# UNREST IN MEXICO

General Obregon Loyal to Carranza, Has Formally Declared War On Villa.

Washington.-D. C .- Official advices to the United States government from its agents throughout Mexico, revealed the situation as more confused than it has been in many months. The official telegrams summarized events as follows:

General Guterrez, selected provisional president by the convention at Aguas Calientes, has decided to continue General Francisco Villa in command of all the troops controlled by the convention. Villa has advanced to Irapuato without resistance, and American consular agents say he will continue to Juaretaro and the vicinity of Mexico City without difficulty.

General Obregon in the Mexican capital, and loyal to Carranza, has formally declared war on General Villa. Unrest and apprehension prevails in Mexico City.

All the public offices have been vacated and the American agents do not know whether it is the purpose of the Carranza-Obregon faction to leave the place undefended, or whether a small garrison will be kept there while General Pablo Gonzalez and other Carranza forces move north to meet the advance of the Villa col-
