CRIME COMMITTED Many a man who weighs his words uses crooked scales.

Officials Censured Are Former Gover nor, Attorney General and Land Commissioner.

WATER POWER COMMITTEE RE

PORT ADOPTED.

HOUSE AFTER

Lincoln.-By an almost unanimous vote, republicans and democrats alike, the house adopted the report of its special water power committee, censuring the last republican board of irrigation and recommending that steps be taken to cancel Platte river franchises granted by it.

"We find that the state authorities, without considering, in our judgment, the welfare of the state, granted franpetuity," says the report, drawn by McAllister. The granting of such a franchise in perpetuity we regard as a over the leg and applied the leverage "While I have won many matches the Western league. crime against the peopl of the state."

The officials so censured are former Governor Aldrich, Attorney General Martin and former Land Commissioner Cowles.

the Fremont-Kountze brothers franchise, a clause which made it subject to future legislation. It recommends: | the two grips are distinct. That the attorney general proceed

There have not been many men who have made a sucbeen left handers. But then, again, the Mink league for a trial.

Chase is one of them. He will shift with the players, and I think he can

touch base runners. "If Chance finds that he can play there is no doubt in my mind that he will have another good infielder and will not have to worry about his second base trouble. Chance could not go through the country and pick up a man who could play as well as Chase at second base, could be? If Chance finds that he cannot play, why Chase could do just as well in the outfield, but I look for him to be the regular second-sacker"

PLAYER GETS TEN CENTS: MADE A PRO

The latest development in the effort to purify amateur athletics is the "professionalization" of a St. Louis soccer player for accepting a fee of 10 cents. The crime is not denied by the player, who claims that it was carfare, and so classed as expenses.

The league committee declined to view it in this light, disqualified the player, and ordered the games in which he participated to be replayed.

School for Ball Players.

Manager Charles Carr of the Kansas City American association team, is still working on his idea of establishing a school for baseball players at San Antonio, Texas. Carr wants the National Commission to recognize his college, which, he believes, will do away with much of the unnecessary expense attached to the development of minor league players. He has fine, and Griff believes that the youngan option on a tract of ground suit- ster will make good. able for 15 or 20 diamonds and can secure a hotel lease, and next winter hopes to start his project. He intends

Many Leagues Finish Schedule-Making for 1913.

Pacific Coast Players Get Under Way, With Other Organizations Following Closely-April 10 is the Big Day.

Schedule making of the nearly two score of recognized professional base ball leagues in the country is complete for the 1913 season with only a few departures from the general program followed last year.

The first pennant race was started as usual by the Pacific Coast league, whose season opened April 1 and which is also the last to close-on Oct. 26. April 10 is the big opening day of the year, marking not only the commencement of the two major league seasons, but those of the American association, the Texas league and the Southern league.

The Western league, whose season covered the toe hold. That is on his side, the half-nelson may be opens April 18 and closes Oct. 5, has voted to retain the 168-game schedule, swer. Farmer Burns and I worked out the half-nelson and toe hold or the which makes three minor leagues now in Iowa. I think I used it first on half-nelson applied. The toe hold jor leagues-namely, the Pacific Coast league, the American association and

READY FOR BASEBALL CANADA WINS AGAIN

THE COLORADO SILVER TROPHY FOR OATS WON A SECOND TIME BY CANADA.

The most recent achievement of Canada's West is winning for the secand time the magnificent \$1,500 silver trophy awarded by the State of Colorado for the best peck of oats. At Columbus, Ohie, in 1911, J. C. Hill & Sons of Lloydminster, Saskatchewan, placed a peck of oats grown on their farm in competition, with oats from every part of the world. The judges and no difficulty in deciding, and the award was given to the Saskatchewan grown oats. In 1912, the Corn Exposition had no exhibition, and our Canadian friends, although ready for a second contest had no opportunity. In 1913, the exhibition of the Society was held at Columbus, S. C., and it is said of it that it was one of the best get held. At this exhibition, which comprised corn and all the smaller grains, Hill & Sons of Lloydminster had on exhibition for the contest another peck of oats grown on their Saskatchewan farm, in 1912. There was no trouble for the judges, no time aecessarily lost in reaching a decision, Hill & Sons won, and for the second time their name will appear on the crest of the cup. The third space will doubtless be occupied by their name, and then this splendid trophy will be theirs.

During the past few years Western Canada grains—wheat, oats, barley and flax-have been in competition with grains from all other countries, and in every case their superiority has been shown. It is not only in oats, but it is in wheat, in barley and in flax, that Canada more than holds its own, when placed side by side with grains from other parts.

Mixed farming is taking a strong nold not only in those parts of Manitoba. Saskatchewan and Alberta. which up to the present have been devoted solely to grain growing, but also n the districts contiguous, where the conditions of climate, shelter, water, grass and hay make farming of this kind, easy to prosecute and large in profits. It was in the Province of Manitoba that the steer was raised zember. This beast had been fattened on the grass and hay of the Province and the only finishing grain it had was barley; not an ounce of corn.

Western Canada presents innumer able opportunities for the big farmer who wants to cultivate his thousands of acres, the medium man satisfied with a few hundred acres, the man who is content to farm his free homestead of one hundred and sixty acres: it has opportunities for the investor. the capitalist, the business man, the manufacturer and the laborer.

Agents of the Canadian Government located at different points in the United States will be pleased on application, to give any desired information, free of cost.-Advertisement.
