E. Pinkham's Vegetable Compound and of good. I will recine to my friends and give you permisn to publish my - Mrs. LAWRENCE MAR-TIN, 12 King St., Westbrook, Maine.

Manston, Wis. - "At the Change of Life I suffered with pains in my back and loins until I could not stand. I also had night-sweats so that the sheets would be wet. I tried other medicine but got no relief. After taking one bottle of Lydia E. Pinkham's Vegetable Compound I began to improve and I continued its use for six months. The ains left me, the night-sweats and hot flashes grew less, and in one year I was a different woman. I know I have to thank you for my continued good health ever since." - Mrs. M. J. BROWNELL, Manston, Wis.

The success of Lydis E. Pinkham's Vegetable Compound, made from roots and herbs, is unparalleled in such cases.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman, and held in strict confidence. ciphers."

MADE HIS COMPANIONS GASP

One Man of Bibulous Trio Was Determined to Prove He Had Not Lost His Appetite.

Three men entered the dining-room of the hotel, and with difficulty sank weakly into the chairs at a table. Whenever there was a noise behind them, they flinched and trembled. They were nervous. One of them tried to drum on the table with a knife, and a spasmodic motion of his muscles sent it sailing through the air. To the most casual observer, it must have been evident that they had been drinking too much the night before. Also, it was evident that they were uncertain about whether they could eat any breakfast.

That is, two of them were uncertain. They were so uncertain that they gazed at the menu in despair, and entured no remarks to the waiter standing behind them.

Finally the third man, a fellow of great build, gave an order which aroused the undying admiration of the

ARBOR DAY TRANSPLANTING LESSON

Diagram Showing Proper and Improper Ways to Prepare Hole for Planting.

By WILLIAM R. LAZENBY. Professor of Forestry, Ohio State University.

Transplanting is a necessary practice in connection with modern methods of cultivation as applied to many Lizzie-Hump! I can cook on an plants. It may be divided into three divisions or steps: lifting the plant, transferring it from its old to its new Ten smiles for a nickel. Always buy Red Cross Ball Blue; have beautiful clear white clothes. Adv. location, and replacing it in the soil. The first and second steps belong primarily to the nurseryman and plantgrower, while the latter belongs to the man who grows the plants for orna-

ment or profit. While the immediate result of transplanting is always to check growth, the ultimate results of proper and careful transplanting are usually beneficial. It makes possible better care of the plants while young: a more compact and better branched root system is de-

veloped. In spite of these advantages, thousands upon thousands of trees and plants die annually as a result of improper transplanting, and still other thousands are weakened and stunted beyond all hope of satisfactory recovery. The losses are the more deplorable because they can, in a great measure, be prevented.

Digging the holes for the plants is an important part of transplanting. Whatever the method of preparing the soil, the holes should be dug large enough to receive the roots of the plants in their natural position, and from two to three inches deeper than they were found in the nursery. The poorer and harder the soil, the larger and deeper the holes should be. On Try it. land level enough to permit the use of the plow, this will be found the more rapid and better way of digging one le at a time. The earth should be filled in and compacted about the roots ence about the home. to a distance of two feet on either side

should be lifted and shaken slightly. self.—William H. Taft.

This will have a tendency to direct the roots downward and fill in thoroughly under the crown. The dirt should be compacted into the hole until it is two-thirds full; the remainder of the soil should be left loose, so that it will act as a mulch to hold the moisture around the roots.

Watering will not usually be neces sary, but in case it is, the soil should be compacted into the hole until it is two-thirds or three-fourths full, then watered copiously. One or two buckets of water to each plant should be used. and after the water has entirely disappeared the hole should be filled with loose soil. Watering during the summer months should be done at considerable intervals and then done thoroughly until the soil is completely

National Flowers. National flowers are as follows. France, lily; England, rose; Ireland. shamrock; Scotland, thistle; Germany, cornflower; Canada, sugar maple; United States, goldenrod and others, Egypt, lotus; Spain, pomegranate; violet: Saxony, mignonette.

Needs an Expert. Don't think because a man is expert at cutting wood, that he is therefore qualified to perform the surgical operation of pruning a tree.

Try Raising Trees. What about the waste ground-will it not raise trees? Will it not raise them at a profit and pleasure, too?

SALE DISTEMPER

You know what you sell or buy through the sales has about one chance in fifty to escape SALE STABLE DISTEMPER. "SPOHN'S" is your true protection, your only safeguard, for as sure as you treat all your horses with it, you will soon be rid of the disease. It acts as a sure preventive no matter how they are "exposed." 50 cents and \$1 a bottle; \$5 and \$10 dozen bottles, at all good druggists, horse goods houses, or delivered by the manufacturers.

AND IT WAS SO ORDERED

Lady's Suggestion Met All the Requirements of Man's Complaint, as He Had Worded It.

A very large lady with a very large hat was sitting in the theater directly in front of a mild-mannered gentleman, who, for the greater part of one act, was unable to get a glimpse of the stage. At last, unable to endure his enforced blindness any longer, he bent forward and whispered:

"Excuse me, madam, but would you mind removing your hat?" "Why should I remove my hat?"

retorted the lady. "Because," protested the man,

can't see the stage, and I want to laugh with the rest of the audience." "Well," replied the lady, turning away again, "you watch my shoulders and when I laugh you laugh."

Then He Went.

The young man who never knew when to go home was silent. So was the young woman. "You should say, 'A penny for your

thoughts," suggested the delayer. The young woman hid a yawn. "I should say a mouseng," she cor-

RASH ITCHED AND BURNED

400 South Hermitage Ave., Chicago, Ill.—"I was attacked with a breaking out on the inside of my arms. It was a small rash or pimples and it itched and burned, especially at night, so that before I knew it I had made myself sore. I had to wear the finest kind of cotton underwear, no woolen at all, because the least thing irritated it and made it much worse. The rash itched and smarted until at times I got no sleep at all.

"I had this trouble and took treatments for about one year, but they them. Then I began using Cuticura Soap and Ointment and I got relief right away. In three months I was a well man again." (Signed) H. W. Foley, Nov. 5, 1912. Cuticura Soar and Ointment sold

throughout the world. Sample of each free, with 32-p. Skin Book, Address postcard "Cuticura, Dept. L. Boston."-Adv.

Marriage at First Ask. "Was Miss O'dmaid's wedding a case of love at first sight?" "No. first ask."

Better a fool who knows nothing than one who knows too much.

TAL FORCE

Disease germs are on every hand. They are in the very air we breathe. A system 'run down' is a prey for them. One must have vital force to withstand them. Vital force depends on digestion—on whether or not food nourishes—on the quality of blood coursing through the body.

DR. PIERCE'S Golden Medical Discovery

thens the weak stomach. Gives good digestion. Enlivens the sh liver. Feeds the starved nerves. Again full health and strength a A general upbuilding enables the heart to pump like an engine ag in oil. The vital force is once more established to full power. The vital force is once more established to full power. Year in and year out for over forty years this great health-restoring emedy has been spreading throughout the entire world—because of its billity to make the sick well and the weak strong. Don't despair of being your old self again." Give this vegetable remedy a trial—Today—Now. You will soon feel "like new again." Sold in liquid or tablet form by bruggistsortrial box for 50eby mail.
