Government Unable to Meet Payrolls For Past Ten Days, Some Men Getting Nothing.

Mexico City.-The government has encountered some difficulties in meet ing the payrolls for the past ten days. In some of the departments only partial payments have been made, with the promise to the men that the remainder would be forthcoming. In other departments payment had to be deferred entirely. However, the gov ernment has now secured funds and has begun giving the men in all departments their money.

Rumors of the inability of the administration to meet its financial engagements spread over the city with another persistently circulated rumor that President Huerta purposed to levy a tax of 15 per cent on all bank deposits. The latter report spread to such an extent that many depositors withdrew their funds from various banks. Apparently there was basis for the report.

Many leading bankers said they knew nothing here of it other than the talk that was going on in the street. The withdrawals did not reach the proportions of runs on the banks. but bankers appeared apprehensive that this might be the result should the excitement continue. The manager of one of the leading banks expressed the opinion that President Huerta, who thus far has confined his financial efforts to legal bounds, would not attempt to adopt such a measure as levying a 15 per cent tax on deposits.

There is a distinctly high tension of expectancy here and on all sides the belief is freely expressed, both by Mexicans and foreigners, that the administration is facing a financial crisis. It is said that the banks and business houses have been reluctant to pay up for shares in the 8,000,000 peso loan to which they recently subscribed. Many persons are alleged to have subscribed to the loan under

Testifies Against Murphy.

New York.-John A. Hennessy, former Governor Sulzer's graft investigator, who has been campaigning against Tammany Hall, testified on the witness stand that William J. Hennessy was the first witness in the John Doe proceedings instituted by District Attorney Whitman to investigate charges made by Hennessy against Murphy, Edward E. McCall, the democratic candidate for mayor, and others.
