge and demanded the 60 per cent. custom duty on a necklace. Mrs. Leeds insisted that they were obtainable at 11 per cent. as indiscriminate pearls and won the day and incidentally some \$50,000 which otherwise would have gone to the government.

## TO HEAD THE GOULD FAMILY

One of the sons of the very rich who does not believe that his life should be given up to idleness and sports is Kingdon Gould, the eldest of the seven children of George Jay Gould. Kingdon is only twenty-three years old, but he knows a whole lot about his father's interests and, for that matter, about the interests of the entire Gould family. This is as it should be, for he is destined to take his father's place as the head of that multi-millionaire family. He is a well-educated man without evil habits and with a love for work. This week he left to join the rest of the Gould family in Europe. He would have gone with them last spring, but he felt that he wanted to familiarize himself with the Gould railroad system in the southwest. So instead of loitering about the various resorts of the old world he has been working early and late and has gone over every foot of the 9,000 miles of the system, meeting the managers, foremen and even the laborers and studying the conditions. There is hardly a mile of track in the whole system with which he is not familiar.

With the prospect for a continuation and increase in good times Mr. Gould says he is entirely satisfied. Conditions in the southwest are very promising. The only possible deterrent influence is a political one and he believes that will disappear after the fall elections.

Mr. Gould's friends had difficulty in recognizing him after his return to New York, for during his stay he had acquired a beard which makes him appear much more mature.

## Sham Warfare.

"Fall in line, there, for the march back to town."

"I can't do it, captain. I was wounded constructively, and besides I have actually torn my pants."

## Futile.

"Fly with me," pleaded the youth.

"What's the use?" answered the old man. "The bird's bipine would catch that old Mackinac of yours before we had got 1,000 feet high."

## A Possible Remedy.

"The ocean doesn't seem to doctor with you," consoled the ship's doctor, who had prescribed everything conceivable.

"Perhaps it would," moaned the other. "I haven't tried it yet."—Puck.

## Next If.

Closeleigh—I'll be appreciated after I'm dead, anyway.

Mock—Not if you live long.—The Widow.

## GIVEN UP TO DIE.

Doan's Kidney Pills Effect Marvelous Recovery.

Mrs. M. A. Jinkins, Quanah, Texas, says: "I was bloated almost twice natural size. I had the best physicians but they all failed to help me. For five weeks I was as helpless as a baby. My back throbbled as if it would break and the kidney secretions were in terrible condition. The doctors held out no hope and I was resigned to my fate. At this critical time, I began using Doan's Kidney Pills and soon felt relief. I continued and was cured."

Remember the name—Doan's. For sale by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

## Soldier Shut Her Up.

Col. Robert C. Carter at a Nashville banquet was talking about campaign comrades.

"Then there was Dash of Company A," he said. "Dash had the reputation of being the nastiest tongued man in the regiment."

"It was Private Dash, you know, who, one evening on a night, came accidentally upon the owner's wife, a grande dame in evening dress."

"Dash asked her for food. She refused him. He asked again. But, still refusing, she walked away."

"No," she said, "I'll give you nothing, trespassing like this; I'll give you nothing. My mind is made up."

"Made up, is it?" said Dash. "Like the rest of you, eh?"

## Taken at His Word.

"Since you are so busy today," said the urbane journalist, "will you kindly tell me when and where I can meet you for an interview?"

"Go to blazes!" exclaimed the irate politician.

"Thanks. I'll consider it an appointment."

## Uncle Allen.

"If you're getting old and don't know it," philosophized Uncle Allen Sparks, "you'll find it out when you go back to the town where you grew up and look around for the boys you used to play with when you were a kid."

## Nothing of the Sort.

"Have you any avuncular relations?"

"Nary one. Ain't no disease of any kind in our family."

Constipation causes many serious diseases. It is thoroughly cured by Doan's Kidney Pills. Use a laxative, there for cathartic.

A heart unspotted is not easily daunted.—Shakespeare.

Levis' Single Binder gives the smoker a rich, single-tasting 5c cigar.

By making use of the knowledge you have you will gain more.

## WANTS NO MODERNIZED BIBLE

King James Version the Best of All, Says Writer in Success Magazine.

We are just old-fashioned enough to take no stock in the modernized Bible which is shortly to appear, "coined in every-day language, with obsolete words and phrases eliminated." The King James Bible has done more to preserve the good old Saxon words and style, which are the best English literature has produced, than anything else. Instead of a movement to get us further away from that vigorous, simple, classic style, and in the interest of establishing the finest literary ideals possible to a people destined to use the curious hybrid which the English language has become, it would be more sensible to crown upon all efforts to improve on the King James Bible. It is the greatest treasure house, inspiration and teacher of good English that we possess.—Success Magazine.

When Rubbers Become Necessary. And your shoes pinch, shake into your shoes Allen's Foot-Ease, the antiseptic powder for the feet. Cures tired, aching feet and takes the sting out of Corns and Bunions. Always use it for Breaking in New shoes and for dancing parties. Sold everywhere. 5c. Sample mailed FREE. Address: Allen S. Olmsted, Le Roy, N. Y.

## It Would Seem So.

"Say, pa?"

"What is it?"

"Does Uncle Sam ever lose his collar button under the weather bureau?"

Mrs. Winslow's Soothing Syrup. For children teething, softens the gums, reduces inflammation, cures whooping cough, croup, and all other ailments of infants.

If you would keep your friends don't put them to a severe test.

## ASSIST YOUR WEAK STOMACH

Oftentimes the stomach needs some assistance in its great work of digestion and assimilation and an occasional dose of Hostetter's Stomach Bitters will give that assistance better than anything else you might take. Its merit has been proven thousands of times in cases of Poor Appetite, Headache, Indigestion, Dyspepsia, Costiveness and Malarial Disorders. Be persuaded to try a bottle today. Refuse substitutes.

REAL ESTATE—Two-story, modern stone building, 25 by 30, lot 10 by 100, at rooming house, W. J. Donnelly, Box 1614, Goldfield, Nev.

# Attention Sick Women

If you had positive proof that a certain remedy for female ills had made many remarkable cures, would you not feel like trying it?

If during the last thirty years we have not succeeded in convincing every fair-minded woman that Lydia E. Pinkham's Vegetable Compound has cured thousands and thousands of women of the ills peculiar to their sex, then we long for an opportunity to do so by direct correspondence. Meanwhile read the following letters which we guarantee to be genuine and truthful.

Hudson, Ohio.—"I suffered for a long time from a weakness, inflammation, dreadful pains each month and depression. I had been doctoring and receiving only temporary relief, when a friend advised me to take Lydia E. Pinkham's Vegetable Compound. I did so, and wrote to you for advice. I have faithfully followed your directions and now, after taking only five bottles of the Vegetable Compound, I have every reason to believe I am a well woman. I give you full permission to use my testimonial."

St. Regis Falls, N. Y.—"Two years ago I was so bad that I had to take to my bed every month, and it would last from two to three weeks. I wrote to you for advice and took Lydia E. Pinkham's Vegetable Compound in dry form. I am happy to say that I am cured, thanks to your medicine and good advice. You may use my letter for the good of others."—Mrs. J. H. Breyer, St. Regis Falls, N. Y.

There is absolutely no doubt about the ability of this grand old remedy, made from the roots and herbs of our fields, to cure female diseases. We possess volumes of proof of this fact, enough to convince the most skeptical.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health free of charge. Address Mrs. Pinkham, Lynn, Mass.

# MICA AXLE GREASE
