

SUCCESS AS A FOOD

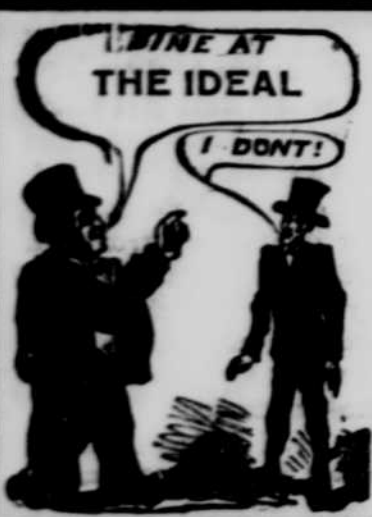

SUCCESS is a food. A food having tonic properties. A food upon which men grow strong and powerful. A succession of gains, no matter how small each individual one, gives men an added confidence in themselves—a confidence that enables them to accomplish still more. That is one of the vital principles behind our bank account plan for conserving your income and accumulating a competence. Come in and let us fully explain this plan to you.

DO YOU REALIZE

How Strong is the Demand for Cheap Land?

If you have come to know what it means to own a farm, I can put you in a position to secure one whose cost will be within your means.

THE MONDELL LANDS. You can file on a 320 acre Mondell tract in Wyoming or Montana and make it yours at a cost to you of only \$22. You can, also, buy 160 acres more adjoining for \$1.25 per acre; you can become the independent owner of 480 acres of good grazing and farm land for \$222. Our inquiries indicate an extensive settlement of these lands this coming season.

The North Platte Valley and Big Horn Basin

There are in these valleys Government irrigated homesteads, Caryl Act and Deeded lands. The Burlington's new central Wyoming main line traverses both localities, and will put them in close touch with Western markets.

For further particulars, write me.

It is barely possible that the big mail order and catalogue concerns of the country are not as financially healthy as we are wont to believe. Last week the big Siegel stores in New York City went smash, throwing 2,000 employes out of work, and worse than that, got away with all the savings of years deposited said employes in the Siegel bank. The fund was created by a weekly assessment of 2 per cent on the salaries of employes. The savings fund seems to have gone down in the general collapse, with suspicion of rascality by the Siegels.

Kelley's army which started out from San Francisco to go to Washington, made a gallant start, got as far as Sacramento, and then blinked out. There the leaders were arrested and the army driven across the Sacramento river into Yolo county and there herded. The number has dwindled from some 1600 to about 500 and will be prevented making a spectacular go-across-the-country, even if Col. (?) Bryan has to be sent for to duplicate his wonderful military achievements of the Spanish-American War.

There is a growing sentiment in this country in favor of the postal vote, that shall allow a citizen though away from home, to cast his vote on an election, and have it counted. We had that thought as far back as 1876, when in New York state we were denied the right to express our presidential preference because of citizenship in a distant state. We are glad the question is coming up and believe the right of citizens to vote should not be denied, though away from home at election time.

"Candidates for county superintendent, county, district and supreme judges, as well as candidates for regent of the state university will not appear on the primary ballot," according to the belief of Judge Button of Hastings, who holds that there is no reason for the names going on the primary ticket, as the new law contemplates taking these offices out of politics.

North Loup nearly made it unanimous last week Wednesday, when by a vote of 113 to 24 they voted to bond the village for \$20,000 for a water works and electric light system. It is the only village in the Loup valley to vote municipal bonds for both a water works and electric light system.

In spite of President Wilson's known antipathy to the literacy test in the immigration bill before congress, and the possibility that he may veto the bill with the test in it, friends of the measure refuse to drop the test part, not believing the president will veto the entire bill because of it.

The president last Thursday signed the bill authorizing the expenditure of \$35,000,000 for the construction of a government owned railroad in Alaska. This cannot fail to materially help in opening up the country to the north more rapidly.

Arthur Asher, the Pleasanton man who was hurt last week in the explosion of dynamite, was taken to Omaha a day or two later, where one eye was removed in order to possibly save the other, which was uninjured. Asher may pull through, but was not out of danger at last accounts.

If our hearing does not mislead us, that stirring little political wire worker, Peter C. Rowe, is being groomed for the democrat nomination for sheriff. If Pete goes after the pippin, it'll have to do some spectacular stunts keep out of his reach.

The United States Express Co., the pet of the late "Me-Too" Tom Platt, the New York boss, is winding up its affairs to go out of business, claiming parcel post helped to do it.

"WHAT NEXT."

Steve Polski and Joe Hruby, were here from Ashton last Saturday as advance agents and heralds of the drama our Ashton friends are going to put on at the opera house tomorrow (Friday) night. And say, by the way, from what we can hear the play is worth going many miles to see, and is said to be a hum dinger, as the boys would say. Joe says if you are not satisfied with the play, you can go to the door and get your money back, if you are able to get the necessary action. Let every body go and see our Ashton dramatic friends, show them we appreciate their coming and you will get your money's worth many times over, and then some.

OBJECTS TO COURT HOUSE

A man living, or rather staying, in the west side of the county, and whose taxes, real and personal, would not amount to \$10 per year, according to one who knows him well, is working overtime against the proposition for a new court house, on complaint that it will be a burdensome increase in his taxes. If the said individual will pay what he owes the Northwestern, we will be willing to pay whatever increase in taxes the new building will cost him.
