J. W. BURLEIGH, Ed. and Pub

For Others
Lord, help me live from day to day.
In such a selfish and vain way.
That even when I kneel to pray,
My prayer shall be for others.
Help me in all the work I do.
To ever be sincere and true.
And know that all I do for You
Must needs be crucified and slain.
Let self be crucified and slain,
And buried deep, and all in vain.
My efforts be to rise again,
Unless to live for others.
And when my work on earth is done,
And my new work in heaven begun,
May I forget the crown I've won
While thinking still of others.
Others, Lord, yes others.
Let this my motto be:
Help me live for others.
That I may live like Thee.
—W. T. Lawhead.
St. Joseph, Mo.

The house last Friday killed two
bills having for their aim the abolishment
of capital punishment.

The Texas mania must be spreading
rapidly. Over 15,000 homeseekers
passed through the Kansas City
union depot in one day a short time
since bound for Texas, according to
reports.

Galt of Clay introduced a bill in
the legislature last Friday for state-
wide prohibition. It is understood
the bill is introduced not with the
expectation of its passage, but to put
the members on record for or against
prohibition.

Gov. Carroll of Iowa on Tuesday of
this week vetoed the Oregon idea of
selection of candidates, giving as one
reason that "it was an evasion of the
constitution of the United States;"
that it is "an attempt to indirectly
accomplish something that can not be
done directly."

The York Times truthfully states
that the man who starts a newspaper
to "beat somebody," or to assist one
faction to down another faction is
foredoomed to failure. Also: "A
newspaper must live on its merits as
a newspaper or its state of mortal
existence will be of few days and full
of trouble."

As is usual at every session of the
legislature, a number of the mem-
bers have come to the conclusion
they are about the right size for
gubernatorial honors. So far, only
those having democratic sympathies
are noted. Those on the republican
side not allowing themselves to en-
ertain any specific symptoms, owing
likely to the fact that there is at
present a republican governor, and
serving his first term.

J. A. Converse of Gibbon was here
last Friday looking after his real
estate interests. Asked about the
Bassett incident, he assured us Mr.
Bassett was a dead duck politically,
because he voted against capital re-
moval, and further that the people
of Gibbon did not want the capital
at Kearney, but would prefer to have
it located at Grand Island. Poor old
Kearney; being chestnuts from the
fire for Grand Island.

It looks as though the present
democratic legislature was trying to
find some loophole to escape passing
the initiative and referendum mea-
sure, or to take on enough
objectionable amendments to render
the measure inoperative in case of
passage. Even now "Daddy" Bryan
would have difficulty in recognizing
his much vaunted offspring. How-
ever, they know they will not dare
murder it outright, hence its passage
in some form is assured, even if
battered almost to death.

Court House Dope

The county dads met Tuesday
afternoon of this week for the con-
sideration of the court house propo-
sition in all its phases. They had
advertised for bids for the construction
of a "lean-to" or addition to the
old eye-sore sufficient to give room to
the several county officers who are at
present in rented rooms over the
city. At the meeting, Tuesday, the
court room was crowded with tax-
payers in opposition to building any
addition to the present shack and
many took occasion to present their
views, some in favor of voting bonds
for a new court house, others in favor
of a levy proposition, but not one to
do reverence to the "lean-to" idea.
After J. W. Long, E. S. Hayhurst,
C. W. Conhiser, A. E. Charlton, R. P.
Starr and others had voiced senti-
ments in regard to the matter, a
straw vote was taken on the bond
and levy propositions, bonds showing
17 friends, while the levy had 27
votes. After threshing the question
some little further the taxpayers
withdrew and the board after con-
sulting together unanimously agreed
to a recess till Friday, 24th, when
they will re-convene and thresh the
court house question out to some
decision. In the meantime the jolly
members of the board wish it fully
understood there is no lobby law or
necessity for registering as lobbyists
to appear and argue the question
before them individually or collec-
tively, for or against any proposition,
and in fact are anxious to find out as
much of the sentiment over the county
as possible before convention to-
morrow afternoon.

Testing Seed Corn

The majority of wide-awake corn
growers realize the advantage of test-
ing their seed before planting. The
"ear to row" method of improving
corn has emphasized the need of
selecting seed corn on the ear. Altho
the apparatus required for testing
the germination of ear corn need not
be expensive, still it is believed that
there are many who hesitate to un-
dertake this work through fear that
it will involve the expenditure of
much time and labor. To satisfy
this demand and to arouse a greater
interest in corn improvement, the
Nebraska Seed Laboratory has ar-
ranged to make single ear germina-
tion tests of seed corn for Nebraska
farmers. Not more than fifty such
tests, however, can be made for one
person. If you wish your seed tested
write us that effect and we will
send you fifty small envelopes in
which the samples can be sent to this
laboratory. Let us know at once if
you wish to make this test. Address
Nebraska Seed Laboratory, Lincoln.
