

BLAME PLACED ON PHYSICIANS

Growth of Drug Habit in United States Alleged to Be Due to Opiates Ordered in Prescriptions.

That 99 per cent. of all the cocaine and morphine manufactured in this country is used by persons who have formed the drug habit through physicians' prescriptions is the startling statement made by Dr. L. F. Kebler, Chief of the Division of Drugs, Department of Agriculture.

Dr. Kebler is quoted by Washington papers as having declared that drug using had increased 100 per cent. in the last 40 years, and that American medical men were not discriminating enough in their use of opiates.

"It is a very sad thing to say that our physicians are doing the greatest work in promoting the use of cocaine and morphine," said the doctor. "State laws are not saving the public from the grip of the drug habit, and the American public is sinking tighter and tighter into the black abyss of the morphine and cocaine fiend."

"The worst of it is that the importation of opium into the country is becoming larger and larger year by year. I have heard it said on reliable authority that 99 per cent. of the cocaine and morphine manufactured in this country is used by persons who have formed the habit through doctors' prescriptions."

Almost simultaneously with Dr. Kebler's address, Dr. J. A. Patterson, at Grand Rapids, Michigan, in a public statement said that 19 out of every 20 patients who come to an institution with which he is connected for treatment of the drug habit owe their downfall to physicians' prescriptions.

WOMAN LIKE.

Jinks—Does Mrs. Speedman carry an extensive repair kit when she goes out? Blings—No; merely a paper of safety-pins.

Not Missed.

"If a man gets an idea into his head that the community he lives in cannot get along without him, the surest cure is for him to take a month's visit somewhere," remarks E. B. Going of Osawatimie.

"When he comes home he will find that the cow has been milked regularly during his absence, that the corn has been husked and cribbed just as well as he could have done it, that the chickens and ducks and pigs didn't stop growing during his absence, that the regular winter literary society has been organized and is making progress without his august presence, that the roads have been dragged regularly and that some of his own neighbors didn't even know he had been away. These are just a few of the little things that make a fellow realize he is not so many potatoes to the hill as he thinks he is.—Kansas City Journal.

Wanted Slaves for Missouri.

On January 27, 1878, Don Bernardo de Galvez, governor of the Spanish province of Louisiana, which included Missouri, petitioned the king of Spain for aid for the settlers along the Missouri river and Mississippi river in Missouri. "The said inhabitants," he wrote, "in order to promote the culture of these plants (flax and hemp), would desire that the compassion of the king should delign to provide them with negro slaves on credit, for whom they may pay with the crops aforesaid."

STEADY HAND.

A Surgeon's Hand Should Be the Firmest of All.

"For fifteen years I have suffered from indigestion, indigestion and nervousness as a result of coffee drinking," said a surgeon the other day (Tea is equally injurious because it contains caffeine, the same drug found in coffee).

"The dyspepsia became so bad that I had to limit myself to one cup at breakfast. Even this caused me to lose my food soon after I ate it.

"All the attendant symptoms of indigestion, such as heart burn, palpitation, water brash, wakefulness or disturbed sleep, bad taste in the mouth, nervousness, etc., were present to such a degree as to incapacitate me for my practice as a surgeon.

"The result of leaving off coffee and drinking Postum was simply marvelous. The change was wrought forthwith, my hand steadied and my normal condition of health was restored." Name given upon request. Read the famous little book, "The Road to Wellville," in pkgs. "There's a reason."

Postum now comes in concentrated powder form, called Instant Postum. It is prepared by stirring a level teaspoonful in a cup of hot water, adding sugar to taste, and enough cream to bring the color to golden brown. Instant Postum is convenient; there's no waste; and the flavor is always uniform. Sold by grocers—50 c up tin 30 cts., 100-cup tin 50 cts. A 5-cup trial tin mailed for grocery's 2-cent stamp for postage. Postum Cereal Co., Ltd., Bell's Creek, Ark.

AS TO LEGISLATURE

NAME AND RESIDENCE OF THOSE CHOSEN TO MAKE LAWS.

SENATE IS 18 REP. AND 15 DEM.

In the Lower Branch There Are Fifty-four Democrats and Fifty-six Republicans Named.

- The Senate. (18 rep., 15 dem.) 1—Walter Kiechel (r.), Johnson. 2—H. H. Bartling (r.), Nebraska City. 3—E. E. Placock (d.), Wahoo. 4—C. E. Saunders (r.), Omaha. 5—N. P. Doug (r.), Omaha. 6—J. H. Crossman (d.), Omaha. 7—H. McFarland (r.), Omaha. 8—Fred Maerman (r.), Omaha. 9—Geo. P. Wolz (r.), Fremont. 10—H. E. Shumway (r.), Wakefield. 11—P. H. Koll (d.), Wayne. 12—J. M. STATE'S STATISTICS.

Standing of Nebraska Compared With Older Commonwealths.

Though tenth in population among the twelve states of the middle west, which include Illinois, Iowa, Kansas, Missouri, the Dakotas, Michigan, Ohio, Indiana, Wisconsin and Minnesota, Nebraska is third in number of cattle, fifth in number of swine, fourth in wheat production, fifth in corn production and sixth in oat production. These facts were made public by S. C. Bassett of Gibbon, in an address on Nebraska's rank, made before the Nebraska Farmers' congress in Omaha last week.

In comparison with the United States in total population, rural population and era, Mr. Bassett offered these figures:

Nebraska has 1.3% of total population, 1.7% of the rural population and 2.5% of the land area, yet Nebraska produces 7% of the corn, 7% of the wheat and 5% of the oats.

Nebraska produced five per cent of the entire corn crop of North America, South America, Europe, Africa and Australia. A very remarkable showing, asserted Mr. Bassett. That Omaha makes possible the marketing of these crops is urged in favor of the co-operation of the state and metropolis. On account of this gigantic production, Omaha is the second live stock market of the world, the fifth primary grain market and the fifth primary grain market for corn. And Omaha ranks first as a creamery butter producing center, more than 20,000,000 pounds annually being shipped from Omaha.

State School Funds.

Nebraska's temporary school fund apportioned for the last six months of 1912, amounting to \$328,104, will be distributed on the basis of slightly over 87 cents to each child of school age enrolled in the state. The aggregate number of pupils in the state is 375,476. Lancaster county has 21,222 school children and will get \$18,544 of the fund. Douglas, with 42,236 pupils, will receive \$36,907. Gage is the third county in school population, having 9,232 pupils, and will be entitled to \$8,067.

For Referendum Vote.

At the session of the executive committee of the teachers' association in Lincoln, it was decided to send ballots for the referendum vote to teachers qualified to vote, on January 15, to require that they be returned by February 3 and to canvass them in Lincoln on February 9. No ballots post-marked after February 3 will be counted.

Lincoln Firemen Elated.

Lincoln firemen are elated over the prospects of getting a double shift system for the department. For several years the men have been working to get the single shift system. The new arrangement is a feature of the charter to be submitted to the city council.

New Pierce Bank.

The Farmers and Merchants bank is a new institution filing with the secretary of the banking board. The bank is situated in Pierce and is incorporated with a capital stock of \$25,000. The officers are M. Inhelder, president; Charles Schram, vice president, and B. J. Inhelder, cashier.

New Statutes Ready.

The new statutes prepared by the codification committee and sent out in advance of the regular edition are being delivered, a copy being received at the office of the supreme court clerk. The volume contains 2,156 pages. The introduction shows that since 1866 2,470 laws of a general nature have been published in the different statutes. It will now be up to the legislature to accept in whole or part the work of the committee.

To Investigate School Children.

Because, as they complain in their letter, the heads of several children attending school at the present time resemble "moving picture shows" one district of the state has asked the state superintendent to send a health inspector there at once to make investigation of the matter.

Milford Soldiers' Home.

At the Milford soldiers' home, from which the biennial report has been received, there are 148 inmates. Twenty-eight died during the two-year period just ended. A total of \$66,900 is asked for the coming two years, or an increase of about \$10,000 over the cost of operation for the two years previous.

County Superintendents Meeting.

County superintendents of the state will hold their annual meeting in Lincoln January 7 and 8. Matters in connection with the work of these officials will be discussed at the gathering.

Finances of State.

Deposits in state banks decreased in 1912 more than \$3,000,000 from September 4 to November 26, reserves fell off about 6 per cent, and loans and discounts increased upwards of \$4,200,000 in the same period. Despite the fact, however, according to Secretary Royce of the state banking board, the record for the entire year shows the bank rolls of the state were shoved upward perceptibly. Deposits of the state aggregated \$82,527,894 on November 26, or about \$8,638,000 more than a year previous.

Officials on the Carpet.

Labor Commissioner Guye and Food Commissioner Hansen were culprits brought on the carpet by the board of secretaries of the state board of health at a meeting held in Lincoln. Both were asked why they had been publishing reports the past few weeks relative to occupational diseases. Furthermore, the doctors of this board were anxious to devise some means whereby both of the other state officials would have less to do with the sanitation of public buildings and private places.

Lajoie Going Back?

It is rumored that Larry Lajoie had his salary cut. Larry says he is worth as much now as ever. He was getting something under \$10,000.

Speaker Was Busy Fielder.

Tris Speaker was the busiest outfielder in the league. The Red Sox star fly chaser took care of 407 chances.

TWO FORMER WINDY CITY IDOLS

Joe Tinker and Fielder Jones.

During the recent annual meeting of the American league, held in Chicago, two players of national fame met by chance and held a "fanning bee." Tinker, who has signed as manager of the Cincinnati Reds, was for years the star shortstop of the champion Cubs, and Jones, who is now president of the Pacific Northwest league, was manager and center fielder of the White Sox.

REDS TO GET STAR PITCHER

American League Twirler Part of Price for Release of Chance—Has Three Good Ones.

Joe Tinker, who has signed his contract as manager of the Cincinnati club, expects to have one of the leading pitching staffs in the National league. He now has three high class men in Suggs, Benton and Fromme, and looks for a fourth from the American league.

The American league executive promised Garry Herrmann a star twirler if he completed the deal making Frank Chance a free agent. This was part of the trade.

Who the finger will be that Herrmann is to get from the American

Pitcher Fromme.

league is not known. President Johnson has not consented to turn him over immediately, but will do so before the baseball season begins. He is expected to be a prominent hurler in the younger organization. Herrmann is enthusiastic over the deal, and believes the new twirler will aid Tinker immensely in keeping the Reds at the top of the first division in the National league race.

"I felt confident all along that I would secure Tinker," said Herrmann, "and now that it is all over I believe I got the better of the deal. Three of the five players we have released to the Cubs we couldn't use. We never had Corridor, we wouldn't have retained Knisely and Humphries isn't fast enough for major league company. Mitchell has been a faithful, hard working player in the Reds' employ, but we had to let him go to swing the deal. Phelan, too, is a first-class infielder, but, like Mitchell, we were forced to give him up. I will have a star American league pitcher shortly as part of the deal, so I think we have fared very well."

Calvo Signs Contract.

Manager Griffith has received the signed contract of Jacinto Calvo. The young Cuban sent a letter to Griffith written in Spanish. "They did not tell off about 6 per cent, and loans and discounts increased upwards of \$4,200,000 in the same period. Despite the fact, however, according to Secretary Royce of the state banking board, the record for the entire year shows the bank rolls of the state were shoved upward perceptibly. Deposits of the state aggregated \$82,527,894 on November 26, or about \$8,638,000 more than a year previous."

New Minor League.

Another minor league is hatching. Western New York and Pennsylvania towns want baseball. Bradford, Meadville, Greenville, Kane, Warren and Oil City in Pennsylvania and Jamestown, Corning, Hornell and Olean, N. Y., are the towns most prominently mentioned as candidates for berths.

Lajoie Going Back?

It is rumored that Larry Lajoie had his salary cut. Larry says he is worth as much now as ever. He was getting something under \$10,000.

Speaker Was Busy Fielder.

Tris Speaker was the busiest outfielder in the league. The Red Sox star fly chaser took care of 407 chances.

SILVER BELT FOR RUNNERS

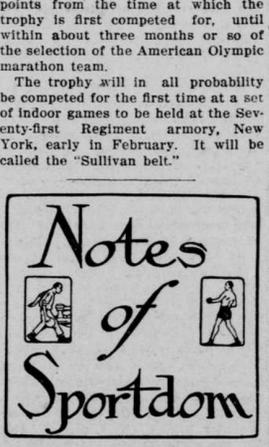

James E. Sullivan Hits Upon Happy Idea to Maintain Interest in Long-Distance Events.

Prior to the selection of each Olympic team, distance running jumps suddenly into prominence and then, immediately after the world's championship games are held, interest in this branch of athletic competition seems to die out. Of course distance races are held at a great many track and field meets, but in the majority of instances the fields of runners are more or less mediocre.

This means the selection committee does not have as many runners, of marked ability, from whom to select as it would like, and James E. Sullivan has hit upon a happy idea, which will undoubtedly tend to maintain interest in distance running throughout the winter as well as the summer season.

He has discussed the matter with William (Sparrow) Robertson on several occasions, and they have decided that the best way to accomplish this is to offer a silver belt as perpetual prize, to become the property of the runner who has scored the most points from the time at which the trophy is first competed for, until within about three months or so of the selection of the American Olympic marathon team.

The trophy will in all probability be competed for the first time at a set of indoor games to be held at the Seventy-first Regiment armory, New York, early in February. It will be called the "Sullivan belt."

Notes of Sportdom

Larry McLean may wind up with the Cardinals next summer.

Connie Mack will increase the price of seats at his park next season. Billy Papke is enjoying himself putting alleged fighters from France to bed.

Art Irwin, the Yankees' scout, has been appointed business manager of the club.

Garry Herrmann is some pinhole shark. He also considers himself some swapper.

Charlie Frank of the New Orleans club says he is satisfied with the Pelican pitching staff.

The Washington Americans will play an exhibition game with the Cincinnati Reds on March 30.

Hans Wagner says he has to play one more year, anyhow, just to win back that batting leadership.

Give Ty Cobb Tris Speaker's arm and you will have to look no farther to find the greatest of all time.

But Nelson admits his skypiece is a bit soiled, but modestly writes columns about it being in the ring.

Manager Mike Kelly is one of the greatest leaders who knows how to get publicity out of absolute silence.

Harry Gasper, the former Cincinnati pitcher, says he is done with baseball. That's what they all say.

"Old Cy" Young wants to pitch for Atlanta next season. If he does, it will be his twenty-third year on the slab.

Larry Cheney of the Cubs holds a pretty fair record. He pitched in 42 games. He started and finished 28 of them.

It is reported that the Louisville team of the American association will serve as a farm for the Pittsburgh Pirates.

"Rip" Hagerman, leading pitcher of the Lincoln club, has been sold to the Portland club of the Pacific Coast league.

Already several baseball managers are willing to concede their club is strong enough to finish in the second division.

But Nelson insists on remaining a human punching bag, in which class star fly chaser took care of 407 chances.

STUDENTS TO PLAY BASEBALL

Illinois Senate Would Permit Collegians to Receive Coin for Their Prowess on the Diamond.

The University of Illinois senate issued a report of its recommendations to the western intercollegiate conference on the question of amateurism, which recommendations are now being considered by the conference board. While the senate did not countenance playing in organized ball or as a regular thing, its stand is that occasional playing on organized teams for money is not wrong.

The University of Illinois recommends the amendment of rule 5 so that it shall read as follows: "A student shall be ineligible to represent his college or university in any intercollegiate athletic contest under the following conditions:

"(A)—If he is or has been a member of any team playing under the national agreement of professional baseball clubs or has engaged in contests with teams playing under this agreement.

"(B)—If he is or has been a member of any so-called outlaw team.

"(C)—If he has played on any team regularly for the period of his association with said team.

"(D)—If he has ever drawn a salary for nominal service in some alleged employment while his athletic work has been really his main service.

"(E)—If he is or has at any time during his college course been a member of any athletic team of any athletic club.

"(F)—If he is receiving or has at any time received compensation as a coach, trainer or instructor in physical training.

"(G)—If in term time he engages in athletic contests as a representative of any athletic organization not connected with the college."

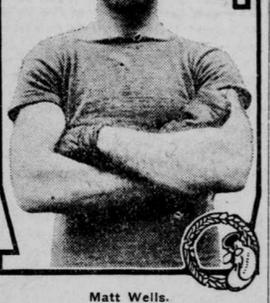

The University of Illinois also proposes that in place of an eligibility committee in each university, which passes on eligibility of students in that university, there be created a single committee from the various universities to rule finally upon questions of eligibility, and in doing so to enforce the true spirit of amateurism without regard to trivial infractions.

CAREER OF ENGLISH FIGHTER

Matt Wells, Former Lightweight Champion of Great Britain, Has Had Few Fights.

Matt Wells, the former lightweight champion of Great Britain, has probably fought fewer battles as a professional than any other fighter who ever held the premiership. From 1904 to 1907 he held the amateur lightweight championship of England.

He has discussed the matter with William (Sparrow) Robertson on several occasions, and they have decided that the best way to accomplish this is to offer a silver belt as perpetual prize, to become the property of the runner who has scored the most points from the time at which the trophy is first competed for, until within about three months or so of the selection of the American Olympic marathon team.

Matt Wells.

His first fight as a professional was with Croix, the French welterweight champion. After winning a number of other bouts of minor importance, Wells came to America early in 1910. He engaged in several bouts on this side with success, and upon his return to England he defeated Freddie Welsh, the British title holder, in twenty rounds. After winning the championship Wells paid a second visit to America and while here boxed no-decision bouts with Leach Cross, Pal Moore, Dick Hyland, Willie Moody, "Knockout" Brown, and Abe Attel. Several weeks ago in London Welsh regained the championship from Wells in a twenty-round contest.

Baumgardner Is Speedster.

The latest pitcher who has more speed than Walter Johnson is Baumgardner. Inasmuch as Johnson is always the standard of comparison for the speedy boys, the suspicion takes hold that after all Johnson has the greatest supply of smoke when it comes to actual facts.

Snodgrass and Merkle.

These fellows who are panning Merkle and Snodgrass for their fatal mistakes in the last game of the world's series are funny to me," says Christy Mathewson. "Next year the same fans will be shouting for Snodgrass and Merkle as loud as ever."

To Release Comedians.

Manager Griffith announces if he can pick up enough youngsters and have the limited allowance of players on his team by May 15 he will let out both Nick Atrock and Dutch Schaefer.

Harmon's Record.

Bob Harmon, the Cardinals' twirler, won twelve of the last sixteen games he pitched. The unofficial figures for the season quote him with winning eighteen and losing seventeen.

New Kansas City Plant.

Plans have been completed for reconstruction of the Kansas City American association plant. The seating capacity will be something near 15,000.

Hartsell to Live in Toledo.

"Topsy" Hartsell, manager of the Toledo team, has moved to that city, and says he will live there.

DIFFERENT MEAT.

Willie—We had the preacher for dinner yesterday. Tommy—We had roast beef.

Stole Ten Thousand Nickels.

After saving up nickels since 1883, Mrs. Emily Kuhn of New York lost the entire bagful, 10,000 in all, to a burglar. A collection of German coins was not touched. Besides the nickels a quantity of valuable jewelry was taken.

Important to Mothers

Examine carefully every bottle of CASTORIA, a safe and sure remedy for infants and children, and see that it bears the Signature of Dr. J. C. Fletchler. In Use For Over 30 Years. Children Cry for Fletcher's Castoria.

Always full quality value in LEVINS' Single Binder. That is why the smoker wants it. Adv.

Turn about is fair play—except when applied to a hand organ.

Mrs. Winslow's Soothing Syrup for Children teething, softens the gums, reduces inflammation, allays pain, cures wind colic, 25c a bottle.

"Health's best way—Eat Apples every day."—Coyne.

ALFALFA 25¢ Timothy and Clover mixed, \$4.50. Farms for sale and rent on crop payments. J. MULHALL, Sioux City, Ia. Adv.

The sting of defeat outlasts the sweets of victory.

"Turn Over a new leaf"

Start the new year right. Take care of the Stomach, Liver and Bowels and they will serve you well. Make the appetite keen, digestion perfect and Liver active by the daily use of

HOSTETTER'S STOMACH BITTERS. It promotes and maintains health, strength and vigor. Try it today.

Make the Liver Do its Duty

Nine times in ten when the liver is right the stomach and bowels are right. CARTER'S LITTLE LIVER PILLS. It promotes and maintains health, strength and vigor. Try it today.

PARCELS POST RATE FINDER

Indispensable Instantaneous. Tells at a glance the parcel post rate from your locality to any point in the United States. Adv. according to weight and zone. Three styles, each including a hand-drawn map of the United States, 2 1/2 inches, and an aluminum Rate Finder. Price: postage prepaid plain paper map, 50 cents; cloth map, 75 cents;
