> come nutmegs. A London doctor was very skeptical. "It is evidently an old fetish revived," he said. It is absurd to imagine that by carrying a nutmeg you can ward off rheumatism. You might as well carry a stone and put your belief in that. Still, the nutmeg has certain properties as an antidote to rheumatism. Mixed with rum, its essential oils make a liniment that I have known used with success in what is called tropical sore throat-a form of tropical rheumatism."

The representative of a firm of spice merchants said that he had heard of the belief in the nutmeg "antidote." "As a matter of fact," he said, "a leading member of our firm carries a nutmeg about with him and swears by it as a 'warder-off' of rheumatism."

No New Englander needs to be reminded that the nutmeg as a rheumatism prophylactic has been venerated for centuries in the Eastern United States.

Many Convicts Seek Release.

Opinions in the applications of four teen convicts who are seeking release from the state prison have been written by E. G. Maggi of the parole and pardon board. In all of them the official has recommended that clemency be denied. Part of the men are second termers and are subject to parole, but Mr. Maggi believes all of them should remain in the pen longer. Others are third termers and these according to Mr. Maggi, should serve well on toward their maximum terms before they are let out. Seven of the fourteen applicants were sent up from Douglas county.
