Apalling Excuse.

Henry Lewis Stimson, the new secretary of war, is a progressive Republican of the Roosevelt stripe and has been considered as Roosevelt's right hand man in politics. Stimson is forty-three. He comes of a Knickerbocker family and was born in New York September 21, 1867. At Yale he was a member of Psi Upsilon and Skull of Bones. After he graduated from Yale in '88 he went to Harvard and received his master's degree in '89 and his law school diploma in '90.

In 1893 he became a member of the law firm of which Elihu Root was a member, and in 1906 President Roose velt took him from a lucrative private practice to make him United States district attorney for the southern district of New York. During the three years that followed Stimson distinguished himself in the prosecutions of the sugar trust, Charles W. Morse and railroad rebaters.

Last fall Roocevelt nominated him for governor of New York and Stimson and the colonel stumped the state, going down to defeat in the Democratic landslide, ater a spectacular campaign.

In person, Stimson is tall, slender and impressive. He has dark hair and wears a small mustacle. His diction is precise and his delivery much like that of an attorney reading a brief in court.

When Mr. Dickinson, the retiring secretary, took the war portfolio, he gave up the position of general solicitor for the Illinois Central Railway system and a salary of \$35,000 a year to enter the cabinet. He was born in Columbus, Misz., in 1851 and studied at the University of Nashville, Columbia college, Leipzig university and in Paris. He was counsel for the Alaskan Boundary Commission in 1907 and 1908. From 1895 to 1897 he was assistant attorney general of the United States. For some years he has made Chicago his home and in politics is a Democrat.

Representative Henry Allen Cooper of Racine, Wis., is declared entitled THE DARWINIAN THEORY. to the distinction of being the first insurgent in congress. Mr. Cooper was an insurgent before the word "insurgent" came into use. He has been in congress 16 years, and he has been an insurgent 16 years.

Before the "stalwarts" in Wisconsin had Robert Marion La Follette to trouble them, Henry A. Cooper of the First Wisconsin district was inclined to muss up the program of the regulars. He was elected first to the Fifty-third congress. Once or twice an effort was made to defeat him for the nomination, and after that they tried to defeat him at the election. but he has been returned to each succeeding congress.

When Cooper went to congress for his first term he was placed upon the committee on Pacific railroads. The Pacific railroad funding bill was be-

fore the committee, and the young man from Racine proceeded to raise a row, which was an innovation for that committee on that particular hill. He was "sent for" a number of times, and some of the big lobbyists for the railroad labored with him to get him to "see the light," but Cooper refused to see it. He fought the claim of the railroad and spoiled the program. At the next session he was removed from the committee as a punishment for his impudence.

At the opening of the session of congress in 1907 the Democr

THE keynote of fashionable head wear for women is lace, as shown in the photograph above. The hat should be of dark straw so as to form an effective background for the delicate tracery of the lace, which may be Irish, Cluny or better still of Nacrame. In this instance, the hat is of dark blue straw, trimmed and rimmed with babe Irish lace. A pom-pom of fluffy white feathers completes the confection.

SHE KNEW ALL ABOUT SILAS Mrs. Hopkins Well Understood the SHE GOT Frugality of Her Esteemed Fellow Townsman.

Mrs. Wiggins had "run in" for a minute to talk over the latest news of the village with her friend, Mrs. Hopkins.

"Do you know," she said, "they tell me that old Mr. Magee didn't subscribe but 50 cents to the minister's salary. That doesn't seem possible, does it?"

"To anybody that knows Silas Magee real well, it does," replied Mrs. Hopkins. "You haven't lived in this town all your life, Mis' Wiggins, and you don't know what Silas is capable of. Why, I remember once when he was a young fellow, going to singing school with the rest of us, we got up a picnic.

"One of the girls spoke up and said she'd bring some chicken sandwiches. "'I'll bring some frosted cake,' says another.

"'I'll bring some sliced ham,' says another.

"'I'll fetch some jelly and cookies,' says somebody else, and so it went on till we had most evertyhing we could eat, promised. Then one of the boyswho had no sisters said he would bring the coffee. That gave Silas his

'I'll bring the water for the coffee!'

"No, Mis' Wiggins, I ain't surprised a mite at his subscribing only 50 cents. The only surprising thing is that it wasn't a quarter."-Youth's Companion.

THREE CURED OF ECZEMA

"When a child, I suffered eight years with eczema. I could not sleep at night, and had sores all over my We had doctors and none chest. could do any good, until my mother saw the advertisement of the Cuticura Remedies in the paper. We used the Cuticura Soap, Ointment and Resolvent, and they cured me of eczema. I also used them on my five children. Two of them had eczema very badly. When my children had eczema, I was not worried at all, as I knew the Cuticura Remedies would do their work. They had sores all over their heads, their hair would fall out, and they would scratch all night and day. They had it on their heads, face, and in back of the ears so that I thought their ears would drop off. I washed their heads and bodies with Cuticura Soap and they are as clean as the driven snow. Cuticura Soap and Ointment also cured my children of ringworm. I would not be without the Cuticura Remedies. They are wonderful." (Signed) Mrs. Violet Cole, 26 S. Redfield St., Philadelphia, Pa., Oct. 29, 1910.

Cuticura Soap and Ointment are sold throughout the world. Send to Potter Drug & Chem. Corp., sole props., Boston, for free book on skin and scalp diseases and their treatment.

> BUSINESS WOMEN A Lunch Fit for a King.

An active and successful young indy tells her food experience:

"Some years ago I suffered from nervous prostration, induced by continuous brain strain and improper food, added to a great grief.

"I was ordered to give up my work, as there was great danger of my mind failing me altogether. My stomach was in had condition (nervous dyspepsia, I think now) and when Grape-Nuts food was recommended to me. I had no faith in it. However, I tried It, and soon there was a marked improvement in my condition.

"I had been troubled with faint spells, and had used a stimulant to revive me. I found that by eating Grape-Nuts at such times I was re lieved and suffered no bad effects, which was a great gain. As to my other troubles-nervous prostration, dyspepsia, etc.-on the Grape-Nuts diet they soon disappeared.

"I wish especially to call the attention of office girls to the great benefit I derived from the use of Grape-Nuts as a noon luncheon. I was thoroughly tired of chean restaurants and ordinary lunches, and so made the experiment of taking a package of Grape-Nuts food with me, and then slipping out at noon and getting a nickel's worth of sweet cream to add to it.

"I found that this simple dish, fininhed off with an apple, peach, orange, or a bunch of grapes made a lunch fit for a king, and one that agreed with me perfectly.

"I throve so on my Grape-Nuts diet that I did not have to give up my work at all, and in the two years have had only four lost days charged up against 1000

"Let me add that your suggestions in the little book, 'Road to Wellville,' are, in my opinion, invaluable, espe-cially to women." Name given by Postum Co., Battle Creek, Mich.

NOW PULLMAN PRESIDENT IS

Robert Todd Lincoln, son of Abra ham Lincoln, presented his resigna tion as president of the Pullman Sleep ing Car company the other day, and John Sumner Runnells, vice-president and general counsel of the company was elected president. Mr. Lincoln, who is retiring from

active office on account of ill health has been president of the car company since George M. Pullman died in 1897. He is now 68 years old, and has been away from his office on ac count of poor health much of the time for several months. Mr. Runnells meanwhile has administered the office duties.

Mr. Runnells has been general coun sel of the \$120,000,000 Pullman com pany since 1887, and has been vice president since 1905. He was born it Effingham, N. H., July 30, 1844, grad uated from Amherst college in 1865 and after studying law at Dever, N H., removed to Iowa and became pri vate secretary to the governor of the state. From 1881 to 1885 he was

United States district attorney for Iowa. In 1879 and 1880 he was a member of the Republican national committee and in 1880 was a delegate to the Republican national convention.

Mr. Lincoln, retiring president, was born August 1, 1843, at Springfield III. During the Civil war he served as captain on the staff of General Grant and was admitted to the bar in 1867 at Chicago. From 1881 to 1885 he was secretary of war in the cabinets of Presidents Garfield and Arthur, and from 1889 to 1893 was United States minister to Great Britain.

During the life of George M. Pullman, founder of the car company, Mr Lincoln was his special counsel, and on Mr. Pullman's death he was made president.

CARNEGIE GETS GOLD MEDAL

What he called his greatest mark of honor was received the other day by Andrew Carnegie, when 21 American republics bestowed upon him a gold medal bearing on one side the words "Benefactor of Humanity," and on the other "The American Republics to Andrew Carnegie." It was the first time in history that such a tribute from so many nations had been paid to an individual, and the scene, which took place at Washington, was highly i:npressive.

Senor de Zamacona, the Mexican ambassador, made the presentation speech. Secretary of State Knox presided and President Taft spoke in eulogy of the gifts which Mr. Carnegie has made for the cause of peace on this hemisphere and throughout the world. Members of the diplomatic corps and men high in official life filled the hall of the Pan-American Union building, where the ceremonies

were held and for the erection of which Mr. Carnegie gave \$1,000,000.

In accepting the medal Mr. Carnegie told of his deep feelings on being informed last autumn of the honor conferred upon him by the Pan-American conference at Buenos Ayres, when 160,000,000 people, forming 21 sovereign nations, through their representatives voted to bestow upon him this signal honor. The great steel master was visibly moved by a powerful sense of this remarkable evidence of appreciation.

In offering thanks to the nations for the honor thus shown him, through their diplomats present, Mr. Carnegie asked them to accompany the expression which the ardent wish on his part that prompt action should be taken by remblies to establish a reign of peace by adopting President Taft's compartments for collars, handker- its appearance is either cut quite the 21 itting all disputes to arbitration.

scarfs still have wide fashion, the idea of front. The coat is cut so that the braid of turning the extra one into a blouse

corresponds, the right side of front is one you can snatch up and put angling for a compliment. to good use.

Scarfs, mufflers and kerchiefs of these silky crepe materials are easily cut up and made into neat and becoming blouses by the home needlework er who takes advantage of the innovation

Almost invariably the middle pos sesses a figure design, while the border is also composed of figures with a band of white or light color between these two figured portions. Make it a point to use these strips of material for the lower part of the blouse or the inside of the sleeves, and in thus utilizing the plain strip a bolero effect is secured.

One must choose for onesself according to the largeness of design whether to set in the figured parts I'd ever have gone away .- Puck. lengthwise or crosswise, the lengthwise effect being assumed generally only when the figure is very large. These with smaller figures can so

well be arranged in a series of crosswise bars that it would hardly be be coming in the lengthened effect.

These crepe scarf waists are draped under sheer veiling, to which they adapt themselves readily without any nerve jarring aspect that attend some of the innovations that are executed in such an off-hand manner.

For the Traveler.

The traveler who is fastidious about the boiling of her eggs should invest in one of the egg-shaped boilers of copper, small enough to pack in a trunk. It will cook four eggs.

This lamp is like a huge egg. has an alcohol lamp beneath and a tray with four compartments to hold the eggs erect in the water and make removal easy.
