ONE WEEK ONLY

Hours 10 A. M. to 8 P. M.--Remarkable Success of These Treated Physicians in the Treatment of Chronic Diseases

Offer Their Services Free of Charge

The United Doctors, licensed by the state of Nebraska for the treatment of deformities and all nervous and chronic diseases of men, women and children, offer to all who call on this trip, consultation, examination, advice free, making no charge whatever, except the actual cost of medicines. All that is asked in return for these valuable services is that every person treated will state the result obtained to their friends and thus prove to the sick and afflicted in every city and locality, that at last treatment have been discovered that are reasonably sure and certain in their effects.

These doctors are considered by many former patients, among America's leading stomach and nerve specialists and are experts in the treatment of chronic diseases, and so great and wonderful have been their results that in many cases it is hard indeed to find the dividing line between skill and miracle.

Diseases of the stomach, intestines, liver, blood, skin, nerves, heart, spleen, kidneys, or bladder, rheumatism, sciatica, diabetes, bed-wetting, leg ulcers, weak lungs and those afflicted with long-standing, deep-seated chronic diseases, that have baffled the skill of the family physician, should not fail to call.

According to their system, no more operations for appendicitis, gallstones, tumors, gutters, or certain forms of cancer. They were among the first in America to earn the name of the "Bloodless Surgeons," by doing away with knife, with blood and with all pain in the successful treatment of these dangerous diseases.

If you have kidney or bladder trouble bring a two-ounce bottle of your urine for chemical analysis and microscopic examination.

Death often has been cured in sixty days. Don't let it take you. No matter what your ailment may be, no matter what others may have told you, no matter what experience you may have had with other physicians, we will be to your advantage to see them at once. Have in your mind, if you are settled in your mind, if you are in any way suffering because of your sickness, as a doctor, this is the only way to get relief. Don't let it take you. No matter what your ailment may be, no matter what others may have told you, no matter what experience you may have had with other physicians, we will be to your advantage to see them at once.
