It was a great and enthusiastic crowd that greeted Hon. Chester H. Aldrich, republican candidate for governor, at the opera house Tuesday

third of the audience composed farmers and their wives coming in farmers and their wives coming in from distances ranging up to fifteen DELINQUENT TAXES miles. Mr. Aldrich paid his respects to the brewers and distillers, whom he aimed were sending paid hirelings oughout the state, spreading slanderous reports of a personal character against him, all of which he averred were a tissue of lies coined by mali-cious and evil minded character assassins of the whiskey trust. The defeat of county option he showed disfranchised 5 per cent of the vote of the state, while the 25 per cent confined to the villages and towns fastened the evils of the saloon system upon the entire people outside the towns and villages who paid 80 per cent of the tax imposed by reason of court expenses caused by their existence. He also paid his respects to Dahlman, not as a democratic candidate for governor, as the democratic party had no candidate or that exalted office, but as a man who was running for governor as a candidate of the brewers and distillers. He had the large audience Telephone Connection with him from start to finish, and won many a vote for himself and the cause of county option. The crowd which greeted him was by far the largest assembled to hear a political speaker within the past ten or more

> The Empire of the West

It took Lewis and Clark just one year and six months to go from the Missouri River to the Pacific Ocean.

Not quite fifty years ago the Union Pacific Railroad was launched and began its triumphant march of progress across the continent.

Today the Union Pacific makes possible this eighteen months' journey of courage and hardship in just three days, attended with every comfort and safety known to modern travel.

The Union Pacific has been the primal factor in laying the foundation of progress and prosperity in the States through which its tracks are laid.

The railroad has been, and is today, the basic business of our day and generation, on which all other enterprises and interests must rest and through which they are given movement, activity, energy and life.

In the matter of industrial development the interests of the public and the Union Pacific are identical.

If the Union Pacific is not prosperous, will the great and growing country it serves continue to prosper?

Think it over.
