Fees of the pure food commission during the month of March amounted to \$4,943. Inspections made numbered 1,634. Of this number, 419 were grocery and general merchandise stores, 189 were hotels and cafes, and 170 were meat markets and slaughterhouses. In the process 216 sanitary orders were written and only seventeen complaints were filed. Commissioner Harman has announced that particular attention would be given during the coming warm months to the enforcement of the sanitary food law. This means that the campaign against dirt in food, keeping food in unsanitary places and other violations of the statutes will be looked into closely.

More Land for Rifle Range.

He Had Always Supposed That He Had Blood Polsoning In His Feet.

Astoria, Ore.-Risto Katalisto, a Finnish farmer residing near Winlock, Wash., on coming here for medical treatment for what he supposed was blood-poisoning in his feet, was startled to learn from the examining physician, Dr. Hartman, that he was afflicted with leprosy.

According to the local physician, the case is of long standing, the disease being manifested on all parts of the patient's body. The man himself admitted that he had been suffering for five years with the disease, but did not know its nature, and had never consulted a physician.

Dr. Hartman enlightened the man as to the nature of his ailment, and told him he could offer no aid, and Katajisto left for his home at Winlock on the evening train.

Dr. Hartman at once notified the Washington state board of health as to his discovery. Katajisto is fiftyseven years old, and has a wife and a number of children. He lives on a small farm in the vicinity of Winlock.

Tact is the leaven that prevents flattery from falling flat.

UPWARD START After Changing from Coffee to Postum.

Many a talented person is kept back because of the interference of coffee with the nourishment of the body. This is especially so with those whose nerves are very sensitive, as is often the case with talented persons.

There is a simple, easy way to get rid of coffee troubles and a Tenn. lady's experience along these lines is worth considering. She says: "Almost from the beginning of the use of coffee it hurt my stomach. By the time I was fifteen I was almost a nervous wreck, nerves all unstrung, no strength to endure the most trivial

thing, either work or fun. "There was scarcely anything I could eat that would agree with me. The little I dld eat seemed to give me more trouble than it was worth. was literally starving; was so weak l

could not sit up long at a time. "It was then a friend brought me a hot cup of Postum. I drank part of it and after an hour I felt as though I had had something to eat — felt strengthened. That was about five years ago, and after continuing Postum in place of coffee and gradually getting stronger, today I can eat and digest anything I want, walk as much as I want. My nerves are steady.

"I believe the first thing that did me any good and gave me an upward start, was Postum, and I use it alto-gether now instead of coffee." Name given by the Postum Co., Battle Creek, Mich.

Postum now comes in two forms: Regular Postum — must be well boiled. 15c and 25c packages. Instant Postum—is a soluble pow-der. A teaspoonful dissolves quickly in a cup of hot water and, with cream

and sugar, makes a delicious beverage instantly. 30c and 50c tins. The cost per cup of both kinds is "There's a Reason" for Postum.
