

### PLANS CAREER EARLY REASON FOR SUDDEN FALL OF WHITE SOX

**CHARLIE HERZOG IS YOUNGEST MANAGER IN BASEBALL.**

**Decided When Youngster to Become Baseball Player, and Everything He Did Was Pointed to That End.**

Charles ("Buck") Herzog of Cincinnati is a success in baseball—a big league manager at the age of twenty-eight, because, when a kid, he decided upon a plan and went through with it.

He decided early in life to be a ball player, and everything he did was pointed toward that end. As a result he is the youngest manager in the majors, is rated as a star infielder, and one of the best base runners, owns a 170-acre farm, and is so fixed, even at twenty-eight, that he could retire from the diamond and live comfortably.

Herzog had a motto when a kid. It was this: "Play every day." He followed his motto. When he couldn't play with boys of his own age he hunted up younger chaps.

He'd play with any lad who would toss a ball. One day he played with older boys who had an organized team and uniforms, and the next day he might be playing toss in an alley or hitting fires on a corner lot.

He didn't care with whom or where he played, as long as he had a baseball in his hand every day.

At the age of sixteen Herzog was captain of the fastest semi-pro team in Baltimore, his home town. At eighteen he was manager of the Ridgely (Md.) team in a little league. At twenty he started his career as a professional with the Reading (Pa.) club of the Tri-State league. At twenty-one he was tried in the majors and made good.

Herzog is a success because he has hustled. He goes into everything with heart and soul. He al-

Ray Schalk, White Sox Catcher.

Chicago critics, in trying to discover a reason for the sudden fall of the White Sox from first place to the second division, blame the injury to Ray Schalk. This youngster is a wonderful catcher, and all the twirlers work better with him behind the bat than any of the other catchers Callahan can boast of. It is claimed. But that is hardly the cause of the slump, for Callahan's pitchers have been doing good work; but the team has played poorly, and neither hits nor fields up to a high standard.

Manager Charlie Herzog.

ways gives his best no matter how trivial a proposition may be. He works at top speed all the time.

"My tip to the youngster who wants to make good in baseball or anything else is to hustle all the time," says Herzog.

"A boy, according to my idea, should pick out some line of work, and give the work all his attention. The lad who picks out one thing and sticks to it generally is a bigger success than the chap who hops around from one thing to another.

The big thing, though, is to hustle. Always be doing something and make that something count."

### OVER-INDULGENCE IN WATER

**To Flood the Stomach With Water is Unnecessary, and Therefore, Injurious to System.**

Ball players drink too much water, says Milwaukee Sentinel. They sometimes drink too much other stuff, but we'll waive that and stick to the main proposition.

Water is fattening, and it is heart wearing. Possibly some physicians may take issue with the former statement, but there are some of us who have actually demonstrated the fact and that beats a barrel of theory. That excessive water drinking is wearing on the heart is also supportable by practice.

The fact of the matter is, thirst is not a stomach manifestation. To flood the stomach with water is unnecessary and, therefore, foolish. Athletes who rinse their mouths and throats with water when thirsty, but who do not swallow the water, have much more efficiency than those who frequently drink water. Seven ordinary glasses of liquid—water, tea, coffee, beer or whatever one drinks in 24 hours, is ample for all health purposes and the balance is worse than useless.

### Cub Payroll is Largest.

The story is going the rounds that the Cub payroll is the largest in the big leagues this year. Close to \$100,000 is being paid out to men that are now only able to hold down sixth place in the race.

### Feds Are Disgruntled.

Sammy Callahan talked about the Federal league while in Washington. "One reason I can't see the Feds," he said, "is that they have on the eight clubs all the disgruntled players of both the American and National leagues."

### Clarke Wants Pius Schwert.

Manager Clarke of Pittsburgh is said to have lines out for Pius Schwert, the hard-hitting catcher and captain of Pennsylvania university baseball team.

## STORIES OF THE DIAMOND

Pitcher Luhrsens, turned adrift by Omaha, was taken up by Sioux City.

The veteran Ralph Glaze, released by Topeka, joined the St. Joseph club.

Carl Ray pitched a no-hit, no-run game for Winston in the North Carolina league on May 14.

The Peoria Three-I club has been trying out a new third baseman whose last name is given as Lizzy.

When Hans Warner is in the hospital the Pittsburgh team looks like a navy without battleships.

The United States senate adjourned the other day because 60 per cent of that august body was at the ball game.

Larry Laloue picks Washington to beat the Athletics this year. The king has little faith in Connie Mack's pitching staff.

Montreal made a deal for Pitcher Schmidt of the Boston National club, but at the last moment Manager Stallings canceled it.

Baltimore of the International league has three ex-Carolina league players in its infield, namely, Middick, Derrick and Gleichman.

Forest Cady, Red Sox catcher, who sprang into fame as Joe Wood's battery partner in 1912, says this will be his last year in baseball.

Betting is not only troubling the big leagues, but in New Orleans steps have been taken to stop the heavy wagering on ball games.

A Brooklyn Times reporter has found a new name for Federal league baseball as played in Brooklyn. He calls it "horrid rounders."

Joe Cantillon of the Millers believes that the fans in Cleveland will warm up to American association ball once they find out that it is the real article.

Manager Jack Dunn of the Baltimore club says that if four National league clubs are after Birdie Cree the club owners have neglected to mention the fact to him.

A story printed in a Columbus afternoon paper last week that the Columbus club had within the last few days received an offer from the Federal league for its plant was vigorously denied by Bobby Quinn.

Sioux City has signed a full-blooded Indian pitcher named Harold Clark, who bats from the government school at Albuquerque, N. M., where he made a fine record.

The veteran Stony McGlynn is done. He has been released by the little semi-pro team he was playing with on the Wisconsin lake shore.

According to an old-time fan who saw Daus pitch for the Detroit Tigers in New York, the Detroit pitcher is a dead ringer for Charley Nichols.

### CAREER OF FIELDER EVANS

Outfielder of Brooklyn Federals Began Playing Professional Ball in Year 1907.

Louis Evans, better known as "Steve" Evans, the brilliant outfielder of the Brooklyn club of the Federal league, was born in Cleveland, O., February 17, 1885, and broke into baseball as a professional in 1907, the year he joined the Dayton club of the Central league. In 1908 he played with the Montreal International league

"Steve" Evans.

team. At the close of the season he was purchased by the St. Louis National club and reported to the Cardinals in the spring of 1909. He remained a member of the St. Louis team until last winter, when he signed with the Brooklyn club of the new independent major league. He stands five feet ten and one-half inches, weighs 175 pounds and bats and throws right-handed.

Cures Collamore's Wildness. Dode Birmingham says he has cured Allan Collamore's wildness. While warming up Collamore, Birmingham noted that in his windup the pitcher removed his gaze from the plate for an instant, and decided this was his fault. By careful coaching Birmy has taught Collamore to keep his optics glued to the plate no matter how much he dislocates himself in his windup, and the result is that Collamore is locating the plate without trouble.

Passing of Jakey Atz. Beaumont has unconditionally released the veteran Jakey Atz. He was secured from New Orleans and made the captain of the team, but his health refused to improve and he decided to give up the game. It marks the passing of a grand ball player in his day.

Covers His Long Neck. Arthur Fletcher is the only member of the Giants to wear a collar on his baseball shirt. Arthur's head is so far above his shoulders that he feels more dressed up when the intervening space is neatly covered.

Houck Jumps to Feds. Pitcher Byron Houck, delegated by Connie Mack to go from the Athletics to Baltimore and help Jack Dunn's Orioles win a pennant, has done a Danny Murphy and jumped to the Brooklyn Feds.

## HIGHWAY IMPROVEMENT

### TO STUDY ROAD CONDITIONS

Data Being Sought Looking Toward Standardized System of Local Road Management.

Detailed studies of local road building systems in 100 counties are now being carried on by the department of agriculture in co-operation with the state highway departments and local road authorities.

The purpose of this study is to discover the points of excellence and defects in existing local methods of building and maintaining roads which will add the state authorities to put local road management on a systematized basis. The co-operating state authorities have been asked to designate counties that present typical and exceptional features as to topography, character of road materials, methods of construction and maintenance, administrative organization, methods of road financing and traffic conditions.

From these lists 100 counties are now being selected, and in these counties the division of road economics will make intensive studies.

This investigation is prompted by the fact that there is at present very little knowledge as to the most effective and economical methods by which a county can develop its roads.

At present the methods of financing local road improvements vary from calling on farmers for a certain number of days labor in lieu of a road tax, or the use of county prisoners in road construction, to bond issues or maintenance of roads from dramshop license funds.

The department will study all of these systems with the view to determining what system or combination of systems works best in actual practice.

There is, however, at present no standard system of keeping accounts for road building and maintenance, and as a result, while some counties know to a penny the purpose for which money was spent, others have no definite check or reporting system.

Among various counties with the same conditions, cost for excavation or other labor is anything but uniform, and many counties, because of the absence of definite knowledge, fall to use local and cheap materials and construct roads which are unnecessarily expensive for their purpose, or which will wear out before the bond issues are redeemed. The investigation will include a careful study of the use of convict labor in road construction.

In connection with the scientific study, the department's highway engineers will advise freely with local officials as to improvements, and thus give each county visited the advantage of direct co-operation, engineering supervision and assistance.

These investigations, it is believed, will yield important economic data bearing especially on the benefits and burdens of road improvement and showing the extent to which financial outlay under given typical conditions is justifiable.

The heads of state highway departments are manifesting great interest and are co-operating cordially in this work. These data when obtained will be published and thus made accessible to all county and state road officials.

Letting Sun Shine on Highway. The earth road should have at least six hours of sunshine each day. This can be obtained either by locating the road with southern or western exposure or by having such brush and trees as impede the drying action of the sun and wind removed. With gravel and stone roads this is not so necessary, as a certain amount of moisture is needed on such roads, especially in the summer time.

Brings Market Nearer. The good road brings the market nearer to your farm and adds materially to the value of the place, whether you want to sell or live there.

Seeking Dry Roadbeds. Roads should never be located so close to stream beds as to be subject to overflow, or on ground which is constantly damp and marshy.

Every Citizen Interested. A highway is no longer of purely local interest. Every citizen of a state is interested in the roads.

Watering Horses. A college professor gives the old advice to water a little when the horse is first brought in from work and then more 15 to 30 minutes later. If the water is not too cold it will not hurt a horse or a man to drink his fill when he comes in from work.

Keep Clean Men Houses. Eggs that are washed do not always hatch as well as those which are clean when taken from the nest, which shows that it pays to keep clean hen houses and clean nests.

### FAMOUS OLD MEXICAN CITY

Sightseers Look Upon Mitla as One of the Chief Points of Interest in the Country.

Among the many ruined cities of Mexico dating back to antiquity is Mitla, of unusual interest to the sightseer. The name is a contraction or corruption of the word Micatlan, meaning "the place of death." The modern village and the ancient ruins occupy the center of an arid plain or valley, surrounded on all sides by equally arid hills, on the highest summit of which are the well-preserved remains of a great fortress, whose walls are of a rough construction and without ornament of any kind. Nearly in the center of the plain five great groups of buildings stand out completely exposed. Many of them are now nearly shapeless mounds and masses of ruins. Two great groups, however, are in comparatively perfect preservation, a third is incorporated with an old church, and a fourth, the great sacrificial mound, is surmounted by the ruins of a very ancient church. The principal buildings are of stone masonry.

### ECZEMA ITCHED AND BURNED

R. F. D. No. 2, Seymour, Mo.—"My scalp broke out with fine pimples at the start. They itched and burned so much that I was compelled to scratch them and they would fester and come to a head and break out again. The trouble was attended by such burning and itching I could not sleep, also when I sweat it burned the same. My hair fell out gradually and the scalp kept rough and dry with itching and burning. After about two years the pimples broke out between my shoulders. My clothing irritated them. I was troubled with that eczema five or six years.

"I tried everything that was recommended without any benefit until I used the Cuticura Soap and Ointment according to directions, and Cuticura Soap and Ointment cured me sound and well in two weeks." (Signed) S. Killian, Nov. 22, 1912.

Cuticura Soap and Ointment sold throughout the world. Sample of each free with 32-p. Skin Book. Address postcard "Cuticura, Dept. L, Boston."—Adv.

Use Magazine Stories. An invalid or aged person who enjoys magazine articles sometimes finds the magazines, with their bulk of advertising, hard to handle. If the magazines are taken apart by removing the little wire clips that bind the sections together, the stories or articles can be easily handled separately. And any article specially likely to be enjoyed by a friend at a distance can be sent by mail when separated in this way.

Discoverers of Illuminating Gas. It was in 1792 that a Britisher, one Mr. Murdoch, made the first successful experiments on the illuminating properties of gases. Six years later he erected a gas apparatus in Birmingham. In 1802 Monsieur Le Bon illuminated Paris by this new discovery.

New Modern Dancing. The leading expert and instructor in New York City, writes: "Dear Sir—I have used ALLEN'S FOOT-BALE, the antiseptic powder to be shaken into the shoes, for the past ten years. It is a blessing to all who are compelled to be on their feet. I dance eight or ten hours daily, and find that ALLEN'S FOOT-BALE keeps my feet cool, takes the friction from the shoe, prevents corns and sore, itching feet. I recommend it to all my pupils." (Signed) E. FLETCHER HALLAMORE. Sample FREE. Address Allen S. Olmsted, Le Roy, N.Y.

Daily Thought. We do not know what ripples of healing are set in motion when we simply emile on one another. Christianity wants sunny people.—Henry Drummond.

Be happy. Use Red Cross Ball Blue; much better than liquid blue. Delights the laundress. All grocers. Adv.

Last year there were 31,499 home-stead entries in the Canadian Northwest.

Bathing Popular in Baltimore. Nearly one hundred thousand baths were taken during May at the various indoor and outdoor stations controlled by the public bath commission, according to a report compiled by Robert F. G. Kelly, acting secretary to the commission. It beat the record for May, 1913, by about twenty-five thousand.

Of the baths last month, 10,662 were taken at the three outdoor stations. At the eight indoor stations 87,530 were taken.—Baltimore Sun.

Just Like a Woman. "Father, is mother your soul mate?" asked little Willie Botts.

"Er—yes; I guess so, son," answered Mr. Botts, cautiously.

"Umph!" snorted Mrs. Botts. "I'm not your soul mate, Henry; but if I ever catch you looking for her, there's going to be trouble in the family."

Ruling Spirit Strong in Death. Mrs. Mazzuchelli, of Carmarthen, England, left a bequest in her will of \$5 a year to pay for the cleaning of the marble of her grave with soap and water.

Rolling a Road Surface.

### WESTERN CANADA'S NATURAL RESOURCES

PETROLEUM, NATURAL GAS, COAL AND FARM LANDS.

The developments that have taken place recently in the oil and gas fields of Western Canada have but added another to the many precious evidences that, have been produced, showing the great wealth that has been an unknown asset for so many generations.

The latest reports from the oil-fields at Calgary show that there is a production there that would appear to equal the best paying fields on the continent. Experts have been on the ground for some time. It is said that 2,000 gallons an hour. If this is so there are but about a dozen wells in the world of greater production. During the past week discoveries of surface indications have been made which show that oil exists over a considerable portion of Alberta and Saskatchewan, while in Manitoba there have also been showings. At Battleford, Saskatchewan, a few days ago discoveries were made which led to the filling for leases on twenty thousand acres of land, all having strong surface indications. Companies were formed to carry on immediate work, and in a couple of months, or probably less, the story will be told whether oil exists in paying quantities.

But there are also the coal deposits and the natural gas deposits that are helping to make of Western Canada one of the wealthiest portions of the continent.

With the grain fields covering these hidden riches it is no wonder that a continued range of optimism is to be seen everywhere. Early reports of seeding of all grains being successfully completed all over the country are followed by reports of excellent and strong growth everywhere. During the first week in June most of the wheat had reached a growth of from twelve to twenty inches, with the most even appearance, almost universally, that has been seen for years. Oats appeared equally well, and covered the ground in a way that brought the broadest kind of a grin to overspread the farmer's countenance.

Barley, a favorite with the hog raisers, had taken good root, and was crowding oats for a first place, as to length of shoot. Cultivated fodder grasses are getting great attention, as a consequence of the inclination to go more largely into mixed farming, and the raising of hogs, cattle and horses. The weather is reported fine, just what is needed, and if present favorable conditions continue, the grain crop of Western Canada for 1914 will be the largest average in the history of the country.—Advertisement.

The Retort Courtous. The Poet—My reading is in my mind. The Cynic—Bound in calf?

Don't tell people that you are as good as they are; show them that you are better.

If the average man could only sell the advice he gives away it would keep him busy counting his coin.

More than thirty-five thousand Irishmen left the old sod last year.

### WOMEN CAN HARDLY BELIEVE

How Mrs. Hurley Was Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Eldon, Mo.—"I was troubled with displacement, inflammation and female weakness. For two years I could not stand on my feet long at a time and I could not walk two blocks without enduring cutting and drawing pains down my right side which increased every month. I have been at that time purple in the face and would walk the floor. I could not lie down or sit still sometimes for a day and a night at a time. I was nervous, and had very little appetite, no ambition, melancholy, and often felt as though I had not a friend in the world. After I had tried most every female remedy without success, my mother-in-law advised me to take Lydia E. Pinkham's Vegetable Compound. I did so and gained in strength every day. I have now no trouble in any way and highly praise your medicine. It advertises itself."—Mrs. S. T. HURLLEY, Eldon, Missouri.

Remember, the remedy which did this was Lydia E. Pinkham's Vegetable Compound. For sale everywhere.

It has helped thousands of women who have been troubled with displacements, inflammation, ulceration, tumors, irregularities, periodic pains, backache, that bearing down feeling, indigestion, and nervous prostration, after all other means have failed. Why don't you try it? Lydia E. Pinkham Medicine Co., Lynn, Mass.

Make the Liver Do its Duty

Nine times in ten when the liver is right the stomach and bowels are right.

CARTER'S LITTLE LIVER PILLS gently but firmly compel a lazy liver to do its duty.

Cures Constipation, Indigestion, Sick Headaches, and Distress After Eating.

SMALL PILL, SMALL DOSE, SMALL PRICE. Genuine must bear Signature.

Be a Veterinarian

Write for catalog and full information about a big paying unworked profession. Every year we receive more requests for our graduates than we can fill. Address, Dr. J. H. R. Rogers, Dean, ST. JOSEPH VETERINARY COLLEGE, 754 N. Myrtle Street, St. Joseph, Missouri. Manufacture Hog Cholera serum also.

PARKER'S HAIR BALSAM A toilet preparation of merit. Helps to eradicate dandruff. For Restoring Color and Beauty to Gray or Faded Hair. 50c. and \$1.00 at Druggists.

# Years of Experience Makes Perfect CASTORIA

Mothers may try new remedies on themselves but Baby's life is too delicate, too precious to try any experiments.

Genuine

# CASTORIA

Always

Bears the Signature of
