Found Insane and Sent to Hastings

Complaint was entered on Monday of this week that one Walter Franzik a young Poleander, who has been around here for the past two years, working on the section and doing odd jobs, was insane and he was taken in charge of the sheriff that afternoon, and Tuesday morning being brought before the commissioners on insanity, was adjudged of unsound mind and committed to the asylum at Hastings, and was taken there yesterday morning by Sheriff Williams. Some months ago, and as we remember in July or August of last year, while working on the U. P. section, the young Poleander was on the section motor car which, owing to some defect in the machine, crashed into the rear end of the outgoing freight on that road, and with nearly all of the section men on the car was badly injured when the crash came. With the others he was brought to Dr. Longacre's office, his injuries attended to and being without a home and a fit subject for the hospital from the injuries received was taken to Grand Island that evening by the freight crew and placed under the care of the company in the hospital. Later he was discharged as cured and well and returned to Loup City where he has been working on the road and boarding with John Czaplowski. For some time he has been acting queerly and as late as Monday was up at the school house, no doubt thinking he was in church and went through devotional service, much to the alarm of the children and it was then decided his mentality was such that he should be cared for. He is about 23 years of age, can not speak English, nor can he read or write in his mother tongue and is withal a stranger and alien almost to his own people. His dementia seems to take the form of melancholia, and he is not in the least violent, but seems feeble in physical powers and just sick, as an eminent physician once told us of those under his charge at the Lincoln asylum. It is to be hoped the poor boy will be benefited by his stay at the hospital and be restored to vigor and full health by his stay there.

Contract for Moving Flouring Mill Let

E. G. Taylor has let the contract for moving his mill and flour house from its present location near the river to a new location on the railroad tracks up in this city. This will be quite an undertaking and possibly take near sixty days to complete the work. There are several different parties here bidding for the work, but we understand the contract goes to a Hastings company at considerable less than \$2,000. There was considerable difference in the amounts asked for doing the work.

New Planing Mill

The new planing mill being erected by Ed. Radcliffe, our popular carpenter and contractor near the Keystone yards, is now enclosed and fast nearing completion. The mill will be 24x48 and will make a good addition to Loup City interests. The machinery was purchased some time since is already here and it is expected will be installed and ready for business within the next two weeks.
